Zainichi Cinema Oliver Dew,2016-11-04 This book examines how filmmakers curators and critics created a category of transnational Korean in Japan Zainichi Cinema focussing on the period from the 1960s onwards An enormously diverse swathe of films have been claimed for this cinema of the Korean diaspora ranging across major studio yakuza films and melodramas news reels created by ethnic associations first person video essays and unlikely hits that crossed over from the indie distribution circuit to have a wide impact across the media landscape Today Zainichi themed works have never had a higher profile with new works by Matsue Tetsuaki Sai Yoichi and Yang Yonghi frequently shown at international festivals Zainichi Cinema argues that central to this transnational cinema is the tension between films with an authorized claim to represent and ambiguous and borderline works that require an active spectator to claim them as images of the Korean diaspora

Fighting for Foreigners Apichai W. Shipper,2016-03-08 Although stereotypically homogenized and hostile to immigrants Japan has experienced an influx of foreigners from Asia and Latin America in recent decades In Fighting for Foreigners Apichai W Shipper details how in response Japanese citizens have established a variety of local advocacy groups some faith based some secular to help immigrants secure access to social services economic equity and political rights Drawing on his years of ethnographic fieldwork and a pragmatic account of political motivation he calls associative activism Shipper asserts that institutions that support illegal foreigners make the most dramatic contributions to democratic multiculturalism The changing demographics of Japan have been stimulating public discussions the political participation of marginalized groups and calls for fair treatment of immigrants Nongovernmental organizations established by the Japanese have been more effective than the ethnically particular associations formed by migrants themselves Shipper finds Activists who initially work in concert to solve specific and local problems eventually become more ambitious in terms of political representation and opinion formation As debates about the costs and benefits of immigration rage across the developed world Shipper s research offers a refreshing new perspective rather than undermining democracy in industrialized society immigrants can make a positive institutional contribution to vibrant forms of democratic multiculturalism

Bridging Differences:

Understanding Cultural Interaction in Our Globalized World Newtona (Tina) Johnson, Shawn Simpson, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2016 Cultural interaction in our worlds today is essential to building 21st century bridges between communities The experiences and lessons learned from the authors of the articles herein are shared with empathy and humility across many disciplines The creation and re creation of individual identities and group identities due to migrations throughout history is an ongoing story Never does one cultural profile remain constant On the contrary as boundaries change so do people and therefore cultures Interculturalism is the one valid approach to understanding these changes but should be used with great sensitivity And sensitivity is the over riding emotion emanating from the different studies in this volume the search for one s identity when the latter has been lost or has become difficult to recognize the attempts to erase identities so as to conform to national unity the will to create new identities to fit in with new environments the need to re evaluate oneself so as to remain true to oneself These endeavors are subtly described in this vibrant compendium of intercultural monographies

Think Global, Fear Local David Leheny, 2018-09-05 In 1999 responding to international concerns about the sexual exploitation of children the Japanese Diet voted unanimously to ban child prostitution and child pornography Two years later in the wake of 9 11 Junichiro Koizumi s cabinet radically shifted government counterterrorism policy toward new military solutions and away from an earlier emphasis on law enforcement Although they seem unrelated these two policies reveal the unintended consequences of attempts to enforce international norms at the national level In *Think Global Fear Local* David Leheny posits that when states abide by international agreements to clamp down on transnational crime and security concerns they respond not to an amorphous international problem but rather to more deeply held and proximate fears Although opponents of child prostitution and pornography were primarily concerned about the victimization of children in poor nations by wealthy foreigners the Japanese law has been largely used to crack down on compensated dating in which middle class Japanese schoolgirls date and sometimes have sex with adults Many Japanese policymakers viewed these girls as villains and subsequent legal developments have aimed to constrain teenage sexual activities as well as to punish predatory adults Likewise following changes in the country s counterterrorism policy some Japanese leaders have redefined a host of other threats especially from North Korea as terrorist menaces requiring a more robust and active Japanese military Drawing from sources as diverse as parliamentary debate records and contemporary film and literature Leheny uses these two very different cases to argue that international norms can serve as political tools allowing states to enhance their coercive authority
