## Northern Studies:

**Library and Information Sciences in Arctic and Northern Studies** Spencer Acadia, 2024-05-17 The role of library and information sciences LIS in for and about Arctic and Northern studies is underexplored This book examines the intersection of LIS and Arctic Northern scholarship research and study by considering the Arctic and North as a global information knowledge society demonstrates practical and applied ways that librarians archivists curators and other information scholars and professionals can participate and have participated in real activities within Arctic and Northern environments explains how LIS as a discipline focused on data information and knowledge has a significant role to play in Arctic and Northern endeavours and emphasises the inter multi disciplinary nature of what are Arctic studies and Northern studies and the placement of LIS into that structure Even though LIS has historically been overlooked in Northern and Arctic matters this book suggests that LIS is in a remarkable position to add value to future Arctic Northern studies This book is of interest to scientists researchers scholars educators professionals and students globally working in Northern and Arctic contexts and or with Northern and Arctic pursuits in mind

The Conquest of Ainu Lands Brett L. Walker, 2001 This is the story of the Ainu people who live in what is today far Northern Japan It shows the ecological and cultural processes by which this people's political economic and cultural autonomy eroded as they became an ethnic minority in the modern Japanese state

**Capitalism From Within** David L. Howell, 2024-07-26 Japan's stunning metamorphosis from an isolated feudal regime to a major industrial power over the course of the nineteenth and early twentieth centuries has long fascinated and vexed historians In this study David L Howell looks beyond the institutional and technological changes that followed Japan's reopening to the West to probe the indigenous origins of Japanese capitalism

*Canadian Reference Sources* Mary E. Bond, Martine M. Caron, 1996 This bibliography cites those Canadian and foreign reference sources that describe Canadian people institutions organizations publications art literature languages and history It lists books of a general nature as well as works in the disciplines of history and the humanities These large divisions are then broken down by subject genre type of document and province or territory Titles of national provincial territorial or regional interest are included in every subject area when available The contents of the book are indexed four ways by name title French subject and English subject And to facilitate browsing the major reference books those dealing with more than one subject or a large geographical region are also cross referenced Two entries have been created for each bilingual document in order to provide access and bibliographical descriptions in both of Canada's official languages Entries for unilingual works include citation in the language of the publication and a bilingual annotation The annotations are descriptive and provide information on the content arrangements

and indexing of works the availability of non printformats previous editions and title changes and related works Canadian Reference Sources will be an invaluable referencetool for future scholars and researchers [The Northern Earldoms](#) Barbara E. Crawford,2013-08-08 The medieval earldoms of Orkney and Caithness were positioned between two worlds the Norwegian and the Scottish They were a maritime lordship divided or united by the turbulent waters of the Pentland Firth This unlikely combination of island and mainland territory survived as a single lordship for 600 years against the odds Growing out of the Viking maelstrom of the early Middle Ages it became an established and wealthy principality which dominated northern waters with a renowned dynasty of earls Despite their peripheral location these earls were fully in touch with the kingdoms of Norway and Scotland and increasingly subject to the rulers of these kingdoms How they maintained their independence and how they survived the clash of loyalties are themes explored in this book from the early Viking age to the late medieval era when the powerful feudal Sinclair earls ruled the islands and regained possession of Caithness This is a story of the time when the Northern Isles of Scotland were part of a different national entity which explains the background to the non Gaelic culture of this locality when links across the North Sea were as important as links with the kingdom of Scotland to the south **The Center for Northern Studies** Center for Northern Studies,1985\* *CCF Colonialism in Northern Saskatchewan* David Quiring,2007-10-01 Often remembered for its humanitarian platform and its pioneering social programs Saskatchewan s Cooperative Commonwealth Federation CCF wrought a much less scrutinized legacy in the northern regions of the province during the twenty years it governed Until the 1940s churches fur traders and other wealthy outsiders held uncontested control over Saskatchewan s northern region Following its rise to power in 1944 the CCF undertook aggressive efforts to unseat these traditional powers and to install a new socialist economy and society in largely Aboriginal northern communities The next two decades brought major changes to the region as well meaning government planners grossly misjudged the challenges that confronted the north and failed to implement programs that would meet northern needs As the CCF s efforts to modernize and assimilate northern people met with frustration it was the northern people themselves that inevitably suffered from the fallout of this failure In an elegantly written history that documents the colonial relationship between the CCF and the Saskatchewan north David M Quiring draws on extensive archival research and oral history to offer a fresh look at the CCF era This examination will find a welcome audience among historians of the north Aboriginal scholars and general readers **Encyclopedia of the Arctic** Mark Nuttall,2005-09-23 With detailed essays on the Arctic s environment wildlife climate history exploration resources economics politics indigenous cultures and languages conservation initiatives and more this Encyclopedia is the only major work and comprehensive reference on this vast complex changing and increasingly important part of the globe Including 305 maps This Encyclopedia is not only an interdisciplinary work of reference for all those involved in teaching or researching Arctic issues but a fascinating and comprehensive resource for residents of the Arctic and all those concerned with global environmental issues sustainability

