Bruner,1995-08-15 This book is one of several indications that the sociology of tourism is on the move these articles raise relevant important themes in the study of tourism The contributors to this very readable book provide valuable insights many of which have been derived from empirical research that should interest anyone involved in the study of international tourism And by moving us away from polarised positions over the social impact of tourism toward more complex but also more considered perspectives they have also helped alter the agenda for future research David Harrison University of Sussex Tourism is becoming an increasingly prominent feature of contemporary life More of us travel for pleasure than ever before yet the social scientific literature on tourism is relatively scant This book provides an original contribution to the field of tourist studies The contributors to International Tourism reconceptualize the local and the global avoiding such crude oppositions as centre v periphery modern v traditional macro v micro and North v South Instead they demonstrate that the local cannot be understood without the global and that the global can never be isolated from the regional setting within which it operates Providing new insights into theories of touristic practice this volume places tourism within the same framework as other transnational global studies **Culture on Tour** Edward M. Bruner,2005 Analysing a variety of tourist productions ranging from dance dramas in Bali to an Abraham Lincoln heritage site in Illinois Bruner considers the diverse perspectives of various actors including the tourists the producers the natives the anthropologist himself *Religious Tourism* Tzung-Cheng (TC) Huan,Anestis K. Fotiadis,Nikolaos Stylos,2024-12-09 This thought provoking book embarks into the captivating world of religious tourism and explores the intricate relationship between travel and spirituality shedding light on whether tourists are seekers of profound meaning or simply pleasure seekers In first section of the book the chapters delve into the complex dynamics of pilgrimage landscapes the significance of sacred heritage sites and the evolving role of tourism in religious experiences Part II of the volume digs deeper into the spiritual dimensions of religious tourism examining the restorative benefits of spiritual retreats the anthropology of spirituality and tourism and the motivations of modern day pilgrims Written in an accessible style this volume invites readers from all backgrounds to explore the profound impact of religious tourism on individuals and societies alike Engaging and enlightening this volume is a must read for anyone intrigued by the intersection of travel and spirituality The chapters in this book were originally published in Tourism Recreation Research Postcolonial Tourism Anthony Carrigan,2011-02 Carrigan here examines the aesthetic portrayal of tourism in postcolonial literatures Looking at the cultural and ecological effects of mass tourism development in states that are still grappling with the legacies of western colonialism he argues that postcolonial writers provide blueprints toward sustainable tourism futures **Securing Paradise** Vernadette Vicuña Gonzalez,2013-07-11 Securing Paradise analyzes how cultures of U S imperialism are produced and sustained in Asia and the Pacific particularly in Hawaii and the Philippines by the mutually reinforcing dynamics of tourism and militarism Tourism and Citizenship Raoul Bianchi,Marcus Stephenson,2014-02-24 More than sixty years since the 1948 Universal Declaration of Human Rights first enshrined the right

to freedom of movement in an international charter of human rights the issue of mobility and the right to tourism itself have become increasingly significant areas of scholarly interest and political debate However despite the fact that cross border travel implies certain citizenship rights as well as the material capacity to travel the manifold intersections between tourism and citizenship have not received the attention they deserve in the literature This book endeavours to fill this gap by being the first to fully examine the role of tourism in wider society through a critically informed sociological reflection on the unfolding relationships between international tourism and distinct renderings of citizenship with particular emphasis on the ideological and political alignments between the freedom of movement and the right to travel The text weaves its analysis of citizenship and travel in the context of addressing large scale societal transformations engendered by globalization neoliberalism and the geopolitical realignments between states as well as comprehending the internal reconfiguring of the relationship between citizens and states themselves By doing so it focuses on key themes including tourism and social citizenship rights race culture and minority rights states markets and the freedom of movement tourism peace and geopolitics consumerism and class and ethical tourism global citizenship and cosmopolitanism The book concludes that the advancement of genuinely democratic and just forms of tourism must be commensurate with demands for distributive justice and a democratic politics of mobility encompassing all of humanity This timely and significant contribution to the sociology and politics of international tourism through the lens of citizenship is a must read for students and scholars in both in the fields of tourism and social science The royalties received from this book will be donated to the International Porter Protection Group
