Norwegian Oil Policies:

Norwegian Oil Policies T. Lind, G.A. Mackay, 1979-01-01 **Norwegian Oil Policies** T. Lind, George Anthony Mackay, 1979-01-01 A review of the Norwegian oil industry and an evaluation of the government's policies in the light of present consumption and production estimates **The Oil Industry and Government Strategy in the North Sea** Oystein Noreng, 2016-03-02 Originally published in 1980 this book presents a comparative analysis of British and Norwegian oil policies focusing on the interdependence and bargaining relationship between governments and oil companies as well as the policy choices concerns and constraints for the two governments The perspective is largely that of a government planner whose main concerns are the long term and complex interests of the state orderly development as well as social and political stability *Norwegian Oil and Foreign Policy* Ole Gunnar Austvik, 1989 **The Oil Industry and Government Strategy in the North Sea** Oystein Noreng, 2016-03-02 Originally published in 1980 this book presents a comparative analysis of British and Norwegian oil policies focusing on the interdependence and bargaining relationship between governments and oil companies as well as the policy choices concerns and constraints for the two governments The perspective is largely that of a government planner whose main concerns are the long term and complex interests of the state orderly development as well as social and political stability *Local Content Policies in Resource-rich Countries* Yelena Kalyuzhnova, Christian A. Nygaard, Yerengaip Omarov, Abdizhapar Saparbayev, 2016-09-26 This book analyses the role of local content LC policy in the economic development of five resource rich countries Brazil Kazakhstan Norway Russia and the UK The authors situate LC policy within a framework of sustainability in the form of industrial diversification and innovation led growth and examine how effective LC policies are in facilitating sectoral and economy wide catching up Structured in five chapters the book begins with an introduction and then presents an overview of LC definitions and situates LC policies within a framework of economic development The third chapter compares specific examples of LC development and highlights variations in practice as well as learning across case countries The fourth chapter focuses on macro economic micro economic and institutional challenges conditioning LC development and the ability of LC policies to assist innovation led growth The authors conclude by examining what the future holds for LC policies and their role in promoting economic growth and addressing the wider social political and economic challenges in resource rich countries *Natural Resources and Economic Growth* Marc Badia-Miró, Vicente Pinilla, Henry Willebald, 2015-05-22 The relationship between natural capital and economic growth is an open debate in the field of economic development Is an abundance of natural resources a blessing or a curse for economic performance The field of Economic History offers an excellent vantage to explore the relevance of institutions technical progress and supply demand drivers *Natural Resources and Economic Growth* contains theoretical and empirical articles by leading scholars who have studied this subject in different historical periods from the 19th century to the present day and in different parts of the world Part I presents the theoretical issues and discusses the meaning of the curse and the relevance of

the historical perspective Part II captures the diversity of experiences presenting thirteen independent case studies based on historical results from North and South America Africa Asia Oceania and Europe This book emphasizes that an abundance of natural resources is not a fixed situation It is a process that reacts to changes in the structure of commodity prices and factor endowments and progress requires capital labour technical change and appropriate institutional arrangements This abundance is not a given but is part of the evolution of the economic system History shows that institutional quality is the key factor to deal with abundant natural resources and especially with the rents derived from their use and exploitation This wide ranging volume will be of great relevance to all those with an interest in economic history development economic growth natural resources world history and institutional economics

Innovation, Path Dependency, and Policy

Jan Fagerberg, David Mowery, Bart Verspagen, 2009-02-12 The concept of National Innovation Systems is well established in academic research and enthusiastically adopted by policymakers Yet there are relatively few in depth studies of how individual national innovation systems have evolved to their present stance This book provides just that The contributions of the book are threefold First it develops an evolutionary and historically oriented approach to the study of the development of these policies that may have wide applicability Second it focuses on a particular type of innovation innovation in resource based activities that differs in many respects from the more commonly studied case of innovation in high tech industries Third the book advances our understanding of the roles played by institutions and politics in innovation The book includes contributions from historians economists and sociologists and offers an unparalleled account of the development of one of the world s most successful economies

