North Cape:

Reliant North Cape Challenge 2008 Elvis Payne, Geoffrey Payne, 2010-05-21 In June 2008 brothers Elvis and Geoffrey Payne drove 5 500 miles from Tamworth UK to the North Cape the northernmost point in Europe at the top of Norway In a standard car 5 500 miles is no mean feat though the brothers chose to do it in an 18 year old 3 wheeled Reliant Robin along with four other teams driving 3 wheeled Bond Bugs ranging from 35 38 years old The journey took three weeks to complete and crossed through eight different countries as well as some very challenging roads This is the story of how they prepared for the journey along with enhanced extracts from their daily blog following the journey as it unfolded In full colour with over 70 photographs Geographic Dictionary of Alaska Marcus Baker, 1906 Tourism in Peripheral Areas Frances Brown, Derek Hall, 2000-08-31 There has been little research on tourism in those European countries or regions which lie outside the continent's main centres of production and population even though tourism may be one of the few economic options open to them This volume aims to fill a gap by presenting a range of case studies including northern Sweden the Orkneys the tip of Norway and northern Cyprus on tourism in the peripheral areas of Europe Taking as a leitmotiv the paradoxes inherent in developing places whose very attraction may lie in their lack of development the case studies investigate and illustrate both the opportunities and the threats that tourism presents to peripheral areas Although they share certain similarities the cases also demonstrate differing approaches to tourism development and varying outcomes over time They suggest solutions for dealing with for example community participation as well as providing practical insights into visitor perceptions of peripheral areas and into ways of marketing such areas in a sensitive manner Together they provide a picture of the needs of peripheral areas and of how far and how best tourism can fulfil those needs Making Place, Making Self Inger Birkeland, 2017-03-02 Making Place Making Self explores new understandings of place and place making in late modernity covering key themes of place and space tourism and mobility sexual difference and subjectivity Using a series of individual life stories it develops a fascinating polyvocal account of leisure and life journeys These stories focus on journeys made to the North Cape in Norway the most northern point of mainland Europe which is both a tourist destination and an evocation of a reliable and secure point of reference an idea that gives meaning to an individual's life The theoretical core of the book draws on an interweaving of post Lacanian versions of feminist psychoanalytical thinking with phenomenological and existential thinking where place making is linked with self making and homecoming By combining such ground breaking theory with her innovative use of case studies Inger Birkeland here provides a major contribution to the fields of cultural geography tourism and feminist studies **New Jersey Geographic Names** Geological Survey (U.S.).
