The Northern Utopia Peter Fjågesund, Ruth A. descriptions of the liberal Nordic woman as a metaphor for a freer society in Franco Spain really be bundled together under a joint label of Nordicness How is it that despite the variety of images of the Nordic region that are circulating we still find this recurring idea of a shared Nordic identity These are some of the questions the current volume seeks to answer Covering the time period from the early nineteenth century up until the present and encompassing case studies from Britain Spain Poland and South Africa as well as from the Nordic countries contributors to the volume investigate the images that have been presented of the Nordic region in the media in and outside of the Nordic countries how such images have been shaped by mechanisms of mediation and the channels through which they have been distributed. The chapters address both specific cases such as media events and individual publications as well as the structural and institutional settings for mediating the Representations of the North in Victorian Travel Literature Dimitrios Kassis, 2015-02-05 Travel literature Nordic region has always been associated with the construction of utopias which were founded on the idea of unknown lands During their journeys in foreign lands British travellers tended to formulate various critical opinions based on their background knowledge of the country visited Their attempts to interpret other nations were often misinterpretations of the peoples in question as the Other At the close of the eighteenth century when Grand Tourism started to fade away and travelling became a mainstream activity for the middle class Briton travel writers attempted to identify with Routledge Handbook of the Digital Environmental Humanities Charles Travis, Deborah P. public consumption tales intended for a popular audience and accounts that were more clearly linked with discourses and institutions of power such as imperial processes of conquest and governance Some narratives focus on the things the travelers carried such as souvenirs from the battlefields of Britain's imperial wars while others show the complexity of Victorian dreams of the exotic Still others offer a disapproving glimpse of Victorian mores through the eyes of indigenous peoples in contrast to the imperialist vision of British explorers Swiss hotel registers guest books and guidebooks offer insights into the history of tourism while new photographic technologies the development of the telegraph system and train travel transformed the visual audial and even the conjugal experience of travel The contributors attend to issues of gender and ethnicity in essays on women travelers South African travel narratives and accounts of China during the Opium Wars and analyze the influence of fictional travel narratives Taken together these essays show how these multiple narratives circulated cross fertilised and reacted to one another to produce new narratives new objects and new modes of travel Northern Utopia Despina Stratigakos, 2022-03-22 How Nazi architects and planners envisioned and began to build a model Aryan society in Norway during World War II **Images of Irishness in Nineteenth-Century Travel Literature** Dimitrios Kassis, 2018-10-23 Since its annexation to the British Crown Ireland has never ceased in forming the subject of an ardent national debate in Great Britain which resulted in the demonisation of the Celtic race as subaltern and backward In its effort to forge a national identity the British Empire adopted several collective identities on the basis of the racial and cultural findings of the 1850s which gave a new impetus to the systematic view of England as a typically Anglo Saxon culture staunchly opposed to the alleged Celtic backwardness and the rebellious spirit of the Irish In view of the rising anti Irish wave of sentiment in the British imperialist imagination Irish nationalism was manifest through a series of uprisings the majority of which sought to link the country to its ancient Celtic heritage The Celticist movements of Young Ireland and the Irish Revival revealed the need of Irish Nationalists to acquire a new collective identity which proved to be a strenuous task given the complex historical and ethnic background of the Irish This book investigates the extent to which Irish identity is affected by the racist and nationalist discourses of the nineteenth century which emerged to either defend or oppose the image of Ireland as a cultural construct The travelogues explored here include some of the most fundamental representations of Ireland by prominent Irish and British travel writers whose impressions of the island might be linked to the utopian and dystopian dimensions of the country Icelandic Utopia in Victorian Travel Literature Dimitrios Kassis, 2016-05-11 This book focuses on Iceland as a nineteenth century utopian locus in the light of racial theories attached to the country's national framework In particular it investigates the ways in which five nineteenth century travellers define their national identity and gender in relation to Iceland during the Victorian period during which European nationalism emerges as an idea of paramount importance Owing to the gradual contemplation of this peripheral word as the cradle of the Germanic nations Victorian travel writers endeavoured to reconstruct the image of Iceland in accordance with the racial theoretical framework

that underlay the nineteenth century British nation building agenda Romantic Norths Cian Duffy,2017-06-27 This book explores various forms of cultural influence and exchange between Britain and the Nordic countries in the late eighteenth century and romantic period Broadly new historicist in approach but drawing also on influential descriptions of genre discipline mediation cultural exchange and comparative methodologies these essays not only constitute a substantial and innovative contribution to scholarly understanding of the development of romanticisms and romantic nationalisms in Britain and the Nordic countries but also describe a pattern of cultural encounter which was predicated upon exchange and a sense of commonality rather than upon the perception of difference or alterity which has so often been discerned by critical descriptions of British romantic period engagements with non British cultures The volume ought to appeal to a broad and genuinely international academic audience with interests in eighteenth century and romantic period culture in Britain and Scandinavia as well as to undergraduates taking courses in eighteenth century romantic and Scandinavian studies

