North Coast Collected ,2016-03-01 **Bulletin of the United States Fish Commission** United States Fish Commission,1905 The Aquatic Resources of the Hawaiian Islands: The deep-sea fishes David Starr Jordan,Barton Warren Evermann,1905 Elihu Root Collection of United States Documents ,1903 **Bulletin** ,1931 *Birds of the Yukon Territory* Pamela H. Sinclair,Wendy A. Nixon,Cameron D. Eckert,Nancy L. Hughes,2011-11-01 The Yukon is a land of remarkable wilderness diverse ecosystems and profound beauty It is also home to a unique assemblage of birds As of 2002 288 bird species have been documented in the Yukon with 223 occurring regularly They occupy an amazing range of habitats from the most barren mountain peaks to lush valley bottom forests and are an integral part of the cultural heritage of Yukon First Nations people The vast areas of natural habitat with limited road access can make the study of birds challenging but are key in defining the nature of birding in the Yukon Birds of the Yukon Territory is the result of a decade long project initiated to gather and share what is known about the Yukon s birdlife Lavishly illustrated with 600 colour photographs and 223 hand drawn bird illustrations the book presents a wealth of information on bird distribution migration and breeding chronology nesting behaviour and habitat use and on conservation concerns Two hundred and eighty eight species of birds are documented including 223 regular species and 65 casual and accidental species In compiling this meticulously researched volume the authors consulted over 166 000 records in a database created by the Canadian Wildlife Service with information dating back to 1861 Sections on birds in Aboriginal culture and history and bird names in the Yukon First Nations and Inuvialuit languages enhance the book as do the numerous easily interpreted charts and graphs Destined to become a basic reference work on the avifauna of the North Birds of the Yukon Territory is a must have for bird enthusiasts and anyone interested in the natural history of the Yukon and the North *Elihu Root Collection of United States Documents Relating to the Philippine Islands* ,1903 Tribal Communities in the Malay World Geoffrey Benjamin,2003-08-01 The Malay World Alam Melayu spanning the Malay Peninsula much of Sumatra and parts of Borneo has long contained within it a variety of populations Most of the Malays have been organized into the different kingdoms kerajaan Melayu from which they have derived their identity But the territories of those kingdoms have also included tribal peoples both Malay and non Malay who have held themselves apart from those kingdoms in varying degrees In the last three decades research on these tribal societies has aroused increasing interest This book explores the ways in which the character of these societies relates to the Malay kingdoms that have held power in the region for many centuries past as well as to the modern nation states of the region It brings together researchers committed to comparative analysis of the tribal groups living on either side of the Malacca Straits in Indonesia Malaysia Thailand and Singapore New theoretical and descriptive approaches are presented for the study of the social and cultural continuities and discontinuities manifested by tribal life in the region *The aquatic resources of the Hawaiian islands* D.S. Islands] Charles Henry Gilbert,1905 *Biogeography and Ecology of New Guinea* J.L. Gressitt,2012-12-06 J L Gressitt New Guinea is a fantastic island unique and fascinating It is an area of incredible variety of geomorphology biota peoples languages history traditions and cultures Diversity is its prime characteristic whatever the subject of interest To a biogeographer it is tantalizing as well as confusing or frustrating when trying to determine the history of its biota To an ecologist and to all biologists it is a happy hunting ground of endless surprises and unanswered questions To a conservationist it is like a dream come true a flash back of a few centuries as well as a challenge for the future New Guinea is so special that it is hard to compare it with other islands or tropical areas It is something apart with its very complicated history chapters I 2 4 II 1 4 III I VI I 2 It is partly old but to a great extent very young yet extremely rich and complex It has biota of different sources to such a degree that it is still disputed in this volume as to what Realm it belongs to the Paleotropical or Notogaeian Australian or what Region Oriental Oceanic Papuan or Australian The terms Papuanian Indo Australian and Australasian also have been applied to the area *A General Collection of Voyages and Travels* William Fordyce Mavor,1813 **A General History and Collection of Voyages and Travels (Vol. 1-18)** Robert Kerr,2020-07-01 Prepare yourself for discoveries and new adventures with this incredible book about the true origin of wanderlust This edition forms a complete history of the earliest start and progress of navigation discovery and commerce by sea and land from the earliest ages to the early 19th century First part of the work covers voyages and travels of discovery in the middle ages from the era of Alfred King of England in the ninth century to that of Don Henry of Portugal at the commencement of the fourteenth century Second part deals with general voyages and travels chiefly of discovery from the era of Don Henry in 1412 to that of George III in 1760 The rest of the work has some particular voyages and travels arranged in systematic order Geographical and Chronological and studies voyages during the era of George III conducted upon scientific principles by which the Geography of the globe has been nearly perfected **Collecting Colonialism** Chris Gosden,Chantal Knowles,2020-05-26 Colonialism has shaped the world we live in today and has often been studied at a global level but there is less understanding of how colonial relations operated locally This book takes twentieth century Papua New Guinea as its focus and charts the changes in colonial relationships as they were expressed through the flow of material culture Exploring the links between colonialism and material culture in general the authors focus on the particular insights that museum collections can provide into social relations Collections made by anthropologists in New Britain in the first half of the century are compared with recent fieldwork in the area to provide a particularly in depth picture of historical change Museum collections can reveal how people dealt with changes in the nature of community gender relations and notions of power through the shifting use of objects in ritual and exchange Objects photographs and archives bring to life both the individual characters of colonial New Britain and the longer term patterns of history Drawing on the related disciplines of archaeology linguistics history and anthropology the authors provide fresh insights into the complexities of colonial life In particular they

show how social relationships among Melanesians whites and other communities helped to erode distinctions between colonizers and locals distinctions that have been maintained by scholars of colonialism in the past This book successfully combines a specific geographical focus with an interest in the broader questions that surround colonial relations historical change and the history of anthropology *Collected Reprints, 1886-1917* John Macoun,1909 **A General Collection of Voyages and Travels from the Discovery of America to Commencement of the Nineteenth Century** William Fordyce Mavor,1809 Surface Collection Denis Byrne,2007-09-16 Written as a travelogue Surface Collection Archaeological Travels in Southeast Asia tackles the most pressing issues of cultural heritage management in an engaging and accessible way In each chapter the author makes the past relevant to the present through his encounters with archaeological sites While the book s anecdotes are associated primarily with Thailand and Indonesia from a decaying National Museum in Manila to the search for traces of the thousands of Communists who were killed after an attempted coup in Bali to the discovery of a bottle of perfume found among the personal effects of Indonesian ex president Sukarno they have broad international interest because of the issues they raise These archaeological stories again and again remind us what history both remembers and conceals **A Chinese Commercial Guide; consisting of a collection of details and regulations respecting foreign trade with China, sailing directions, tables, etc. ...
