Galaxy Charles E. Anzalone, 2012-08-17 The book titled Orion's Highway Across the Galaxy is about an alien from a distant planet assigned to help mankind by making specific individuals in the past become famous. His name is Enoch and he is a distant cousin of the human race. Gifted with certain skills, he is able to help Nostradamus, Mozart, and Dr. Christiaan Barnard gain the recognition that they richly deserved. The following is a quote from Enoch as he summarizes his life: Nostradamus, Mozart, and Dr. Barnard—all these men with different personalities—were the ones that I helped in the corresponding years 1513, 1756, and 1962. Mozart lived for only thirty-five years because of the drugs he received as a baby, causing his brain to deform. For every bad thing, there is a good thing; his contribution was the brilliance of his music that he left for society. When I recall the three Earthlings that I guided toward recognition, I concede that their beginnings were apt to be shadowy. So it is with great men trying to find their beginnings with their inner skills that are undeveloped. Most critics then and now still debate the success of their accomplishments with doubt and jealousy, and yet wishing that they could achieve fame themselves. The plain and inescapable truth is that these men struggled with a desire that motivated them, and in the absence of eyewitnesses, no one was there to see me rally them on. I gave them inspiration and the ability to meet their goals. Enoch II: With a life span of twelve hundred years, Enoch is capable of accomplishing many goals set forth by his superiors. The only goal that he cannot successfully complete is to make a decision to marry Beena, the red-haired beauty whom he loves, or to marry Brianna, the beautiful blond that had his child out of wedlock. During Enoch's multiple visits to planet Earth, he discovers the mysteries of the universe. The following is one of Enoch's discoveries: Traveling at Warp 5, we crossed the barrier that separates the two spiral sectors in our galaxy, called the Milky Way. Beyond the stream of neutrinos on the other side of the barrier, I could see the multicolored beacons that our radar illuminated on the monitor screen. The green rings and yellow dots in a circular pattern outlined the entrance to Orion's Highway, a pathway that led to planet Earth. My assignment was to help an individual on Earth to become historically famous, an individual whose artistic music skills would calm the soul and quench the fires of war within the hearts of men. The individual was my distant cousin, and I was about to become my Brother's Keeper. Enoch II: The story line unravels universal mysteries about the feasibility of space flight at warp speeds, a decoding of the Bible that shows when the Great Flood occurred, and the purpose.

The Last Days of Publishing Tom Engelhardt, 2005-09-21 Pompeii never had it so bad. Rick Koppes knows a world is ending. The only question is will he end with it. An editor at Byzantium Press for the last quarter century, he has watched his small, classy publishing house get gobbled up first by an American publishing giant and then by Multimedia Entertainment, the Hollywood wing of Bruno Hindemann's German media empire. His editing colleagues are being downsized, his authors axed, and in a world where the cultural wallpaper is screaming, he himself hangs on by a fingernail. The latest work of his sole best-selling author, pop psychologist Walter Groth, is racing off bookstore shelves. And that's just where his problems begin.

after all Multimedia is about to make his ex wife a publishing executive at another house his boss his assistant wants his authors and a woman who claims her father dropped the bomb on Nagasaki insists he publish her woeful memoir Koppes who came of age in the sixties is an editor slowly running off the rails In the six episodes of *The Last Days of Publishing* he refights the Vietnam War in a Chinese restaurant discovers that the paleontological is political in a natural history museum mixes it up with a flamboyant literary agent who went underground decades earlier and encounters a hippie cultural oligarch on the forty fifth floor of Multimedia s transnational entertainment headquarters Tom Engelhardt himself a publishing veteran has produced a tumultuous vision of the new world in which the word finds itself hustling for a living By turns hilarious sardonic and poignant his novel deftly captures the ways in which publishing which has long put our world between covers but has seldom been memorialized in fiction is being transformed
