

A romantic couple is shown in a close embrace, kissing. The man, on the right, has dark, wavy hair and is wearing a dark, textured t-shirt. The woman, on the left, has long, light-colored hair and is wearing a light-colored top. They are seated in the front of a car, with the steering wheel and dashboard visible on the right side of the frame. The background shows a blurred view of a road and some greenery, suggesting they are driving. The overall mood is intimate and romantic.

The best feeling in the world
is being with someone who
wants you as much as
you want them.

Love's Knowledge Martha C. Nussbaum,1990-11-15 This volume brings together Nussbaum s published papers on the relationship between literature and philosophy especially moral philosophy The papers many of them previously inaccessible to non specialist readers deal with such fundamental issues as the relationship between style and content in the exploration of ethical issues the nature of ethical attention and ethical knowledge and their relationship to written forms and styles and the role of the emotions in deliberation and self knowledge Nussbaum investigates and defends a conception of ethical understanding which involves emotional as well as intellectual activity and which gives a certain type of priority to the perception of particular people and situations rather than to abstract rules She argues that this ethical conception cannot be completely and appropriately stated without turning to forms of writing usually considered literary rather than philosophical It is consequently necessary to broaden our conception of moral philosophy in order to include these forms Featuring two new essays and revised versions of several previously published essays this collection attempts to articulate the relationship within such a broader ethical inquiry between literary and more abstractly theoretical elements *Cherish That Love* Shruti Goswami, It is an anthology compiled by Shruti Goswami

A Social Theory of Freedom Mariam Thalos, 2016-03-17 In A Social Theory of Freedom Mariam Thalos argues that the theory of human freedom should be a broadly social and political theory rather than a theory that places itself in opposition to the issue of determinism Thalos rejects the premise that a theory of freedom is fundamentally a theory of the metaphysics of constraint and instead lays out a political conception of freedom that is closely aligned with questions of social identity self development in contexts of intimate relationships and social solidarity Thalos argues that whether a person is free in any context depends upon a certain relationship of fit between that agent's conception of themselves both present and future on the one hand and the facts of their circumstances on the other Since relationships of fit are broadly logical freedom is a logic it is the logic of fit between one's aspirations and one's circumstances what Thalos calls the logic of agency The logic of agency once fleshed out becomes a broadly social and political theory that encompasses one's self conceptions as well as how these self conceptions are generated together with how they fit with the circumstances of one's life The theory of freedom proposed in this volume is fundamentally a political one

The Emotions Peter Goldie, 2002-08 Peter Goldie opens the path

to a deeper understanding of our emotional lives through a lucid philosophical exploration of this surprisingly neglected topic. He illuminates the phenomena of emotion by drawing not only on philosophy but also on literature and science. He considers the roles of culture and evolution in the development of our emotional capabilities. He examines the links between emotion, mood, and character and places the emotions in the context of such related phenomena as consciousness, thought, feeling, and imagination. He explains how it is that we are able to make sense of our own and other people's emotions and how we can explain the very human things which emotions lead us to do. A key theme of *The Emotions* is the idea of a personal perspective or point of view contrasted with the impersonal stance of the empirical sciences. Goldie argues that it is only from the personal point of view that thoughts, reasons, feelings, and actions come into view. He suggests that there is a tendency for philosophers to over-intellectualize the emotions and investigates how far it is possible to explain emotions in terms of rationality. Over-intellectualizing can also involve neglecting the centrality of feelings, and Goldie shows how to put them where they belong as part of the intentionality of emotional experience directed towards the world from a point of view. Goldie argues that the various elements of emotional experience, including thought, feeling, bodily change, and expression, are tied together in a narrative structure. To make sense of one's emotional life, one has to see it as part of a larger, unfolding narrative. The narrative is not simply an interpretative framework of a life; it is what that life is. Goldie concludes by applying these ideas in a close study of one particular emotion: jealousy. This fascinating book gives an accessible but penetrating exploration of a subject that is important but mysterious to all of us. Any reader interested in emotion and its role in our understanding of our lives will find much to think about here.

[_x000D_ Make Love Your Aim](#) Eugenia Price, 2021-04-27 Everyone today is an expert on love, is Dr. Allan Fromme's cryptic reflection on our current mood. With a sense of human adventure, Eugenia Price suggests in *Make Love Your Aim* that anyone can be an expert on love if he will dare to discover for himself the love God offers. We have so sentimentalized our concept of love that it bears no resemblance to the original. Miss Price writes: We have taken the word of romantic novels and motion pictures and TV and perfume and men above the Word of God. The Bible declares that God is

love How closely does your concept of love resemble the love of God We tend to judge the quality of love according to the way it makes the loved one feel But to judge love by feeling is our big error and the point at which we turn aside from God s original concept Make Love Your Aim is a companion piece to the author s last book The Wider Place which was described by some readers as a controversial challenge to try the inner freedom God grants to anyone who want it enough to assume the responsibilities that come with it Freedom and love are two sides of the same coin And we can only understand them enough to practice them if we know the way God defines them How does He do this In Jesus Christ the final yet continuing revelation of God s true intentions toward all of us Those who are familiar with Eugenia Price s books will recognize this as a recurring theme Make Love Your Aim develops it with imagination and versatility Jesus said If the Son shall make you free you shall be free indeed But He was offering to wave no magic wand over our heads so that we could do as we pleased He also said This is my commandment That you love one another as I have loved you His is the love of the Cross without self defense without self pity and totally free
