## **North South Co Operation:**

*North-South Co-operation* Caroline Sweetman, 1994 This book in the Focus on Gender series looks at co operation for development between North South and East women s organisations and funding agencies development practitioners academics and civil society politicians and economists and women and men Currently the world is in economic and political crisis of which escalating conflict is a symptom In this book writers from South and North stress that such crisis can only be resolved if we recognise that we are all involved in a global system which perpetuates poverty and inequality not only in the South and East but also in the North Organisations which seek to relieve poverty must find ways to listen to value and learn from Southern experience of development Linking initiatives are one way of enabling people of different cultures and backgrounds to share experience build mutual respect and reach common ground while acknowledging the value of difference It is essential for Northern funding agencies to foster multiculturalism and gender equity within their own structures as well as in their work with Southern counterparts Topics covered include making the global links between women and poverty listening to the South linking for solidarity women s participation and international fora the true meaning of partnership and the feminisation of organisational culture Several articles reflect on the rich experience and lessons of Oxfam s Women s Linking Project

North-South Co-operation in Retrospect and Prospect C. J. Jepma, 2013-05-13 This book a valuable reference for students of policy and politics considers policies towards trade technology transfer and multinational investment as well as general monetary policies and discusses how development policies may be improved

*South-south Cooperation and Chinese Foreign Aid* Meibo Huang, Xiuli Xu, Xiaojing Mao, 2018-12-06 This book is a collection of 15 case studies on China s foreign aid and economic cooperation with developing countries Each case introduces the general information of a China s project analyzes its features and impacts and especially focuses on analysis of the characteristics of China s foreign aid under South South Cooperation framework which shows the differences of foreign aid by emerging economies from that by traditional donors in aid ideology principles practices and effects This book is one of the research projects by China International Development Research Network CIDRN as part of its contribution to the activities under the Network of Southern Think tanks NeST

*Power and Horizontality in South-South Development Cooperation. The Case of Brazil and Mozambique* Jurek Seifert , 2020-02-24 The growing importance of new actors in the global political landscape is envisaged as a phenomenon that has led to shifts in international power relations This is reflected in development cooperation Countries like China Brazil India and South Africa have enhanced their cooperation programs and present their development cooperation as South South Development cooperation SSDC which takes place between countries of the Global South Both practitioners and scholars ascribe a notion of solidarity and horizontality to South South cooperation that allegedly distinguishes it from the relationship patterns commonly associated with North South relations However power constellations between the emerging powers and most of their cooperation partners are often asymmetrical This book asks

whether the claim that South South cooperation is conducted in a horizontal manner holds in practice in spite of these asymmetries It revises the concept of South South cooperation and identifies the central characteristics that are claimed to distinguish the Southern modality from Northern cooperation It then investigates the relationship between Brazil and Mozambique during the period 2003 2014 to shed some light on the question whether South South cooperation is different from traditional development cooperation regarding the relations between cooperation partners Jurek Seifert is a development cooperation expert He holds a PhD from the University of Duisburg Essen and has worked on South South cooperation development effectiveness and private sector engagement He has conducted research at the BRICS Policy Center in Rio de Janeiro Brazil and works in international development cooperation Emerging Powers, Development Cooperation and South-South Relations Chithra Purushothaman, 2020-10-24 This book analyses the role of emerging powers as a development assistance providers and the nature of their development cooperation their behaviour motives and markedly their changing identities in international relations With their growing economic and political clout emerging powers are using economic instruments like foreign aid to ensure their position in the international system that is going through power shifts By comparing three major emerging economies of the Global South Brazil India and China this book would explore how emerging powers are changing the international aid architecture that is created and dominated by the traditional donors *Innovating South-South Cooperation* Hany Gamil Besada, M. Evren Tok, Leah McMillan Polonenko, 2019-08-27 With the rise of emerging powers we face an important question Is the changing global order transforming the nature of development cooperation Promoting equitable broad based growth in order to alleviate poverty calls for a new understanding of the principles of development assistance good governance transparency ownership and accountability In the ever changing arena of global development governance South South Cooperation SSC entails diverse forms of cooperation among developing countries This book presents novel approaches to further South South Cooperation SSC on a global scale The evolving aid architecture and mounting development challenges demand an urgent and critical review of existing aid modalities policy making and forums for international cooperation Published in English Brexit and the Northern Ireland Constitution Lisa Claire Whitten, 2024-03-05 Brexit and the Northern Ireland Constitution considers the intersection of two processes the complex and constitutional process of the United Kingdom's withdrawal from the European Union Brexit and the steady yet fragile development of the Northern Ireland constitution deriving primarily from the Belfast Good Friday Agreement of 1998 Interdisciplinary in approach the analysis draws on legal and political theory to develop a novel framework for assessing the progressive impact of Brexit on the Northern Ireland constitution based on systematic definitions of both This approach elucidates dynamics and implications not yet considered in the otherwise extensive debates about Brexit and its impacts on Northern Ireland Based on detailed analysis of the Brexit process it is argued that its impact on the constitution of Northern Ireland has been profound Fundamentally Brexit changed the political and legal environment

