**The Evolution of the US Airline Industry** Eldad Ben-Yosef, 2005-10-24 For over three decades the airline industry has continued to maintain a high profile in the public mind and in public policy interest This high profile is probably not surprising There does seem to be something inherently newsworthy about airplanes and the people and companies that fly them The industry was one of the first major industries in the United States to undergo deregulation in 1978 It thereby transitioned from a closely regulated sector the former Civil Aeronautics Board tightly controlled everyt thing from prices to routes to entry to one that is largely market oriented The incumbent carriers transformed themselves from the point to point operators that the CAB had required to the hub and spokes structures that took better advantage of their network characteristics Further they transformed their pricing from the quite simple structures that the CAB had required to the highly differentiated segmented pricing structures yield management that reached an apogee in the late 1990s Some ca arriers like American Delta and United were better at this transition others like Pan American TWA and Eastern were not What the incumbent carriers did not do however was deal with their costly wage and work rules structures which were an enduring legacy of their regulatory period This legacy when combined with the high fare end of the yield management pricing structure has made them vulnerable to entry by new carriers with lower cost structures Airline Passenger Rights, H.R. 700, H.R. 780, and H.R. 908 United States. **106-1 Hearing: Airline Passenger Fairness Act (S.383), S. Hrg. 106-845, March 11, 1999**, 2001 Anger in the Air Joyce A. Hunter, 2016-04-15 The new realities of airline travel came into full focus after the September 11 terrorist attacks These horrific events escalated air rage incidents by 400% but more importantly they put the entire airline industry under the spotlight In subsequent years the general public began to voice frustrations with the industry in very dramatic ways a marked shift in consumer behavior from that of before 9 11 The International Transport Workers Federation responded with a call to action to bring about major changes to raise the airline industry to a level of service quality sufficient to meet the needs of 21st Century passengers The quality of services that airline customers expect and the propensity toward air rage needs to be understood Undoubtedly some passengers are prone to air rage by factors in no way related to customer service However a better understanding of the customer s perception of service and airlines offerings is one way of addressing the air rage crisis combating the contributing factors long before they conspire to provoke a damaging incidence Anger in the Air Combating the Air Rage Phenomenon provides airlines with valuable input to help them better meet the service expectations of their customers and avoid instances of air rage on their flights What do today s customers need and expect What do airline customers perceive as the quality of services and how can the gap be closed between expectations and perceptions The book addresses these key issues in five stages 1 The Changing Nature of War Kristen Boon, 2012 Terrorism Commentary on Security Documents is a series that provides primary source documents and expert commentary on various topics in the

#### **Feminist Surveillance Studies** Rachel E.

Dubrofsky, Shoshana Amielle Magnet, 2015-05-15 Questions of gender race class and sexuality have largely been left unexamined in surveillance studies The contributors to this field defining collection take up these questions and in so doing provide new directions for analyzing surveillance They use feminist theory to expose the ways in which surveillance practices and technologies are tied to systemic forms of discrimination that serve to normalize whiteness able bodiedness capitalism and heterosexuality The essays discuss the implications of among others patriarchal surveillance in colonial North America surveillance aimed at curbing the trafficking of women and sex work women presented as having agency in the creation of the images that display their bodies via social media full body airport scanners and mainstream news media discussion of honor killings in Canada and the concomitant surveillance of Muslim bodies Rather than rehashing arguments as to whether or not surveillance keeps the state safe the contributors investigate what constitutes surveillance who is scrutinized why and at what cost The work fills a gap in feminist scholarship and shows that gender race class and sexuality should be central to any study of surveillance Contributors Seantel Ana s Mark Andrejevic Paisley Currah Sayantani DasGupta Shamita Das Dasgupta Rachel E Dubrofsky Rachel Hall Lisa Jean Moore Yasmin Jiwani Ummni Khan Shoshana Amielle Magnet Kelli Moore Lisa Nakamura Dorothy Roberts Andrea Smith Kevin Walby Megan M Wood Laura Hyun Yi Kang *Regulations of the Civil Aeronautics Board* United States.
