Richard G. Kyle,2012-08-01 How will the world end Doomsday ideas in Western history have been both persistent and adaptable peaking at various times including in modern America Public opinion polls indicate that a substantial number of Americans look for the return of Christ or some catastrophic event The views expressed in these polls have been reinforced by the market process Whether through purchasing paperbacks or watching television programs millions of Americans have expressed an interest in end time events Americans have a tremendous appetite for prophecy more than nearly any other people in the modern world Why do Americans love doomsday In Apocalyptic Fever Richard Kyle attempts to answer this question showing how dispensational premillennialism has been the driving force behind doomsday ideas Yet while several chapters are devoted to this topic this book covers much more It surveys end time views in modern America from a wide range of perspectives dispensationalism Catholicism science fringe religions the occult fiction the year 2000 Islam politics the Mayan calendar and more **Time of the Quickening**

Susan B. Martinez,2011-03-28 A guide to the science of prophecy why so many predictions never come to pass and the Golden Age ahead Presents a mathematical means of divining the future revealed in the Oahspe Bible using the Egyptian Tables of Destiny a 12 000 year old system so exact it can foretell

every day of the year Reveals that we are not headed for Rapture and the Apocalypse but for the Quickening the embryonic stage of a Utopian Age Examines the cycles of history and explains why many prophecies have not come true Reviewing the cycles of history from biblical times to the present and prophecies of the future from Nostradamus to Edgar Cayce and Jeane Dixon Susan B Martinez reveals that our current time of troubles is not the beginning of Rapture the Apocalypse or Armageddon but of the embryonic stage of a Utopian Age the Quickening of the human race Reviving the lost science of prophecy Martinez explains why so many great prophecies have failed and presents the 12 000 year old Egyptian system of prediction so exact it can foretell every day of the year a method based not on the planets astrology or intuition but on Earth s magnetic rhythms Using Earth science historical research religious texts spiritualism and patterns within the cycles of war and political milestones she demonstrates that the past is the hidden key to the future and uncovers the prophetic numbers of Earth s cycles 11 33 99 and 363 as set forth in the Egyptian Tables of Destiny ancient texts brought to light by the 19th century Oahspe Bible Explaining how readers can use the Tables of Destiny to make their own predictions of the future she presents her own forecasts of the risks and costs of technological progress the destiny of America the up and coming global religion the truth behind climate change and the cause of earthquakes and the true life expectancy of planet Earth as well as offering a preview of the Paradigm Shift and Golden Age ahead a time of global unity and awakening of the soul of the world

**Constructive Conversations About Health** Marshall Marinker, Fritjof Capra, 2018-08-15 Current health policy is required to respond to a constantly changing social and political environment characterised particularly in Europe by ageing populations increased migration and growing inequalities in health and services With health systems under increasing strain there is a sense that we need to seek new means of determining health policy Much political debate focuses on managerial issues such as the levels of health funding and the setting and missing of targets Meanwhile our moral imperatives our values and principles go relatively unexamined What are these values Can we agree their validity and salience How do we manage the paradox of competing goods Can we find new ways of talking about and resolving our conflicting values and competing priorities in order to create sound appropriate and just health policies for the 21st Century Written by leading health policy makers and academics from many countries Constructive Conversations about Health examines in depth the underlying values and principles of health policy and posits a more enlightened public and political discourse The book will be invaluable for those involved in health policy making and governance politicians healthcare managers researchers ethicists health and social affairs media health rights and patient participation groups The literature on health policy is vast On offer are models of health services economic theory management theory disquisitions on ethical principles social analyses literally thousands of publications In a globalised and electronically networked world this literature has already generated its own particular language a policy jargon replete with terms that look deceptively familiar terms that will be much in evidence in what now follows terms whose meanings require our closest attention Marshall Marinker      **A History of the Apocalypse** Catalin

Negru,2023-01-20 Religion For thousands of years this thing has dictated which people should live and which people should die what shape our buildings should have or what colors our garments should contain what food people should eat or what words people should speak If religion is the opium of the masses then beliefs about the end of the world are like overdoses People touched by such beliefs no longer rely on a hidden personal and intimate god contemplated upon from the safe distance of the beating human heart They live with the promise of divine intervention at a grand scale on the current coordinates of space and time This can be an exceptional motivator and a game changer in terms of civil obedience both at an individual and collective level In the name of an immediate and palpable deity people can commit shocking cruelties However such belief can also account for some of the most exceptional social developments in human history

