Not Entirely Benign Procedure Four Years As A Medical Student:

A Not Entirely Benign Procedure Perri Klass, 1987 *Autobiographical Writing Across the Disciplines* Diane P. Freedman, Olivia Frey, 2004-01-23 An anthology of the personal autobiographical essays of scholars who have made the life story an important part of their disciplinary research *Fictions of Legibility* Gabriela Stoicea, 2020-03-03 Gabriela Stoicea examines how the incidence and role of physical descriptions in German novels changed between 1771 and 1929 in response to developments in the study of the human face and body As well as engaging the tools and methods of literary analysis the study uses a cultural studies approach to offer a constellation of ideas and polemics surrounding the readability of the human body By including discussions from the medical sciences epistemology and aesthetics the book draws out the multi faceted permutations of corporeal legibility as well as its relevance for the development of the novel and for facilitating inter disciplinary dialogue *Hospital Land USA* Wendy Simonds, 2016-11-03 In *Hospital Land USA* Wendy Simonds analyzes the wide reaching powers of medicalization the dynamic processes by which medical authorities institutions and ideologies impact our everyday experiences culture and social life Simonds documents her own *Hospital Land* adventures and draws on a wide range of U S cultural representations from memoirs to medical mail from hospital signs to disaster movies in order to urge critical thinking about conventional notions of care health embodiment identity suffering and mortality This book is intended for general readers medical practitioners undergraduate and graduate students in courses on medical sociology medicine medical ethics nursing public health carework visual culture cultural studies and gerontology *A Journey* John S. Campbell, MD, 2006-06-26 All of us repeatedly grieve heal and reinvent ourselves throughout our lives Being aware of and active in this inherent aspect of our existence I believe to be a less painful and more satisfying way of living than blindly struggling with or resisting these natural processes John S Campbell M D author of *A Journey Creative Grieving and Healing* We all die he seems to be telling us What is far more important is that we live a meaningful life before that time comes We all need to dig deep to find our own wisdom so we may understand what John is telling us Nikki DeFrain M S and John DeFrain Ph D from their Foreword **A Disease of Society** Dorothy Nelkin, 1991-02-22 This book first published in 1991 argues that AIDS is a disease of society which is challenging and changing society profoundly **A Caring Jurisprudence** Susan M. Behuniak, 1999-08-31 In deciding the abortion and physician assisted suicide cases a majority of the Justices of the United States Supreme Court drew on medical knowledge to inform their opinions while dismissing the distinctively different knowledge offered by patients Following the legal norms derived from the ethic of justice the Court's deference toward the Ouniversal O Oimpartial O and Oreasoned O knowledge of the medical profession and its disregard of the Oparticular O Oinvolved O and Oemotional O knowledge of patients seemed inevitable as well as justified But was it This book argues that it is both possible and proper to develop a jurisprudence capable of incorporating the knowledge of patients Drawing on feminist scholarship this book proposes a model for a Ocaring jurisprudence O that integrates the ethic of justice and the

ethic of care to ensure that patients' knowledge is included in judicial decision making *The Mercy Rule* Perri Klass, 2009-07-08 After overcoming a difficult childhood in foster care pediatrician Lucy Weiss a suburban wife and mother finds herself back in the world of families living on the edge as she begins working with at risk young patients and their families

How Doctors Think Kathryn Montgomery, 2006 Although physicians make use of science this book argues that medicine is not itself a science but rather an interpretive practice that relies heavily on clinical reasoning In *How Doctors Think* Kathryn Montgomery contends that assuming medicine is strictly a science can have adverse effects She suggests these can be significantly reduced by recognizing the vital role of clinical judgment

BOOK JACKET *Essays on Nursing Leadership* Claire M. Fagin, PhD, RN, FAAN, 2000-09-07 This collection of works will lend valuable insights into current challenges from one of the masters I personally want to thank Clare for making this collection available so that many more will be inspired by her as I and many others have been from the foreword by Pamela J Maraldo PhD RN FAAN These selections represent the best of Claire M Fagin's writings over a 30 year period In her direct and vivid style she shares many of the skills necessary to become a nurse leader and passionately discusses many of the issues facing health care in which nurses can play a leadership role

Clear Writing Marjorie Mather, Brett McLenithan, 2006-10-31 Clear Writing is a compact varied and very readable collection of prose designed to provide models of excellent and engaging writing for courses in rhetoric composition writing university writing expository prose non fiction writing and the essay

