North Of Ithaka A Journey Home Through A Familys Extraordinary Past:

North of Ithaka Eleni N. Gage, 2005-05 This is the poignant story of the author's move from New York to Lia the remote Greek village where her grandmother was murdered and which her father Nicholas Gage made famous 20 years ago with his international bestseller **North of Ithaka** Eleni N. Gage, 2005 Eleni Gage a young journalist living in New York leaves her Manhattan flat to return to the remote but beautiful Greek village of Lia in northern Greece and rebuild her ruined ancestral home But this is not just another tale of quaint rustic DIY the house was the scene of imprisonment and torture and its ruins are stalked by the ghosts of the Greek Civil War The story is played out in the stunning mountainous landscape of Epiros one of the least visited regions of Europe As Eleni becomes part of the village her neighbours and the house come vividly to life while her own disasters triumphs and self discoveries are alternately poignant and hilarious The cast of characters includes Eleni's formidable yet miniscule aunts the thitsas who fear that she will be eaten by wolves her immigrant Albanian builders and the residents of modern day Lia whose feelings about the rebuilding of a house where such terrible events took place are ambivalent at best Informed by her knowledge of Greece's folklore literature language and history Eleni's story is unfailingly witty and wise But beneath it all lie the indelible stains of a real life Greek tragedy

Gage, 2006-04-04 In **North of Ithaka** Eleni Gage returns to the remote Greek village of Lia where her father was born and her grandmother murdered to rebuild the ruins of her namesake's home and come to terms with her family's tragic history In doing so she leaves behind a sparkling social life and successful career to continue the tale of a family and a place which her father Nicholas Gage made famous over twenty years ago with his international bestseller **North of Ithaka** Along the way she survives humorous misadventures absorbs fascinating folklore and comes to understand that memories of the dead can bring new life to the present Part travel memoir and part family saga **North of Ithaka** is above all a journey home *Identity, Diaspora and Return in American Literature* Maria Antònia Oliver-Rotger, 2014-09-19 This volume combines literary analysis and

theoretical approaches to mobility diasporic identities and the construction of space to explore the different ways in which the notion of return shapes contemporary ethnic writing such as fiction ethnography memoir and film Through a wide variety of ethnic experiences ranging from the Transatlantic Asian American Latino and Caribbean alongside their corresponding forms of displacement political exile war trauma and economic migration the essays in this collection connect the intimate experience of the returning subject to multiple locations historical experiences inter subjective relations and cultural interactions They challenge the idea of the narrative of return as a journey back to the untouched roots and home that the ethnic subject left behind Their diacritical approach combines on the one hand a sensitivity to the context and structural elements of modern diaspora and on the other an analysis of the individual psychological processes inherent to the experience of displacement and return such as nostalgia memory and belonging In the narratives of return analyzed in this volume space and identity are never static or easily definable rather they are in process and subject to change as they are always entangled in the historical and inter subjective relations ensuing from displacement and mobility This book will interest students and scholars who wish to further explore the role of American literature within current debates on globalization migration and ethnicity

Archaeology and History in Roman, Medieval and Post-Medieval Greece

Linda Jones Hall, 2016-12-05 The essays in Archaeology and History in Roman Medieval and Post Medieval Greece honor the contributions of Timothy E Gregory to our understanding of Greece from the Roman period to modern times Evoking Gregory's diverse interests the volume brings together anthropologists art historians archaeologists historians and philologists to address such contested topics as the end of Antiquity the so called Byzantine Dark Ages the contours of the emerging Byzantine civilization and identity in post Medieval Greece These papers demonstrate the continued vitality of both traditional and innovative approaches to the study of material culture and emphasise that historical interpretation should be the product of methodological self awareness In particular this volume shows how the study of the material culture of post Classical Greece over the last 30 years has made significant contributions to both the larger archaeological and historical discourse The essays in this volume are organized under three headings Archaeology and Method the Archaeology of Identity and the Changing Landscape which highlight three main focuses of Gregory's research Each essay interlaces new analyses with the contributions Gregory has made to our understanding of Medieval and Post Medieval Greece Read together these essays not only make a significant contribution to how we understand the post Classical Greek world but also to how we study the material culture of the Mediterranean world more broadly

