Nasa Trek Popular Science And Sex In America:

NASA/Trek Constance Penley, 1997 This wry and highly readable investigation of the role of space travel in popular imagination looks at the way NASA has openly borrowed from the TV show Star Trek to reinforce its public standing It also celebrates the work of a group of the show's fans who rewrite its storylines in porno romance fanzines Constance Penley advocates that scientific experimentation be accompanied by social and sexual experimentation and devoted to exploring inner as well as outer space All-American TV Crime Drama Sujata Moorti, Lisa Cuklanz, 2016-12-18 Law and Order Special Victims Unit SVU is more popular than any other American police procedural television series but how does its unique focus on sex crimes reflect contemporary popular culture and feminist critique whilst also recasting the classic crime narrative All American TV Crime Drama is the first dedicated study of SVU and its treatment of sexual violence gender and criminality The book uses detailed textual and visual analyses of episodes to illuminate the assumptions underpinning the programme Although SVU engages with issues pertaining to feminism and gender it still relies upon traditional and misogynistic tropes such as false rape charges and the monstrous mother to undermine positive views of the feminine The show and its backdrop New York City thus become a stage on which national concerns about women gender roles the family and race are carried out Moorti and Cuklanz unpack how the show has become a crucible for examining current attitudes towards these issues and include an analysis of its reception by its many fans in over 30 countries *The Fan Fiction Studies Reader* Karen Hellekson, Kristina Busse, 2014-02-15 Textual poachers Henry Jenkins It's always 1895 Sherlock Holmes in cyberspace Roberta Pearson The death of the reader Literary theory and the study of texts in popular culture Cornel Sandvoss Pornography by women for women with love Joanna Russ Romantic myth transcendence and Star Trek zines Patricia Frazer Lamb and Diana L Veith The sex lives of cult television characters Sara Gwenllian Jones Training new members Camille Bacon Smith Fans and enthusiasts Nicholas Abercrombie and Brian Longhurst Future men Constance Penley Performing in Babylon performing in everyday life Kurt Lancaster Writing bodies in space media fan fiction as theatrical performance Francesca Coppa *How to Have Theory in an Epidemic* Paula A. Treichler, 1999 A collection of essays on the AIDS epidemic by a leading feminist cultural theorist of science **Making Time on Mars** Zara Mirmalek, 2020-04-07 An examination of how the daily work of NASA's Mars Exploration Rovers was organized across three sites on two planets using local Mars time In 2004 mission scientists and engineers working with NASA's Mars Exploration Rovers MER remotely operated two robots at different sites on Mars for ninety consecutive days An unusual feature of this successful mission was that it operated on Mars time the daily work was organized across three sites on two planets according to two Martian time zones In Making Time on Mars Zara Mirmalek shows that this involved more than a resetting of wristwatches the team's struggle to synchronize with Mars time involved technological and communication breakdowns informal workarounds and extra work to support the technology that was intended to support people Her account of how NASA created an entirely new

temporality for the MER mission offers insights about the assumptions behind the organizational relationship between clock time and work Mirmalek herself a member of the mission team offers an insider's view of the MER workplace and community She describes the discord among MER's multiple temporalities and examines issues of professional identity that helped shape the experience of working according to Mars time Considering time and work relationships through a multidisciplinary lens Mirmalek shows how contemporary and historical human technology relationships inform assumptions about the unalterability of clock time She argues that the organizational connection between clock time and work although still operational is outdated

Into the Black Peter J. Westwick, 2008-10-01 div In the decades since the mid 1970s the Jet Propulsion Laboratory in Pasadena California has led the quest to explore the farthest reaches of the solar system JPL spacecraft Voyager Magellan Galileo the Mars rovers and others have brought the planets into close view JPL satellites and instruments also shed new light on the structure and dynamics of earth itself while their orbiting observatories opened new vistas on the cosmos This comprehensive book recounts the extraordinary story of the lab's accomplishments failures and evolution from 1976 to the present day This history of JPL encompasses far more than the story of the events and individuals that have shaped the institution It also engages wider questions about relations between civilian and military space programs the place of science and technology in American politics and the impact of the work at JPL on the way we imagine the place of humankind in the universe DIV

Gender, Sexuality, and Space Culture Kat Deerfield, 2019-08-28 Gender Sexuality and Space Culture explores how traditional ideologies of gender and sexuality have influenced the culture of space travel The time since humans first began exploring outer space has been marked by both great technological development and great social upheaval Yet while the rapid technological advancement of the mid to late twentieth century made human spaceflight a reality the field has shown some resistance to cultural change over the same period Ideas about the body in space and the future of humanity are at the core of the development of human spaceflight This book examines how these have been constructed as specifically a male body and a heterosexual future These presumptive norms are not unusual but this book argues that the unique attributes of outer space can be productively used in advancing theories of culture beyond the extra terrestrial

