**Kindly Lights** Sarah C. Gleason, 1991 *Kindly Lights* chronicles the history of the lights from the early days of the colonies when lighthouses were built shoddily and haphazardly usually soon after an all too predictable shipwreck to the mid nineteenth century when a national lighthouse system was established In one compelling chapter the author uncovers the story of David Melville who conducted a remarkable experiment in gas lighting at Rhode Island s Beavertail lighthouse in 1817 18 It was to be a short lived trial Melville s innovations were resisted by Nantucket whalers fearful of losing their lucrative lighthouse oil market and by federal inspector Winslow Lewis who plays a part in Melville s failure as he did in so much of the history of the new nation s attempts to build a rational and technically sound lighthouse system