Return Narratives Theodora D. Patrona, 2017-08-29 This book is a comparative study of six Italian American and Greek American literary works written in the three last decades of the 20th century and examined in pairs Based on the common theme of the authors return either metaphorical or literal to the country of origin and its culture *Return Narratives* explores the common motifs of mythology ritual and storytelling where the third generation writers resort to in their quest for self definition With a common historical and cultural

background in the old neighboring countries Greece and Italy and a similar reception in the new world facilitating a comparative approach the ethnic writers of the two literatures clearly envisage ethnic space as a site of resilience and empowerment Contours of White Ethnicity Yiorgos Anagnostou, 2009-11-15 In Contours of White Ethnicity Yiorgos Anagnostou explores the construction of ethnic history and reveals how and why white ethnics selectively retain rework or reject their pasts Challenging the tendency to portray Americans of European background as a uniform cultural category the author demonstrates how a generalized view of American white ethnics misses the specific identity issues of particular groups as well as their internal differences Interdisciplinary in scope Contours of White Ethnicity uses the example of Greek America to illustrate how the immigrant past can be used to combat racism and be used to bring about solidarity between white ethnics and racial minorities Illuminating the importance of the past in the construction of ethnic identities today Anagnostou presents the politics of evoking the past to create community affirm identity and nourish reconnection with ancestral roots then identifies the struggles to neutralize oppressive pasts Although it draws from the scholarship on a specific ethnic group Contours of White Ethnicity exhibits a sophisticated interdisciplinary methodology which makes it of particular interest to scholars researching ethnicity and race in the United States and for those charting the directions of future research for white ethnicities **The Publishers Weekly** ,2005 Travel & Leisure ,2007 Book Review Index Cumulation Dana Ferguson, 2005-09 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year Library Journal Melvil Dewey, Richard Rogers Bowker, L. It's Greek to Me: The Politics and Shape of Greek-American Identity ,2004 The purpose of this thesis is to examine how native Greeks and first generation Greek Americans identify or disidentify with Greek ness American ness or both in their struggle to achieve an ultimate successful balance of a third space one that expresses their Greek American identity In order to come to certain conclusions regarding the formation of Greek American identity I examine Greek American life from a historical overview that spans as early as the first Greek American communities of the early 1900 s to Greek Americans of present day society I look at how Greek Americans perform Greek ness American ness or Greek American ness through language choice and the altering of traditional gender roles in an attempt to achieve the third space of Greek American ness I

discuss their use of Greek and English languages in the first chapter of the thesis from a qualitative sociolinguistics study I conducted in spring 2003 In addition I examine females and males altering of traditional gender roles and their implications in several Greek American texts including Helen Papanikolas s novel *The Time of the Little Blackbird* and her story collection *The Apple Falls from the Apple Tree* Nia Vardalos s film *My Big Fat Greek Wedding* Nick Gage s memoir *A Place for Us* and Eleni N Gage s memoir *North of Ithaca A Journey Home through a Family s Extraordinary Past* for the purposes of this thesis These texts most effectively illustrate the altering of traditional gender roles and the affects of interethnic marriage I found that the definitions of Greeks and Greek Americans have always been ambiguous Furthermore Greek American identity continues to be so in contemporary America as a result of white American socio historical and socio cultural constructs of race and ethnicity Other findings include the fact that American born and Greek born Greek Americans consider themselves different from other Americans as well as from the Greeks who

Every family has a story and each story is a history to be passed on to those who follow Sometimes a family surviving and thriving rests on decisive action or just plain luck during critical events This true story shares the challenges of a young African American family as they are forced to become participants in the Great Migration of Black folks out the South in the early 1950s In this his first book the author narrates his family s journey north and ultimately settling in Iowa Accompanying the book narration are 17 paintings by the author The colorful paintings in primitive folk art style convey a warmth that invites one into situations that can be unsettling but true to the lived experience of many families This book will inspire the reader to do their own research and document their family s history and unique stories for current and future generations and not allow them to be lost in time