Nordic Economic Policy Review 2019

Calmfors, Lars, Hassler, John, Nasiritousi, Naghmeh, Bäckstrand,

Karin, Silbye, Frederik, Sørensen, Peter Birch, Carlén, Björn, Krüström, Bengt, Grecker, Mads, Golombek, Rolf, Hoel, Michael, Holtmark, Katinka, 2019-05-13 The articles in the 2019 Nordic Economic Policy Review analyse how the Nordic countries best can contribute to international climate policy The articles cover topics such as How can the Nordics help raise the ambitions in the Paris Agreement What is the effect of national policy on emissions regulated by the EU Emissions Trading System Would it be cost effective for the Nordic countries to pay for emission reductions elsewhere to a larger extent What role should be played by subsidies to green technology Should Norway put more emphasis on supply side policies that is on limiting future extraction of oil and gas The volume contains five papers with associated comments which were originally presented at a conference in Stockholm on 24 October 2018 *The Oil Business and the State* Øystein Noreng, 2021-10-18 National oil companies are big business with about 80 percent of the world's proven oil reserves and they are crucial to the world's energy supplies They are giants some of the world's largest companies measured by market capitalisation cash flow and investment Little is known about their modus operandi how they make decisions about investment and production or about relations with their government owners However it is known that they conduct business with a political mandate often with multiple long term objectives broadly defined and hard to quantify Unclear mandates give national oil companies leeway to pursue their own distinctive interests apart from those of the government owner As investors governments are less zealous than private investors They generally observe multiple objectives not only return on capital Therefore the senior management of national oil companies enjoy more discretionary power and consider longer time horizons than their counterparts in the private sector *The Oil Business and the State* explains the practice of state ownership in a capital intensive industry with high risks and high return and how these companies act in a market with imperfect competition This book looks to give readers more insight into the oil industry into the background of oil exporting countries as well as the economic and political challenges confronting them including problems of state ownership The book discusses wider consequences of China replacing the United States as the world's leading oil importer It will be of interest to researchers academics and students in the fields of international business management history corporate governance political economy and economic development of oil rich countries **Marine Mineral Resources** Fillmore C. F. Earney, 2012-11-12 During the past century scientists world statesmen and international entrepreneurs have become increasingly aware of the potential of the oceans as a source of minerals This book provides an authoritative picture of the current state of marine mineral extraction A major work of reference it will be essential reading for both those engaged in maritime studies and for professional organisations involved in the extraction of underwater minerals **The Politics Of Oil-producer Cooperation** Dag Harald Claes, 2018-05-04 *The Politics of Oil Producer Cooperation* is a comprehensive study of the behavior of political actors in the international oil market since 1971 In this study Dag Harald Claes seeks to answer the question of what determines the cooperative behavior among oil producing countries and he also shows the benefits of

approaching an empirical topic from several levels of analysis Claes provides a case study demonstrating the problems of collective action in international politics and he discusses multi level approaches in studies of international relations and international political economy **Energy Abstracts for Policy Analysis** ,1981 Assembling Petroleum Production and Climate Change in Ecuador and Norway Elisabeth Marta Tømmerbakk,2021-08-01 This book addresses some of the controversies and uncertainties associated with reducing the extensive exploitation of fossil fuels due to their role in global warming Elisabeth Marta Tømmerbakk explores why a transition towards a post carbon society is so difficult to accomplish by examining how the relationship between petroleum production and climate change is politically framed and negotiated in contested cases This question is approached through a process oriented comparative case study of Lofoten located in the Norwegian Sea above the Arctic Circle and Yasuní ITT Ishpingo Tambococha and Tiputini located in the Ecuadorian Amazon regions that both belong to oil exporting countries with highly oil dependent economies Tømmerbakk draws on rich empirical data that includes qualitative interviews with subjects in both countries and applies an Actor Network Theory framework to show that oil and climate are intricately entangled in knowledge and policy practices Overall Assembling Petroleum Production and Climate Change in Ecuador and Norway provides an in depth examination of how climate science and petroleum extraction are negotiated adapted assembled and coordinated with other national policies and political aims This book will be of great interest to students and scholars of petroleum production climate change environmental policy and environmental sociology Public Responses to Fossil Fuel Export Hilary Boudet,Shawn Hazboun,2022-01-29 Public Responses to Fossil Fuel Export provides wide ranging theoretical and methodological international contributions on the human dimensions of fossil fuel export with a distinctive focus on exporting countries some of which are new entrants into the marketplace What do members of the public think about exporting fossil fuels in places where it is happening What do they see as its main risks and benefits What connections are being made to climate change and the impending energy transition How have affected communities responded to proposals related to fossil fuel export broadly defined to include transport by rail pipeline and ship Contributions to the work are presented in three parts The first part synthesizes the background of the project outlines major social science theories and relevant previous research and identifies global trends in energy production Regional and national case studies related to public opinion on fossil fuel export are included in part two of the manuscript Part three highlights community based case studies Implications for research and practice feature in the concluding chapter Serves as a definitive reference on the social dimensions of fossil fuel export bringing together case examples and public opinion research from around the world on this important but understudied issue Explores the broader implications for growing field of energy social science particularly those focused on public perceptions of energy development siting controversies and community impacts from energy development Provides practical and policy implications including the need for better community inclusion in export and transport facility siting decisions the changing
