Oil, the State, and War Emma Ashford, 2022 Petrostates play an outsize role in world affairs The largest producers of oil and natural gas are wealthy states that translate that wealth into influence They start more wars and support violent proxies abroad Oil rich states prop up the global arms trade but they also use their wealth for diplomatic and aid purposes Many assume that petrostates can use their contribution to global oil supply as a weapon but this is more myth than reality Emma Ashford provides a comprehensive exploration of the foreign policy capabilities of oil rich states through qualitative and quantitative analysis and short case studies of the foreign policies of petrostates At the same time the book argues that there are different types of petrostates that exhibit vastly different behaviors and capabilities In exploring the universe of petrostates through a unique typology this book helps us to better understand the diverse ways in which oil shapes the foreign policy of these states and in turn how they shape the world

and public participation in this system The Foreign Policy of the European Union Stephan Keukeleire, Tom Delreux, 2022-02-10 Keukeleire and Delreux demonstrate the scope and diversity of the European Union's foreign policy showing that EU foreign policy is broader than the Common Foreign and Security Policy and the Common Security and Defence Policy and that areas such as trade development environment and energy are inextricable elements of it This book offers a comprehensive and critical account of the EU's key foreign relations with its neighbourhood with the US China and Russia and with emerged powers and argues that the EU's foreign policy needs to be understood not only as a response to crises and conflicts but also as a means of shaping international structures and influencing long term processes This third edition reflects recent changes and trends in EU foreign policy as well as the international context in which it operates addressing issues such as the increasingly contested international order the conflict in Ukraine the migration and refugee crisis Brexit and Covid 19 The book not only clarifies the formal procedures in EU foreign policy making but also elucidates how it works in practice The third edition includes new sections and boxes on strategic autonomy European arms exports the EU's external representation the Brussels Effect and decentring and gender approaches to EU foreign policy Up to date jargon free and supported by its own website eufp.eu this systematic and innovative appraisal of this key policy area is suitable for undergraduate and postgraduate students as well as practitioners **Multinational Oil Corporations and U.S. Foreign Policy** United States.