The World Is Born From Zero Cameron Kunzelman, 2022-07-18 The World is Born From Zero is an investigation into the relationship between video games and science fiction through the philosophy of speculation Cameron Kunzelman argues that the video game medium is centered on the evaluation and production of possible futures by following video game studies media philosophy and science fiction studies to their furthest reaches Claiming that the best way to understand games is through rigorous formal analysis of their aesthetic strategies and the cultural context those strategies emerge from Kunzelman investigates a diverse array of games like The Last of Us VA 11 Hall A and Civilization VI in order to explore what science fiction video games can tell us about their genres their ways of speculating and how the medium of the video game does or does not direct us down experiential pathways that are both oppressive and liberatory Taking a

multidisciplinary look at these games *The World is Born From Zero* offers a unique theorization of science fiction games that provides both science fiction studies and video game studies with new tools for thinking how this medium and mode inform each other

Drones, Clones, and Alpha Babes Diana M. A. Relke, 2006 The Star Trek franchise represents one of the most successful emanations of popular media in our culture The number of books both popular and scholarly published on the subject of Star Trek is massive Relke sheds light on how the Star Trek narratives influence and are influenced by shifting cultural values in the United States using these as portals to the sociopolitical and sociocultural landscapes of pre and post 9 11 United States

Fan Cultures Matthew Hills, 2003-09-02 Emphasising the contradictions of fandom Matt Hills outlines how media fans have been conceptualised in cultural theory Drawing on case studies of specific fan groups from Elvis impersonators to X-Files and Trekkers Hills discusses a range of approaches to fandom from the Frankfurt School to psychoanalytic readings and asks whether the development of new media creates the possibility of new forms of fandom Fan Cultures also explores the notion of fan cults or followings considering how media fans perform the distinctions of cult status

Revisioning Women, Health and Healing Adele E. Clarke, Virginia Olesen, 2013-11-12 This engaging collection examines the implications and representations of race class and gender in health care offering new approaches to women's health care Subjects covered range from reproductive issues to AIDS

Lesbian Potentiality and Feminist Media in the 1970s Jed Samer, 2022-02-04 In *Lesbian Potentiality and Feminist Media in the 1970s* Jed Samer explores how 1970s feminists took up the figure of the lesbian in broad attempts to reimagine gender and sexuality Samer turns to feminist film video and science fiction literature offering a historiographical concept called lesbian potentiality a way of thinking beyond what the lesbian was in favor of how the lesbian signified what could have come to be Samer shows how the labor of feminist media workers and fans put lesbian potentiality into movement They see lesbian potentiality in feminist prison documentaries that theorize the prison industrial complex's racialized and gendered violence and give image to Black feminist love politics and freedom dreaming Lesbian potentiality also circulates through the alternative spaces created by feminist science fiction and fantasy fanzines like *The Witch* and *the Chameleon* and *Janus* It was here that author James Tiptree Jr Alice B Sheldon felt free to do gender differently and inspired many others to do so in turn Throughout Samer embraces the perpetual reimagination of lesbian and the lesbian's former futures for the sake of continued radical world building

Space Craze Margaret A. Weitekamp, 2022-10-18 A space historian's tour through astounding spaceflight history and the Smithsonian's collection of space and science fiction memorabilia Winner of the American Institute of Aeronautics and Astronautics 2024 Gardner Lasser Aerospace History Literature Award Spanning from the 1929 debut of the futuristic Buck Rogers to present day privatization of spaceflight *Space Craze* celebrates America's endless enthusiasm for space exploration Author Margaret Weitekamp curator at the Smithsonian's National Air and Space Museum writes with warmth and personal experience to guide readers through extraordinary spaceflight history while highlighting objects from the Smithsonian's spaceflight

collection Featuring historical milestones in space exploration films and TV shows literature and comic strips toys and games and internet communities Space Craze is a sci fi lover s dream The book investigates how spaceflight both real and imagined has served as the nexus where contemporary American concerns such as race gender sexuality freedom and national identity have been explored and redefined Chronological chapters include Chapter 1 Buck Rogers Ray Guns and the Space Frontier Chapter 2 Space Forts Television and the Cold War Mindset Chapter 3 John Glenn the Apollo Program and Fluctuating Spaceflight Enthusiasm Chapter 4 Star Trek Star Wars and Burgeoning Fandoms Chapter 5 Generation X the Space Shuttle and Promoting Education Chapter 6 Space Stations Spaceflight Enthusiasm and Online Fandom Chapter 7 Streaming Services Battling Billionaires and Accelerated Change From the almost 650 million viewers who tuned in to watch the first steps on the Moon to the ardent Star Trek fandom that burgeoned into a cultural force Space Craze taps into the country s enduring love affair with space The Crunk Feminist Collection Brittney C. Cooper,Susana M. Morris,Robin M.

