**Saint Germain's Prophecy for the New Millennium** Elizabeth Clare Prophet,1999 Prophecy for the New Millennium shows us how to make our future a brighter day *Nostradamus and the New Millennium* Michael Jordan,1998 Based upon a more optimistic outlook than most books that delve into the prophecies of 16th century seer Nostradamus this study challenges many of the traditional views put forward regarding his predictions **The Complete Idiot's Guide to New Millennium Predictions** Lisa Lenard-Cook,New Age Collective,Lisa Lenard,1999 You're no idiot of course You've had your birth chart done your numbers calculated your cards analyzed your intuition heightened and your palm read But when it comes to knowing what's in store after the year 2000 you feel like you need H G Wells's time machine Don't go back to the future just yet The Complete Idiot's Guide to New Millennium Predictions tells you everything you need to know about the promises and challenges of the next thousand years In this Complete Idiot's Guide the New Age Collective helps you explore what the future holds both for humankind and for you Astrologer Sheila Belanger reveals how planetary cycles will affect your birth chart Numerologist Kay Lagerquist explores moving from the 1 century to the 2 plus your personal numbers Tarot Reader Arlene Tognetti deals you the cards and answers your questions Psychic Intuitive Lynn A Robinson M Ed gives you intuitive tools for the new millennium **Nostradamus: The Lost Manuscript** Ottavio Cesare Ramotti,2002-04-01 Paintings by Nostradamus discovered in 1994 in the Italian National Library provide the key to decoding his prophecies Reveals the chronology of Nostradamus's quatrains that have been hidden for 400 years Shows how Nostradamus correctly predicted the Nazi Blitzkrieg the assassination attempt on Pope John Paul II and Boris Yeltsin's rise to power Contains prophecies for what the next millennium has in store In 1994 members of the Italian National Library in Rome found buried in their archives an unknown and unpublished manuscript consisting of 80 mysterious paintings by the famed prophet Michel de Nostradamus 1503-566 This manuscript had been handed down to the prophet's son and later donated by him to Pope Urban VIII It confirms the chronology of Nostradamus's quatrains that had been hidden for 400 years and was discovered by the well known Nostradamus scholar Ottavio Cesare Ramotti In both the paintings and accompanying quatrains within Nostradamus correctly predicts such key events as the Nazi Blitzkrieg the assassination attempt on Pope John Paul II the burning of the oil wells of Kuwait by Iraq and Boris Yeltsin's rise to power Knowing the power that his prophecies contained and wary of this power falling into the wrong hands Nostradamus scrambled both the meaning and the order of his quatrains so that humanity would not be able to use them until it had become sophisticated enough to decode them That time is now Using a software program he created Ramotti cracked the code and produced a book that is required reading for those who want to know what the next millennium has in store **Nostradamus** John Hogue,1995 Looks at the life of Nostradamus and gives the author's interpretation of some of the sixteenth century prophet's predictions that apply to the seven years before the new millennium **The End Times** Kurt B. Bakley,2016-01-20 In this book we will read the ancient prophecies for

the next 1000 years and beyond It quite different then any other works on this subject but I feel this is the correct one I could be wrong We will read the dates and time periods of Daniel and Revelation all the Bible Nostradamus and ancient Egyptian art to see what will happen and when All prophecies in all books will be fulfilled if true during this time span Se read on and see your future Be sure to read my other books entitled Predictions for 2015 Revised Edition The Experiment at Philadelphia Revised Edition End Time Signs II and The End Times Prophecies dont always happen the way we think they will and many times give more than one date event and time Some preachers call this secondary fulfillment For the prophecies of this book to come true the events of September 24 28 and or October 15 17 December 31 29 24 25 14 7 November 10 11 22 2016 or 2017 must come to pass or else another type of future will happen I explain this in this book and document how other books predicts four or five possible futures and from four or five one will come true as Isaac Newton and a woman in a life after death experience predicted She said when she was dead she saw four or five futures unfold before her She came back to life and forgot about them and one day in her kitchen she notice it was the exact copy of one of her futures she saw long ago when she was dead One comes true out of four or five If the people remain sinning the good prophecy could fail This book was finished on December 14 2015 leave in Forthcoming Books Rose Army,2003 **Nostradamus** Bill Anderton,1998

a natural harmonic calendar based on the 13 moon 28 day cycle Until the creation of the Gregorian calendar and the 60 minute hour most of humanity lived by the 28 day cycle of natural time The adoption of artificial time has subjected us to a 12 60 time frequency that governs the entire global industrialized civilization the technosphere With the collapse of the Twin Towers on September 11 a fissure was created in this artificial technosphere opening up the noosphere Earth's mental envelope Humanity has a golden opportunity to leave the strife of the past and enter a time of peace by adopting a harmonious natural calendar that will repair the damages caused by the irregular tempo of technospheric time Our last best chance to adopt this natural time and step into the bright new future promised by the galactic shift of 2012 is the Great Calendar Change of 2004 a new discovery based on the author's mathematical research into the Mayan calendar first begun in his landmark work *The Mayan Factor In Time and the Technosphere* Argelles reveals the clear distinction between third dimensional astronomical time and the fourth dimensional synchronic order of the Law of Time which holds enormous potential for the future of humanity

**Dreaming the Future** Clifford A. Pickover, 2001-03 For countless generations people of every culture have practiced a broad range of dramatic and sometimes frightening techniques to peer into the future In this fascinating book acclaimed author Clifford Pickover presents a nearly exhaustive list of fortune telling techniques from the ominous practice of human sacrifice to reading clues on the Internet Pickover not only explores a vast and colorful array of methods of prediction including dreaming he also evaluates the accuracy of some of the most astonishing prophecies made throughout history Just how accurate were such famous soothsayers as Nostradamus the Delphic Oracle Edgar Cayce the children of Fatima whose third vision has only recently been revealed and dozens more This book takes us one step further by exploring our own inner psyches Why does looking into the future provide a source of solace in a world filled with uncertainty disease and chance And why do the most noted prognosticators so often warn of natural catastrophes of biblical proportions such as earthquakes and floods that will signal the end of the world Through insight and wit Pickover will unlock the door of your imagination with engrossing mysteries intriguing illustrations and even modern patents and computer techniques Also included is a range of practical experiments and recipes from Stone Age to New Age Prepare yourself for a strange but captivating ride

**Precarious Balances** Charles Stewart Goodwin, 1999-04-15 *Precarious Balances* The Middle Ages of the Next Millennium explores a comparison of the present century and the next with the thirteenth and fourteenth centuries as a period of transition from one type of civilization to another Goodwin compares the present socio political trends with those of medieval Europe that developed the philosophy and the institutions that have dominated the last 500 years He portrays the struggle between the choices that can be made and the potential effects they can have discerning between what can and cannot be controlled Goodwin proposes plausible alternatives to short term policies that may avoid the long term adversity he envisions now He points out the downplayed realities of the twentieth century a period dominated by technological

achievement and the affluence of some that actually was dominated by violence and a widening of wealth gaps This pattern he predicts will lead to a new feudalism if action is not taken to redirect the socio political tendencies now in place
