Adaptation in Visual Culture Julie Grossman, R. Barton Palmer, 2017-12-06 This book gathers together essays written by leading scholars of adaptation studies to explore the full range of practices and issues currently of concern in the field The chapters demonstrate how content and messaging are shared across an increasing number of platforms whose interrelationships have become as intriguing as they are complex Recognizing that a signature feature of contemporary culture is the convergence of different forms of media the contributors of this book argue that adaptation studies has emerged as a key discipline that unlike traditional literary and art criticism is capable of identifying and analyzing the relations between source texts and adaptations created from them Adaptation scholars have come to understand that these relations not only play out in individual case histories but are also institutional and this collection shows how adaptation plays a key role in the functioning of cinema television art and print media The volume is essential reading for all those interested both in adaptation studies and also in the complex forms of intermediality that define contemporary culture in the 21st century

Classical Hollywood, American Modernism Jordan Brower, 2024-01-18 Classical Hollywood American Modernism charts the entwined trajectories of the Hollywood studio system and literary modernism in the United States By examining the various ways Hollywood s industry practices inflected the imaginations of authors filmmakers and studios Jordan Brower offers a new understanding of twentieth century American and ultimately world media culture Synthesizing archival research with innovative theoretical approaches this book tells the story of the studio system s genesis international dominance decline and continued symbolic relevance during the American postwar era

through the literature it influenced. It examines the American film industry's business practices and social conditions demonstrating how concepts like anticipated adaptation, corporate authorship, systemic development, and global distribution inflected the form of some of the greatest works of prose fiction and nonfiction by modernist writers such as Anita Loos, F. Scott Fitzgerald, William Faulkner, Patsy Ruth Miller, Nathanael West, Parker Tyler, Malcolm Lowry, and James Baldwin.

Literatim Howard Markel, 2020. In 1959, shortly before his death and while reflecting over his roller coaster career as a Hollywood film director, Preston Sturges, who I write about more fully later in this book, remarked the only amazing thing about my career is that I ever had one at all. The same might be said about my career as a physician and historian of medicine. As a young boy, some of my best companions were the characters I met on the pages of novels, stories, theatrical scripts, and screenplays. Fascinated by human stories, contradictions, both moral and physical, and worlds so vastly different from my middle class suburban Detroit upbringing, I was inspired to try my hand at writing some of my own tales. In my teens, I was an active participant in my high school's theatre program, thankfully in an era when taxpayers still supported the arts as a critical part of the public school curriculum, and wrote a series of incredibly bad plays. Soon enough, I was confronted by the decidedly difficult time I had in coming up with believable plots, a serious handicap for any budding fabulist.

Reinventing Hollywood David Bordwell, 2017-10-02. Introduction: the way Hollywood told it. The frenzy of five fat years. Interlude: Spring 1940 lessons from our town. *Student Companion to F. Scott Fitzgerald* Linda C. Pelzer, 2000-07-30. The dazzling romantic fiction of F. Scott Fitzgerald manages to captivate each new generation of readers. This critical introduction, written specifically for students, offers insightful yet accessible literary criticism for five novels: *This Side of Paradise*, *The Beautiful and Damned*, *The Great Gatsby*, *Tender Is the Night*, and *The Last Tycoon*. A full chapter is devoted to examining each of these works with an in-depth discussion of character development, thematic concerns, and plot structure. The introduction to each novel traces its genesis and the critical reception it received at the time it was written. The historical context sections examine the ways visionary works like *The Great Gatsby* offer both a chronicle and a critique of the attitudes, dreams, and illusions of American society during the period between the First and Second World Wars. Students will also get a vivid sense of how life and art converged in the fiction of F. Scott Fitzgerald, the man who christened the Jazz Age. This introductory study features a biographical chapter that relates Fitzgerald's life to his work and a chapter that places his fiction within its historical and literary contexts. Five chapters analyze not only the basic literary components of plot, character, and theme but also provide an alternate critical interpretation of each novel that enriches reader's understanding of the work's complexity and vision. A complete bibliography of Fitzgerald's works and a selected bibliography of critical and biographical sources complete this volume. National Melancholy Mitchell Robert Breitwieser, 2007. Breitwieser's close readings reveal that the thwarting of mourning, partly linked to nationalist feeling, was a central issue for many American authors, but that those who successfully reclaimed mourning came to strange and fresh understandings of the actual world.

In and Out of Sight Alix Beeston, 2017-12-05 In a post-digital media landscape tracked endlessly by streams and feeds of images it is clearer than ever that photography is an art poised between arresting singularity and ambiguous plurality Drawing on work in visual culture studies that emphasizes the interplay between still and moving images *In and Out of Sight* provides a provocative new account of the relationship between photography and modernist literature a literature which has long been considered to trace in its formal experimentation the influence of modern visual technologies Making pioneering claims about the

importance of photography to the writing of Gertrude Stein Jean Toomer John Dos Passos and F Scott Fitzgerald Alix Beeston traverses the history of photography in the late nineteenth and early twentieth centuries From the composite experiments of Francis Galton to the epic portrait project of August Sander from the surrealist self fashioning of Claude Cahun to the reappropriation of lynching photographs by black activist groups from the collectable postcards of Broadway stars to the glamour shots of Hollywood celebrities these and other serialized photographic projects provide essential contexts for understanding the fragmentary composite forms of literary modernism In a series of richly detailed literary analyses Beeston argues that the gaps and intervals of the composite literary text model the visual syntax of photography as well as its silences absences and equivocations In them the social and political order of modernity is negotiated and reshaped Moving in and out of these textual openings In and Out of Sight pursues the fleeting visible and invisible figure of the woman in series who recasts absence and silence as forms of presence and witness This shadowy figure emerges as central to the conceptual space of modernist literature a terrain not only gendered but radically constructed around the instability of female bodies and their desires The Publishers Weekly ,2004
