North West Africa Wilfrid Knapp,1977 *North West Africa : Political and Economic Survey. 3rd Ed* w. editor Knapp,1977 **A Comparative Political Economy of Tunisia and Morocco** Gregory White,2001-07-26 This book examines the profound impact of European integration on two North African countries Tunisia and Morocco Confronting the theoretical literatures on the entanglements of the domestic and international realms and the intricate role played by the middle income state in the international arena White provides the first detailed comparison of Tunisia and Morocco s post independence political economies especially in the context of the Euro Mediterranean Partnerships signed with the European Union in the late 1990s North African states must act on the one hand as entrepreneurs seeking to encourage trade and attract foreign investment within the domestic economy in the process of crafting foreign economic policy with the European Union On the other hand such states are constrained by domestic pressures such as imperatives to secure job creation and maintain internal security Countries on the periphery are therefore faced with two distinct questions first how does a middle income state balance its conflicting roles and manage its relations with a regional power and second how does the relationship with the outside world affect key domestic actors Answering these questions is one of the primary challenges facing Tunisia and Morocco in the new decade **North Africa (RLE Economy of the Middle East)** Richard Lawless,Allan Findlay,2015-05-15 This book covers the contemporary politics and economic development of the four countries of North Africa Morocco Algeria Tunisia and Libya The first part is devoted to contemporary politics and political systems in each of these countries It traces their political development since independence with the emphasis on the last ten to fifteen years The second part concentrates on economic developments in each of the four countries A separate chapter on each state provides a comprehensive analysis of the economic strategies adopted since independence They discuss the impact of the planning strategies on the structure of the national economies and the social consequences resulting from these economic policies notably in the field of employment and income distribution First published in 1984 Overseas Business Reports ,1970 *The Changing Geography of Africa and the Middle East* Graham Chapman,2002-03-11 CROSS REF DEV STUDIES Both Africa and the Middle East have sought alternatives to Western models of development The last twenty five years have seen political independence for the states of Africa and increased economic dependence on external aid The Middle East resource rich and water poor continues economically robust but politically unstable In both regions widespread poverty continues as does the involvement of the West Clearly illustrated with basic maps of the countries discussed *The Changing Geography of Africa and the Middle East* presents a systematic review of twenty five years of development The book will prove an invaluable guide to the physical economic social and political environments of contemporary Africa and the Middle East *State* ,1982 United States Foreign Trade ...