**Nostradamus 2242 Judgment Day** Benoit d'Andrimont,2012-10-11 NOSTRADAMUS The code Revealed Quatrain 3 94 For five hundred years more they will take notice of him Who was the ornament of his time Then suddenly a great revelation will be made Which will make people of that century well pleased One of the most important quatrain written by Nostradamus about his fame for five hundred years then suddenly the discovery and revelation of his code enabling people to finally begin to understand the dating and meaning of the prophecies From 1503 to 2003 five hundred years have passed this amazing book reveals for the first time in history the code intended by Nostradamus bringing to light what was so obscure The end the year 2242 will please the reader to know there is no eminent end of the world as predicted by so many charlatans **Nostradamus décodé** Christian Turpin,2010-10-06 Le plus sophistiqué des systèmes de cryptage laboré par Nostradamus avant 1550 pour coder les dates et les événements qui ont fait l'Histoire commence livrer ses secrets Christian Turpin le démontre Nostradamus a disposé un jeu de quatrains de ses Centuries et les prévisions de ses Almanachs sur les dates de calendriers de son époque celles de ses Éphémérides selon un système de tables analogiques permettant de mettre en concordance les dates de ces calendriers avec les événements futurs vus et décrits L'auteur montre comment Nostradamus a laissé des pistes dans son œuvre tels les quatrains zodiacaux afin que son système de cryptage temporel soit reconstitué

**Nostradamus** Stéphane Gerson,2012-10-30 We all know the name Nostradamus but who was he really Why did his predictions become so influential in Renaissance Europe and then keep resurfacing for nearly five centuries And what does Nostradamus's endurance in the West say about us and our own world In Nostradamus How an Obscure Renaissance Astrologer Became the Modern Prophet of Doom historian Stéphane Gerson takes readers on a journey back in time to explore the life and afterlife of Michel de Nostredame the astrologer whose Prophecies have been interpreted adopted by successive media and eventually transformed into the Gospel of Doom for the modern age Whenever we seem to enter a new era whenever the premises of our worldview are questioned or imperiled Nostradamus offers certainty and solace In 1666 guests at posh English dinner parties discussed his quatrain about the Great Fire of London In 1942 the Jewish writer Irène Némirovsky latched her hopes for survival to Nostradamus prediction that the war would soon end And on September 12 2001

teenagers proclaimed on the streets of Brooklyn that this guy Nostradamus had seen the 9 11 attacks coming Through prodigious research in European and American archives Gerson shows that Nostradamus a creature of the modern West rather than a vestige from some antediluvian era tells us more about our past and our present than about our future In chronicling the life of this mystifying figure and the lasting fascination with his predictions Gerson s book becomes a historical biography of a belief the faith that we can know tomorrow and master our anxieties through the powers of an extraordinary but ever more elusive seer      **Cambiamento Climatico** Aurelio Bruno,2024-08-22 La vera storia di 60 anni di narrazione sul cambiamento climatico e sulle profetizzate catastrofi mai successe Il testo tratta della creazione di un culto parascientifico dei sottesi enormi interessi di speculazione finanziaria e delle ricadute normative influenzanti la vita di tutti Alla fine fa il punto sull epocale fregatura inferta all ambientalismo mondiale      The Complete Prophecies of Nostradamus Nostradamus,Mario Reading,2009 Best selling author Mario Reading brings together a complete new translation and an original interpretation of all the known quatrains      The British National Bibliography Arthur James Wells,2005

passage de l'opacité à l'éclaircir le sens      **The Dove and the Dragon** Ed Simon, 2025-08-12 No Western religious concept has been as socially culturally economically and politically significant as that of the apocalypse Neither heaven and hell nor sin and salvation nor even God and the devil have merited the attention of billions of people in the manner that belief in the end of the world has Apocalyptic thinking is riven by a fruitful and at times dangerous binary between the hopes for a coming millennium when all shall be perfected or of a fiery deluge when the earth shall be destroyed The Dove and the Dragon is the first comprehensive history of Western apocalypticism Ed Simon introduces a new system for classifying movements concerned with the end of history between hopeful millennial doves and violent apocalyptic dragons This framing connects a seemingly disparate phenomenon from medieval millennialism to modern Marxism Reformation apocalypticism to contemporary techno utopianism Expected groups are considered but unexpected phenomena are interpreted through the lens of apocalypticism as well to argue that those that have often been classified as secular still take part in this ancient theological category This new way of interpreting history gives sense to the full scope of apocalypticism as a series of movements and as a genre including not just religion and theology but politics philosophy and pop culture as well The Dove and the Dragon promises to be the standard introduction for years to come      *Eesti rahvusbibliograafia* ,2004