Every Mother Is a Daughter Perri Klass, Sheila Solomon Klass, 2008-12-10 Mothers and daughters go through so much yet when was the last time a mother and daughter sat down collectively to write a book together about it all Perri Klass and her mother Sheila Solomon Klass both gifted professional writers prove to be ideal collaborators as they examine their decades of motherhood daughterhood and the wonderful if sometimes fraught ways their lives have overlapped Perri notes with amazement how closely her own life has mirrored her mother's Both have full time careers Perri is a pediatrician Sheila is recently retired from a long career as a college English professor but goes on teaching both have published books articles and stories each has three children they both love to read and to pass books back and forth They also love to travel in fact they often take trips together and live to tell the tale But in truth the harder they look at their lives the more Perri and Sheila acknowledge their profound differences in circumstance and temperament A child of the Depression Sheila was raised in Brooklyn by Orthodox Jewish parents who considered education an unnecessary luxury for girls Starting with her college education she has fought for everything she's ever accomplished Perri on the other hand grew up privileged and rebellious in the New Jersey suburbs of the 1960s and 1970s For Sheila fanatically frugal wasting time or money is a crime and luxury is unthinkable while Perri enjoys the occasional small luxury but has not been successful at enticing her mother into even the tiniest self indulgence Each writing in her own unmistakable voice Perri and Sheila take turns exploring the joys and pains the love and resentment the petty irritations and abiding respect that have always bound them together Sheila recounts the adventure of giving birth

to Perri in a tiny town in Trinidad where her husband was doing anthropological fieldwork Perri confesses that she can't tame her domestic chaos even though she knows it drives her mother crazy Sheila rhapsodizes about the bliss of becoming a grandmother Perri marvels at her mother's fearless navigation of the New York City subways Together they compare thoughts on bringing up children and working confess long hidden sorrows relish precious memories and even offer family recipes and knitting patterns Looking deep into the lives they have lived separately and together Perri and Sheila tell their mother daughter story with honesty humor zest and mutual admiration A memoir in two voices *Every Mother Is a Daughter* is a duet that resonates with the experiences that all mothers and daughters will recognize *Health Psychology* Catherine A. Sanderson, 2018-03-01 *Health Psychology* Understanding the Mind Body Connection introduces students to the story of health psychology through clear connections between science and the real world Using a highly accessible writing style author Catherine A Sanderson employs a strong emphasis on the scientific principles and processes underlying the field of health psychology to present balanced coverage of foundational research cutting edge research essential theories and real world application The Third Edition builds on its strong student oriented pedagogical program streamlines content and includes recent studies pop culture references and coverage of neuroscience to support student learning and engagement Students will enjoy reading the text because of its relevance in helping them live long and healthy lives **Bioethics as Practice** Judith Andre, 2004-08-01 Andre examines the field of bioethics from an insider's point of view exploring the questions that have dominated the field and encouraging students and practitioners to move beyond end of life issues to address issues in the routine practice of medicine *The Art of Educational Leadership* Fenwick W. English, 2007-08-14 English successfully challenges the established educational community to rethink the current state of research on school leadership in the social sciences The inclusion of theory discourse and stories of recognized leaders followed by chapter learning extensions that include key concepts movie recommendations and prompted reflective journaling makes this book a most valuable resource for the educational leadership community H J Bultinck CHOICE *The Art of Educational Leadership* provides one of the most complete examinations of leadership that I have encountered I admire the way it urges students to think and reflect The format allows individual learners to focus on those materials that best fit their learning style while the numerous presentations of a single topic through the different modalities strengthens the learning This text is a fresh new look at leadership Louise L MacKay East Tennessee State University Fenwick W English returns to themes of leadership he explored in more than 20 earlier books and dozens of presentations to educator audiences He favors re-centering educational leadership in the humanities rather than acting on the recommendation of the business literature and he emphasizes the use of films as a way to humanize leadership concepts *THE SCHOOL ADMINISTRATOR* Excellent cogent analysis of key concepts of leadership are presented in a reader friendly style Saul B Grossman Temple University Moves beyond established notions of leadership to recognize that effective leading is about drama and performance artistry *The Art of Educational Leadership*

