Not Fit For Modern Australian Society:

Racism and Resentment in Indigenous-Settler Relations Raymond Foxworth, Carew Boulding, Sarah Maddison, 2025-08-30 This book looks at deep seated elements of racism in Indigenous settler relations through detailed analyses of the October 2023 Voice to Parliament referendum in Australia and its outcome and discusses what might come next The Voice to Parliament referendum proposed a constitutional amendment to create an Indigenous advisory body in the Australian Parliament The referendum met with a resounding defeat Against this background the book analyses survey results during the referendum that asked direct questions about attitudes towards Aboriginal and Torres Strait Islander peoples as well as about policies and issues important to many Indigenous peoples It situates Australia's experience in this election with other research on attitudes towards Indigenous peoples rights and policy issues The book also interrogates another major survey in the lead up to the referendum questioning those findings in relation to racism It looks at possible learnings for the social sciences about Indigenous politics and examines the ways in which Australian settler nationalism created obstacles to the referendum's success and considers the limits of deliberation for Indigenous political claims

Ethical Responsiveness and the Politics of Difference Tanja Dreher, Anshuman A. Mondal, 2018-08-22 This edited collection focuses on the ethics politics and practices of responsiveness in the context of racism inequality difference and controversy The politics of difference has long been concerned with speech voice and representation By focusing on the practices and politics of responsiveness listening reading and witnessing the volume identifies vital new possibilities for ethics and social justice Chapters focus on the conditions of possibility or listening as ethical praxis unsettling or disrupting colonial relationships and ways of listening that highlight non Western traditions and move beyond the liberal frame Ethical responsiveness shifts some of the responsibility for negotiating difference and more just futures from subordinated speakers and on to the relatively more privileged and powerful

Settling with Indigenous People Marcia Langton, 2006 Settling with Indigenous People describes the making of ten contemporary mostly Australian local and regional agreements and details the avenues through which such agreements can be implemented and sustained The Australian regional agreements concern South West Australia the Murray Darling Basin and Cape York There is a chapter about the return of the Maralinga lands to its traditional owners and one detailing two local government agreements in central and southwest Australia Urban agreements in Darwin and Vancouver are compared and there are also chapters on the North West Territories and Northern Quebec in Canada and the Ngai Tahu in the South Island of New Zealand The discussion addresses governance and leadership negotiation strategies including the role of formal negotiating frameworks the importance of process and outcome the crucial impact of politics and timing the significance of private sector engagement implementation mechanisms The chapters show how agreement making has provided a forum in which indigenous groups can negotiate their needs and aspirations including fundamental issues of recognition inclusion and economic opportunity The authors include

indigenous and non indigenous academics and others who have been involved in negotiating agreements Against the Grain Anshuman Prasad,2012 It represents one of the most serious challenges to Eurocentric habits of thought that continue to bedevil current practices of scholarship *Tackling Wicked Problems* John Harris,Valerie A Brown,Jacqueline Russell,2010-09-23 From climate change to GM foods we are increasingly confronted with complex interconnected social and environmental problems that span disciplines knowledge bases and value systems This book offers a transdisciplinary open approach for those working towards resolving these wicked problems and highlights the crucial role of this transdisciplinary imagination in addressing the shift to sustainable futures *Tackling Wicked Problems* provides readers with a framework and practical examples that will guide the design and conduct of their own open ended enquiries In this approach academic disciplines are combined with personal local and strategic understanding and researchers are required to recognise multiple knowledge cultures accept the inevitability of uncertainty and clarify their own and others ethical positions The authors then comment on fifteen practical examples of how researchers have engaged with the opportunities and challenges of conducting transdisciplinary inquiries The book gives those who are grappling with complex problems innovative methods of inquiry that will allow them to work collaboratively towards long term solutions Independent Thinking in an Uncertain World Valerie A. Brown,John A. Harris,David Waltner-Toews,2019-04-29 Any effective response to an uncertain future will require independently thinking individuals working together Human ideas and actions have led to unprecedented changes in the relationships among humans and between humans and the Earth Changes in the air we breathe the water we drink and the energy we use are evidence of Nature which has no special interest in sustaining human life looking out for itself Even the evolutionary context for humans has altered Evolutionary pressures from the digital communication revolution have been added to those from natural systems For humans to meet these challenges requires social re organisation that is neither simple nor easy *Independent Thinking in an Uncertain World* explores workable field tested strategies from the frontiers of creating a viable future for humans on Earth Based on research results from hundreds of social learning workshops with communities worldwide many of them part of Australian National University s Local Sustainability Project authors with diverse interests explore the gap between open minded individual thinking and closed socially defined knowledges The multiple dimensions of individual social and biophysical ways of thinking are combined in ways that allow open minded individuals to learn from one another **Contested Governance** Janet Hunt,Diane Smith,Stephanie Garling,Will Sanders,2008-10-01 It is gradually being recognised by both Indigenous and non Indigenous Australians that getting contemporary Indigenous governance right is fundamental to improving Indigenous well being and generating sustained socioeconomic development This collection of papers examines the dilemmas and challenges involved in the Indigenous struggle for the development and recognition of systems of governance that they recognise as both legitimate and effective The authors highlight the nature of the contestation and negotiation between Australian governments their agents and

Indigenous groups over the appropriateness of different governance processes values and practices and over the application of related policy institutional and funding frameworks within Indigenous affairs The long term comparative study reported in this monograph has been national in coverage and community and regional in focus It has pulled together a multidisciplinary team to work with partner communities and organisations to investigate Indigenous governance arrangements the processes structures scales institutions leadership powers capacities and cultural foundations across rural remote and urban settings This ethnographic case study research demonstrates that Indigenous and non Indigenous governance systems are intercultural in respect to issues of power authority institutions and relationships It documents the intended and unintended consequences beneficial and negative arising for both Indigenous and non Indigenous Australians from the realities of contested governance The findings suggest that the facilitation of effective legitimate governance should be a policy funding and institutional imperative for all Australian governments This research was conducted under an Australian Research Council Linkage Project with Reconciliation Australia as Industry Partner

Conceptualisation of Integration Abdi Hersi, 2018-05-25 This book identifies and examines the meanings of integration from the perspective of Australian Muslims through analysis of focus group discussions and in-depth interviews in the South East Queensland region. It provides a comprehensive overview of Muslim conceptualisation of integration and the author explores the various meanings Muslims ascribe to it such as participation, belonging and contributing to the wider society. By gaining an understanding of how Muslims define integration, this research can help policy makers, academics and settlement service providers to appreciate how culture and faith influence the meanings diverse groups give to certain accepted terms. It explores concepts and practices of reconciliation considering the structural and attitudinal limits to such efforts in settler colonial countries.