Boylorn,2016-12-19 Essays on hip hop feminism featuring relevant real conversations about how race and gender politics intersect with pop culture and current events For the Crunk Feminist Collective their academic day jobs were lacking in conversations they actually wanted To address this void they started a blog that turned into a widespread movement The Collective s writings foster dialogue about activist methods intersectionality and sisterhood And the writers personal identities as black women as sisters daughters and lovers and as television watchers sports fans and music lovers are never far from the discussion at hand These essays explore Sex and Power in the Black Church discuss how Clair Huxtable is Dead list Five Ways Talib Kweli Can Become a Better Ally to Women in Hip Hop and dwell on Dating with a Doctorate She Got a Big Ego Self described as critical homegirls the authors tackle life stuck between loving hip hop and ratchet culture while hating patriarchy misogyny and sexism Refreshing and timely Bitch Magazine Our favorite sister bloggers Elle By centering a Black Feminist lens The Collection provides readers with a more nuanced perspective on everything from gender to race to sexuality to class to movement building packaged neatly in easy to read pieces that take on weighty and thorny ideas willingly and enthusiastically in pursuit of a more just world Autostraddle Much like a good mix tape the book has an intro outro and different layers of based sound in the activist scholar feminist women of color media representation sisterhood trans queer and questioning landscape Lambda Literary Review *Bits of Life* Anneke M. Smelik,Nina Lykke,2010-07-01 Since World War II the biological and technological have been fusing and merging in new ways resulting in the loss of a clear distinction between the two This entanglement of biology with technology isn t new but the pervasiveness of that integration is staggering as is the speed at which the two have been merging in recent decades As this process permeates more of everyday life the urgent necessity arises to rethink both biology and technology Indeed the human body can no longer be regarded either as a bounded entity or as a naturally given and distinct part of an unquestioned whole Bits of Life assumes a posthuman definition of the body It is grounded in questions about today s biocultures which pertain neither to humanist

bodily integrity nor to the anthropological assumption that human bodies are the only ones that matter Editors Anneke Smelik and Nina Lykke aid in mapping changes and transformations and in striking a middle road between the metaphor and the material In exploring current reconfigurations of bodies and embodied subjects the contributors pursue a technophilic yet critical path while articulating new and thoroughly appraised ethical standards Lady Astronauts, Lady Engineers, and Naked Ladies Karin Hilck, 2019-07-08 The book *Lady Astronauts Lady Engineers and Naked Ladies* is a gender history of the American space community and by extension a social history of American society in the twentieth century during the Cold War In order to expand and differentiate the prevalent postwar narrative about gender relations and cultural structures in the United States the book analyzes several different groups of women interacting in different social spaces within the space community It therewith grants insight into the several layers of female participation and agency in the community and the gender and race based obstacles and hurdles the female prospective astronauts scientists engineers artists administrators writers hostesses secretaries and wives were faced with at NASA and in the space industry In each chapter a different social space within the space community is analyzed The spaces where the women lived and worked are researched from a media individual and institutional angle ultimately revealing the differing gender philosophies communicated in the public sphere and the space community workplaces by government and space community officials While women were publicly encouraged to participate in the American space effort to beat the Soviet Union in the race to the moon women had to deal with gender based barriers which were integral to the structures of the space community just as they were an intrinsic component of all societal structures in the United States in the 1960s The female space workers who were often perceived as disrupters of the prevalent social order in the space community and discriminated by some of their male colleagues and bosses on a personal basis still managed to assert themselves They molded pockets of agency in the space community workspaces without the facilitation of regulations on the part of NASA that might have provided them with easier access or more agency Thus the space community a place of technological innovation was not necessarily also a place of social innovation but a community with a government agency at its center that mainly mirrored the current changing social order conventions and policies in the 1960s as well as in the 1970s and 1980s Nevertheless the women presented in this book were instrumental in advancing and consolidating the social transformation that happened within the space community and the United States and therefore make intriguing subjects of research Thus this systematic analysis of the connection between gender space and the Cold War adds a new dimension to space history as well as expands the discourse in American history about gender relations and the opportunities of women in the twentieth century **Playing Fans** Paul Booth, 2015-03-15 Fans are everywhere from *Fifty Shades of Grey* to *Veronica Mars* from Comic Con to sitcom from niche to Geek Chic fans are becoming the most visible and important audience of the twenty first century For years the media industries ignored fans and fan activities but now they are paying attention and a lot of money to develop a whole new wave of products intended to harness the power of fandom What

impact do such corporate media efforts have on fan practice and fan identities And are the media industries actually responding to fans as fans want them to In *Playing Fans* Paul Booth argues that the more attention entertainment businesses pay to fans the more mainstream fans have become popularized But such mainstreaming ignores important creative fan work and tries to channel fandom into activities lucrative for the companies Offering a new approach to the longstanding debate about the balance between manipulation and subversion in popular culture the author argues that we can understand the current moment best through the concepts of pastiche and parody This sophisticated alternative to conceiving of fans as either dupes of the media industry or rebels against it takes the discussion of transformative and affirmative fandom in a productive new direction With nuanced analyses of the *Doctor Who* Experience in Cardiff the representations of fans in TV shows like *Community* and films like *Fanboys* *SuperWhoLock* fans use of gifs and the similarities in discussions of slash fandom and pornographic parody films this book reveals how fans borrow media techniques and media industries mimic fan activities Just as the entertainment industry needs fans to succeed so too do fans need and desire the media and they represent their love through gif fics crowdfunding and digital cosplay Everyone who wants to understand how consumers are making themselves at home in the brave new world being built by the contemporary media should read this book **A**