science and human interactions with the environment      *Diplomacy on Ice* Rebecca H Pincus, Saleem H Ali, 2015-01-28 As the race for resources in distant parts of the planet gathers momentum most discussion has centered on the potential for conflict environmental destruction and upheaval from climate change This important book shifts the conversation about the Arctic and Antarctic from conflict to cooperation A multidisciplinary roster of experts provides fresh views of the polar regions focusing on diplomacy and the potential for cooperative international decision making Collectively the contributors illustrate the breadth of issues that complicate governance in the Arctic and Antarctic as well as parallels and differences between the politics of the two poles      **A Floristic Inventory and Spatial Database for Fort Wainwright, Interior Alaska** ,1997

*Higher Education Across the Circumpolar North* D. Nord, G. Weller, 2002-05-17 This is the first book to analyze the role of the new circumpolar universities in northern development Since 1960 over twenty new universities have been built in the northern regions of Canada Russia the United States the Nordic countries and Japan This book analyzes and compares the reasons for their establishment the impact they have had in providing greater access to advanced education and the effect they have had on economic social cultural and political development of these various northern regions      *The Power of Words in International Relations* Charlotte Epstein, 2008-10-03 The role of discursive power in shaping international relations analyzed through the lens of whaling politics In the second half of the twentieth century worldwide attitudes toward whaling shifted from widespread acceptance to moral censure Why Whaling once as

important to the global economy as oil is now had long been uneconomical Major species were long known to be endangered Yet nations had continued to support whaling In *The Power of Words in International Relations* Charlotte Epstein argues that the change was brought about not by changing material interests but by a powerful anti whaling discourse that successfully recast whales as extraordinary and intelligent endangered mammals that needed to be saved Epstein views whaling both as an object of analysis in its own right and as a lens for examining discursive power and how language materiality and action interact to shape international relations By focusing on discourse she develops an approach to the study of agency and the construction of interests that brings non state actors and individuals into the analysis of international politics Epstein analyzes the society of whaling states as a set of historical practices where the dominant discourse of the day legitimated the killing of whales rather than their protection She then looks at this whaling world s mirror image the rise from the political margins of an anti whaling discourse which orchestrated one of the first successful global environmental campaigns in which saving the whales ultimately became shorthand for saving the planet Finally she considers the continued dominance of a now taken for granted anti whaling discourse including its creation of identity categories that align with and sustain the existing international political order Epstein s synthesis of discourse power and identity politics brings the fields of international relations theory and global environmental politics into a fruitful dialogue that benefits both

**Health and Health Care in Northern Canada** Rebecca Schiff,Helle Møller,2021-11-02 Addressing the diversity of communities and experiences across Northern Canada Health and Healthcare in Northern Canada pays attention to what is needed to support and achieve health equity for northern communities and peoples

*The Lost Wolves of Japan* Brett L. Walker,2009-11-23 Many Japanese once revered the wolf as Oguchi no Magami or Large Mouthed Pure God but as Japan began its modern transformation wolves lost their otherworldly status and became noxious animals that needed to be killed By 1905 they had disappeared from the country In this spirited and absorbing narrative Brett Walker takes a deep look at the scientific cultural and environmental dimensions of wolf extinction in Japan and tracks changing attitudes toward nature through Japan s long history Grain farmers once worshiped wolves at shrines and left food offerings near their dens beseeching the elusive canine to protect their crops from the sharp hooves and voracious appetites of wild boars and deer Talismans and charms adorned with images of wolves protected against fire disease and other calamities and brought fertility to agrarian communities and to couples hoping to have children The Ainu people believed that they were born from the union of a wolflike creature and a goddess In the eighteenth century wolves were seen as rabid man killers in many parts of Japan Highly ritualized wolf hunts were instigated to cleanse the landscape of what many considered as demons By the nineteenth century however the destruction of wolves had become decidedly unceremonious as seen on the island of Hokkaido Through poisoning hired hunters and a bounty system one of the archipelago s largest carnivores was systematically erased The story of wolf extinction exposes the underside of Japan s modernization Certain wolf scientists still camp out in Japan to listen for any trace of the elusive canines

The quiet they experience reminds us of the profound silence that awaits all humanity when as the Japanese priest Kenko taught almost seven centuries ago we look on fellow sentient creatures without feeling compassion      **Provisional Tree**