Balancing Performance and Accountability stresses the human side of leadership No other text on this topic demonstrates so ably the importance of artistry in leadership in a field that has been lopsidedly dominated by concepts informed by science Presenting the idea that leadership is an art this book Exemplifies a balance between the science and the art of educational leadership The real improvement of practice is rooted in the art of application which is about context and represents the key to leadership practice Connects content material to self discovery Exercises at the end of each chapter include creating a personal reflective journal to engage the reader in and reflect upon theories and practices presented in the book Films are suggested for viewing to illustrate the interaction between context culture decisions and outcomes Portrays multicultural leadership in action Biography boxes throughout the book share how multicultural educational and political leaders who have been recognized as expert practitioners learned the art of leadership in the public arena This is the first book in educational leadership to sketch out a balance between the science and the art of the field The text illustrates how performance and practice represent the art while the delineation of the skills and conceptual models represent the science

Narrative Medicine Rita Charon, 2008-02-14 Narrative medicine emerged in response to a commodified health care system that places corporate and bureaucratic concerns over the needs of the patient This book provides an introduction to the principles of narrative medicine and guidance for implementing narrative methods

Prescription for Profit Paul Jesilow, Henry N. Pontell, Gilbert Geis, 2023-09-01 In this explosive expos of our health care system Paul Jesilow Henry N Pontell and Gilbert Geis uncover the dark side of physician practice Using interviews with doctors and federal state and private officials and extensive investigation of case files they tell the stories of doctors who profit from abortions on women who aren't pregnant of needless surgery overcharging for services and excessive testing How can doctors recipients of a sacred trust and sworn to the Hippocratic Oath violate Medicaid so egregiously The authors trace patterns of abuse to the program's inauguration in the mid 1960s when government authorities not individual patients were entrusted with responsibility for payments Determining fees and regulating treatment also became the job of government agencies thus limiting the doctors traditional role Physicians continue to disagree with Medicare and Medicaid policies that infringe on their autonomy and judgment The medical profession has not accepted the gravity or extent of some members illegal behavior and individual doctors continue to blame violations on subordinates and patients In the meantime program guidelines have grown more confusing hamstringing efforts to detect apprehend and prosecute Medicaid defrauders Failure to institute a coherent policy for fraud control in the medical benefit program has allowed self-serving and greedy practitioners to violate the law with impunity Prescription for Profit is a shocking revelation of abuse within a once hallowed profession It is a book that every doctor and every patient needs to read this year In this explosive expos of our health care system Paul Jesilow Henry N Pontell and Gilbert Geis uncover the dark side of physician practice Using interviews with doctors and federal state and private officials and extensive investigation of case files

Working with Families of Psychiatric Inpatients Alison M. Heru, Laura M.

Drury,2007-03-29 Working with the families of inpatients is one of the most important and most challenging aspects of practicing clinical psychiatry Clinicians are responsible not only for the well being of their patients but also for the education and guidance of the patient s family In this book Alison M Heru and Laura M Drury offer a step by step guide to developing the skills needed to work successfully with patients families Research data outlined in the opening chapters demonstrate just how essential families and evidence based family treatment are to effective patient care Succeeding chapters use clinical case studies to illustrate the skills necessary for the assessment and treatment of the family Psychiatric residents will enhance their knowledge of the family as a part of the patient s social context and learn how to conduct a family meeting common mistakes to avoid and when to refer the family for other assistance The authors also describe specific strategies for intervening with difficult families and for overcoming some of the fears and anxieties common among residents when they interact with patients families The authors provide valuable insights into the perspectives of families and patients and offer practical suggestions for risk management after the patient is discharged from inpatient care Keyed to the requirements articulated by the American College of Graduate Medical Education this handbook is a tool no psychiatric resident can do without

Chemical and Electrical Hypersensitivity Jerry Evans,2014-01-10 Electrical and multiple chemical sensitivities are disabling illnesses yet many doctors know little of these conditions or worse dismiss them This timely memoir recounts one man s affliction The onset of the diseases is explored as is his struggle with the medical establishment largely hostile to his diagnosis When the symptoms became unbearable he was forced to leave home and seek a more healthful environment where he could begin his recovery This is an inspirational text for those living with electrical or multiple chemical sensitivity and an educational one for those first learning about these conditions

[The Inner World of Medical Students](#) Johanna Shapiro,2018-04-19 This is a practical and comprehensive guide to communication in family medicine for doctors nurses and staff in the primary healthcare team It brings together all facets of communication in healthcare including involvement of patients staff and external workers It shows how to address all aspects of communication in relation to one to one situations teaching and groups and encourages the reader to reflect on their own clinical and work experience Using think boxes exercises and references this is an accessible guide relevant to all members of the practice team
