Danger in the Path of Chic brings this disturbing imagery to light for the first time proposing new directions for historians of fashion violence and culture in the interwar years Concentrating on London Paris and New York as fashion centres and political allies the volume explores why horror manifested itself in this way at this time and in a sphere that is usually perceived as being built on fantasy and escape In doing so Danger in the Path of Chic situates fashion within the very real social psychological economic and political traumas of the period     *Whitaker's Cumulative Book List* ,1986     *The Cumulative Book Index* ,1988 A world list of books in the English language     **The Publishers' Circular and Booksellers' Record of British and Foreign Literature** ,1893
