Sternberg,1999-06-03 In this groundbreaking work Robert Sternberg opens the book of love and shows you how to discover your own story and how to read your relationships in a whole new light What draws us so strongly to some people and repels us from others What makes some relationships work so smoothly and others burst into flames Sternberg gives us new answers to these questions by showing that the kind of relationship we create depends on the kind of love stories we carry inside us Drawing on extensive research and fascinating examples of real couples Sternberg identifies 26 types of love story including the fantasy story the business story the collector story the horror story and many others each with its distinctive advantages and pitfalls and many of which are clashingly incompatible These are the largely unconscious preconceptions that guide our romantic choices and it is only by becoming aware of the kind of story we have about love that we gain the freedom to create more fulfilling and lasting relationships As long as we remain oblivious to the role our stories play we are likely to repeat the same mistakes again and again But the enlivening good news this book brings us is that though our stories drive us we can revise them and learn to choose partners whose stories are more compatible with our own Quizzes in each chapter help you to see which stories you identify with most strongly and which apply to your partner Are you a traveler a gardener a teacher or something else entirely Love is a Story shows you how to find out **Billboard** ,1957-02-02 In its 114th year Billboard remains the world's premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends *Love: A Good Medicine (The Saga of the Elixir of Life) (Introducing 'LoveOlogy')* Dr. Siddhartha Ganguli,2024-01-15 The human emotion of love has its own spectrum like the rainbow with its two extremes represented by two different neuro chemicals Dopamine Smart Love Short lived or Short Love and Oxytocin Sustained Love In the ancient Indian NatyaShastra of the great Bharata Muni the essence or rasa of love is Sringara having at its two poles Kama lust and Prema pure love As illustrations of the Sringara rasa the author has analysed a number of love song lyrics from different cultures In this book while the author has looked at and analysed love from the angles of bio medical social psychological and neurological sciences one unique concept shared is that of the love pie A very special section deals with Futuristic Love where the author has discussed the idea of having a love relationship with AI Artificial Intelligence Special contributions by the Stellar Maestro world famous polymath musician