Northern memories and the English Middle Ages Tim William Machan, 2020-05-18 This book provocatively argues that much of what English writers of the seventeenth eighteenth and nineteenth centuries remembered about medieval English geography history religion and literature they remembered by means of medieval and modern Scandinavia These memories in turn figured in something even broader Protestant and fundamentally monarchical the Nordic countries constituted a politically kindred spirit in contrast with France Italy and Spain Along with the so called Celtic fringe and overseas colonies Scandinavia became one of the external reference points for the forging of the United Kingdom Subject to the continual refashioning of memory the region became at once an image of Britain's noble past and an affirmation of its current global status rendering trips there rides on a time machine **Communicating the North** Peter Stadius, 2016-05-23 What makes a magazine in South Africa promote Scandinavian unity among its immigrant readers and why does a Swedish king endorse attempts to influence pan Scandinavian opinion through a transnational media event in Sweden Norway and Denmark Can portraits of exotic Lapplanders in the British press enthusiastic accounts of the welfare state in post war travel literature and descriptions of the liberal Nordic woman as a metaphor for a freer society in Franco Spain really be bundled together under a joint label of Nordicness How is it that despite the variety of images of the Nordic region that are circulating we still find this recurring idea of a shared Nordic identity These are some of the questions the current volume seeks to answer Covering the time period from the early nineteenth century up until the present and encompassing case studies from Britain Spain Poland and South Africa as well as from the Nordic countries contributors to the volume investigate the images that have been presented of the Nordic region in the media in and outside of the Nordic countries how such images have been shaped by mechanisms of mediation and the channels through which they have been distributed The chapters address both specific cases such as media events and individual publications as well as the structural and institutional settings for mediating the Nordic region Europe in British Literature and Culture Petra

Rau, William T. Rossiter, 2024-06-13 How has Europe shaped British literature and culture and vice versa since the Middle Ages This volume offers nuanced answers to this question From the High Renaissance to haute cuisine from the Republic of Letters to the European Union from the Black Death to Brexit the reader gains insights into the main geographical zones of influence shared intellectual movements indicative modes of cultural transfer and more recent conflicts that have left their mark on the British European relationship The story that emerges from this long history of cultural interactions is much more complex than its most recent political episode might suggest This volume offers indispensable contexts to the manifold and longstanding connections between British and European literature and culture This book suggests that however the political landscape develops we will do well to bear this exceptionally rich history in mind **Nineteenth Century Prose**, 2018

A History of the European Restorations Michael Broers, Ambrogio A. Caiani, 2019-11-14 Europe s
Restorations were characterised by their evolving dialectics The chapters in this first volume address the key questions and controversies of Napoleonic history from a national and international perspective From the re ordering of the European world through the tools of intervention occupation and diplomacy to the creation of new constitutional monarchies across France Scandinavia and Germany the volume outlines the processes that realigned national priorities and the accompanying dynamics of social and political identity In a structure that makes sense of what Luigi Mascilli Migliorini describes as the fiendishly complex process of reconstructing order in post Napoleonic Europe this collection of essays brings together experts in the field to set a new precedent for transnational research frameworks in the study of the European Restorations

Harold Wilson, Denmark and the making of Labour European policy Matthew Broad,2017-11-28 Explores how the European policies of the British Labour Party and Danish Social Democrats evolved between 1958 and enlargement of the European Economic Community EEC in 1973 comparing how they each responded to the integration process at key moments and more innovatively highlights the impact of informal contacts between them **Transnational Representations of the Region, 1840-1940** Giulia Bruna, Marguérite Corporaal, Christopher Cusack, Sophie van Os, Anneloek Scholten, 2025-09-08 The nineteenth century witnessed an upsurge of interest in the region across Europe and North America in media ranging from literary fiction to the illustrated periodical and from visual arts to architecture This rise of regionalism has often been linked to nationalism and nation building However depictions of the region circulated across borders or interacted with

transnational cultural repertoires of the local These often overlooked transnational aspects are the focus of this volume which considers cultural representations of the region during the long nineteenth century in its variety of dimensions across all expressive media This collection consistently draws out the border crossing dynamics through which the very perception of regions is generated and maintained Contributions by established and emerging scholars all rise to the challenge of contextualizing representations of specific regions in transnational networks of exchange The volume is resolutely interdisciplinary encompassing various literary genres as well as music visual arts and world fairs It will ensure that the region is in the best possible sense all over the place Rapha l Ingelbien Professor of English Literature at KU Leuven

Nordic Utopias and Dystopias Pia Maria Ahlbäck, Jouni Teittinen, Maria Lassén-Seger, 2022-11-24 The Nordic countries have long been subject to certain idealised even utopian imaginaries particularly with regard to images of pristine nature and the societal ideals of democracy equality and education On the other hand such projections inevitably invite dissent irony and intimations of the utopia s dark underside Things may yet take or may have already taken a dystopic course The present volume offers twelve contributions on utopias and dystopias in Nordic literature and culture Geographically the articles cover the Nordic countries of Denmark Finland Norway and Sweden as well as the autonomous area of Greenland Through the articles varied subjects ranging from avant garde literature and long poems to noir TV series young adult fiction popular historiography and political discourse in literature outside of Norden the volume brings forth a historically rich multi layered picture of social cultural and environmental imagination in the Nordic countries Nordic Utopias and Dystopias is thus of interest not only to specialists in dystopian and utopian research but more broadly to scholars of literature and culture and the political and social sciences especially but not exclusively in the Nordic context