in which the Northern Ireland constitution had existed for over twenty years Embracing constructive ambiguity the 1998 Agreement recognises and accommodates the concerns of both unionists and nationalists in Northern Ireland it did not therefore solve the constitutional conflict but rather allowed it to be managed differently through an innovative system of multileveled governance within Northern Ireland power sharing devolution on the island of Ireland North South cooperation and between the islands of Great Britain and Ireland East West cooperation all underpinned by a multifaceted principle of constitutional popular and cross community consent By forcing a paradigmatic shift in the way that the systems of government established by the 1998 Agreement operate Brexit disrupted the constructively ambiguous compromise that it represents Completed two years after the legal implementation of UK withdrawal from the EU Whitten concludes by considering the potential longer term constitutional repercussions of Brexit both within and beyond Northern Ireland s recently notorious borders

**Development Cooperation and Emerging Powers** Sachin Chaturvedi, Thomas Fues, Elizabeth Sidiropoulos, 2012-05-10 The current framework of development cooperation is dominated by the experiences of industrialized countries But emerging economies have begun to accelerate their own development programmes and attempts to bring them into existing aid models have been met with caution and reservation This expert topical volume explores the development policies of Brazil China India Mexico and South Africa analysing how South South cooperation has evolved and where it differs from traditional development cooperation This vital new collection brings together first hand experience from these countries to provide a forward looking analysis of the current global architecture of development cooperation and of the possible convergence of traditional and emerging development actors

**Japanese Development Cooperation** André Asplund, Marie Soderberg, 2016-12-19

The world order as we know it is currently undergoing profound changes and in its wake so is foreign aid Donors of foreign aid development assistance or development cooperation around the world are already facing new challenges in the changing development architecture This is an architecture that globally seems to become increasingly forgiving of foreign aid as a win win concept that also meets the donors own national interests something that has been an unofficial Japanese trademark for many years This book examines Japan s development assistance as it transitions away from Official Development Assistance and towards Development Cooperation In this transition the strong and reciprocal relationships between Japanese development policy and comprehensive security diplomacy foreign domestic and economic policies are likely to become even more consolidated and integrated The utilization of and changes within Japanese development policy therefore affects not only recipients of foreign aid but also the relationships Japan enjoys with its allies and strategic partners as well as the relations to competing donors and rivals in the region and around the world Japanese foreign aid as such provides an extremely interesting case from where regional and even global changes can be understood Written by a multidisciplinary team of contributors from the fields of political science international relations development economics public opinion and Japan studies the book sets out to be innovative in capturing the essence of the changing patterns of development cooperation and more importantly Japan s role in within it in an era of great change This book will be of great interest to students and scholars of Japanese Politics Foreign Policy and International Relations
