## Northern Italy Solo Motets From The Seventeenth Century Series:

**Rome** Anne Schnoebelen, 2020-10-07 The appearance of the solo voice in church music in 1602 in Lodovico da Viadana's *Cento concerti ecclesiastici* initiated a development that would soon parallel secular solo song. This series of Italian solo motets makes available for the first time many of these rich sources of seventeenth century sacred music. The series spans the major part of the seventeenth century from 1621 to 1695. It includes works by composers from major cities and provincial towns. Three composers are represented by multiple collections: Maurizio Cazzati 6, Bonifazio Graziani 6 and Isabella Leonarda 5. In each case the solo motet forms a major component in that composer's oeuvre; their collections provide comprehensive textbooks for the study of the genre. [The Cambridge History of Seventeenth-Century Music](#) Tim Carter, John Butt, 2005-12-22 The Cambridge History of Seventeenth Century Music seeks to provide the most up to date knowledge on seventeenth century music together with a vital questioning of the way in which such a history can be told or put together for our present purposes. Written by a distinguished team of experts in the field, the chapters not only address traditional areas of knowledge such as opera and church music but also look at the way this extremely diverse and dynamic musical world has been categorised in the past and how its products are viewed from various cultural points of view. While this history does not depart entirely from the traditional study of musical works and their composers, there is a strong emphasis on the institutions, cultures and politics of the age together with an interrogation of the ways in which music related to contemporary arts, sciences and beliefs. [Collected Editions, Historical Series & Sets & Monuments of Music](#) George Robert Hill, Norris L. Stephens, 1997 Inventories over 8 000 historically important collected editions of music. It seeks exhaustive coverage for numbered monumental sets and composers' collected editions and gives complete listings for many musicologically significant publishers' series and anthologies. Jacket *Masses by Giovanni Francesco Capello, Bentivoglio Lev, and Ercole Porta* Anne Schnoebelen, 2014-01-21 The purpose of this series is to provide a large repertory of 17th century Italian sacred music in clear modern editions that are both practical and faithful to the original sources. **Masses by Alessandro Grandi, Giovanni Battista Chinelli, Giovanni Rigatti, Tarquinio Merula** Anne Schnoebelen, 2013-09-13 The purpose of this series is to provide a large repertory of 17th century Italian sacred music in clear modern editions that are both practical and faithful to the original sources. *Masses by Giovanni Andrea Florimi, Giovanni Francesco Mognossa, and Bonifazio Graziani* Anne Schnoebelen, 2014-02-04 The purpose of this series is to provide a large repertory of 17th century Italian sacred music in clear modern editions that are both practical and faithful to the original sources. [Studies in Sixteenth- and Seventeenth-Century Italian Sacred Music](#) Jeffrey Kurtzman, 2024-10-28 Although he is often identified as a Monteverdi scholar, Approaches to Monteverdi: Aesthetic, Psychological, Analytical and Historical Studies published in the Variorum series in 2013, the majority of Jeffrey Kurtzman's work has focused on other sixteenth and seventeenth century Italian sacred music. Organized into three sections, part one begins with a chapter on the Monteverdi Mass and Vespers of

1610 which spotlights the other major work in Monteverdi's first prominent sacred print the *Missa in illo tempore* followed by examples of Kurtzman's work on the sacred music of other composers such as Giovanni Francesco Capello and Palestrina. The section concludes with a piece on polyphonic psalm structures in seventeenth century Italian Office music. Part two includes pieces which explore the relationship between the standard clef set the high clef set specific Magnificat tones and sounding pitch in the Magnificats of Roman composers the issue of polyphonic psalm antiphons and the question of vocal and instrumental substitutes for plainchant antiphons in the Vespers service and the use of instruments in the performance of sacred music demonstrating that the concertato style of the seventeenth century had its origins in the practice of substituting instruments for voices and doubling voices with instruments thereby introducing multifaceted possibilities for varying sonorities through the course of a composition. Part 3 contains two articles the first surveying various styles in the Office repertoire of the seventeenth century based on the approximately 1500 prints of Italian Office music in Kurtzman's and Anne Schnoebelen's catalogue of Mass Office and Holy Week Music Printed in Italy 1516-1770. The second article published for the first time in this volume assesses the impact on Italian liturgical music of the Catholic reform of the second half of the sixteenth century.
