Not A One Horse Town 125 Years Of Toront:

Wheeling through Toronto Albert Koehl, 2024-05-01 Highlighting an important yet often ignored part of Toronto's transportation story *Wheeling through Toronto* chronicles the history of the bicycle and reveals a way forward for a world in climate crisis Throughout its history in Toronto the bicycle's place on the roads and in public esteem has fluctuated wildly flaunted as fashionable disparaged and derided rescued from looming obscurity and promoted as a way to respond to the challenges of the day What is it about the simple bicycle that it can be so loved by some yet despised and detested by others *Wheeling through Toronto* offers a 130 year ride from the 1890s to the present to help answer this question Albert Koehl a Toronto lawyer and leading cycling advocate chronicles the tumultuous history of this mode of transportation from the bicycle craze at the turn of the century to the rise of the car and the motorway in the 1950s to the intensifying cry for active transportation in the 1990s and into pandemic times In an era of catastrophic climate events *Wheeling through Toronto* highlights how the bicycle should be celebrated not only as hope for the future but also for its affordability for its contribution to clean and healthy mobility and because it brings happiness and joy to so many Drawing on archival materials newspapers and personal interviews and full of fascinating vignettes this book presents the story of how we got here and what Torontonians need to know as we pedal forward *Walter Beauchamp* Pedro Mendes, Terry Beauchamp, 2017-08-11 As

one of the Canada's oldest custom tailors Walter Beauchamp Tailors has nurtured a unique civilian and military tailoring business for over a century Owned and operated by three generations of the Beauchamp family since 1908 the company appeared on the brink of permanent closure in 2014 but its renaissance was ensured by a bold business move Now the story behind the success of this iconic brand is captured in an engaging book that takes us on a fascinating tour through the building of a celebrated family business and into the lives of its devoted clientele Told from the intimate perspective of a custom tailor here are the stories of officers and soldiers as well as prime ministers mayors and judges artists and explorers and men and women Along the way the book reveals an intriguing history of Toronto through the twentieth century and its rapid growth into a globally renowned city from the vantage point of the Beauchamp shop windows *Walter Beauchamp A Tailored History of Toronto* is a lively tale of how this renowned company has survived the effects of world wars and the Great Depression store relocations and the wrecking ball as well as the fickle face of fashion retail with grace elegance and always discretion **Streetcars and the Shifting Geographies of Toronto** Brian Doucet, Michael Doucet, 2022-03-01

When looking at old pictures of Toronto it is clear that the city's urban economic and social geography has changed dramatically over the generations Historic photos of Toronto's streetcar network offer a unique opportunity to examine how the city has been transformed from a provincial industrial city into one of North America's largest and most diverse regions *Streetcars and the Shifting Geographies of Toronto* studies the city's urban transformations through an analysis of photographs taken by streetcar enthusiasts beginning in the 1960s These photographers did not intend to record the urban

form function or social geographies of Toronto they were accidental archivists whose main goal was to photograph the streetcars themselves But today their images render visible the ordinary day to day life in the city in a way that no others did These historic photographs show a Toronto before gentrification globalization and deindustrialization Each image has been re photographed to provide fresh insights into a city that is in a constant state of flux With gorgeous illustrations this unique book offers an understanding of how Toronto has changed and the reasons behind these urban shifts The visual exploration of historic and contemporary images from different parts of the city helps to explain how the major forces shaping the city affect its form functions neighbourhoods and public spaces *Thinking Planning and Urbanism* Beth Moore

Milroy,2010-01-01 When manufacturers and retailers vacate traditional locations they leave holes in a city s fabric that signal a shifting urban industrial terrain Who should mend these spaces and how should they approach the problem Using Toronto s Dundas Square and surrounding area as a case study *Thinking Planning and Urbanism* meticulously reconstructs the redevelopment process to explore the theories and practices used It traces the labyrinth of competing interests that can sideline and nearly overwhelm the public planning function In these circumstances Moore Milroy concludes practising planners are marooned by planning theories that begin from the premise that urban space is a social construction and only secondarily a function of technology and aesthetics This book makes plain the nature of the gap between the practice of planning and its theories a gap that inhibits planners from effectively championing creative actions to deal with postindustrial problems The findings drawn from this case will be widely recognized in redevelopment elsewhere and thus will be extremely useful to students and practitioners of urban design public administration municipal law and urban and regional planning **Toronto** Ron Williamson,2008-06-15 Telling Toronto s story from the final retreat of the Laurentide Ice Sheet to today s metropolis a team of expert authors brings beautiful illustrations and fascinating fresh perspectives together in this new natural archaeological and social history **Urban History Yearbook, 1988** Richard Rodger,1989-03
