Not The Clabical Ideal Athens And The Construction Of The Other In Greek Art:

Not the Classical Ideal Beth Cohen, 2000 Ancient Greece is characterized by a vision of reality in which a pre eminent human type is defined in opposition to non ideal others. Edward Wang, Okamoto Michihiro, Longguo Li, 2022-02-21 This volume provides a unique and critical perspective on how Chinese Japanese and Korean scholars engage and critique the West in their historical thinking It showcases the dialogue between Asian experts and their Euro American counterparts and offers

valuable insights on how to challenge and overcome Eurocentrism in historical writing Approaching the Ancient Artifact Amalia Avramidou, Denise Demetriou, 2014-08-25 This volume consists consists of forty contributions written by an internationally renowned selection of scholars The authors adopt an interdisciplinary methodology examining both literary and archaeological sources and a comparative perspective that transgresses national chronological and cultural boundaries in order to investigate the nature of the links between text and image This multifaceted approach to the study of ancient artifacts enables the authors to treat art and artistic production as activities that do not merely mirror social or cultural relationships but rather and more significantly as activities that create social and cultural relationships The essays in this book are motivated by their authors belief that there is no simple direct link between art and myths art and text or art and ritual and that art should not be delegated to the role of a by product of a literate culture Instead the contextual and symbolic analyses of artifacts and representations offered in this volume elucidate how art actively shaped myth how it changed texts how it transformed ritual and how it altered the course of local regional and Mediterranean histories of Daily Life on Athenian Vases John H. Oakley, John Oakley, 2020-08-18 Painted vases are the richest and most complex images that remain from ancient Greece Over the past decades a great deal has been written on ancient art that portrays myths and rituals Less has been written on scenes of daily life and what has been written has been tucked away in hard to find books and journals A Guide to Scenes of Daily Life on Athenian Vases synthesizes this material and expands it it is the first comprehensive volume to present visual representations of everything from pets and children's games to drunken revelry and funerary rituals John H Oakley's clear accessible writing provides sound information with just the right amount of detail Specialists of Greek art will welcome this book for its text and illustrations This guide is an essential and much needed reference for scholars and an ideal sourcebook for classics and art history Architectural Networks in the North Aegean William Aylward, Jacques des Courtils, Bonna D. Wescoat, 2025 During the Hellenistic period the North Aegean Sea was a dynamic and diverse area linked by robust trading networks and sometimes precarious political allegiances. The islands of Thasos Samothrace and Lesbos in particular played crucial roles in their position between Anatolia Macedonia Thrace and Greece Migration trade and politics not to mention the specifics of sites and climate shaped the development of architecture The region pioneered many innovations that subsequently spread across the Mediterranean Employing the idea of networks to effectively describe the interconnectedness of design materials technology religion and politics the contributors to this volume establish the need to understand this important region holistically and on its own terms Taking a close look at major buildings and monuments while considering technique design and decoration as elements of a vigorous web this volume offers important insights about the area's significance in the history of Hellenistic architecture including lasting innovations in architectural illusion Ionic entablature and groundbreaking uses of marble and plaster From the North Aegean such principles and tactics were transmitted to the rest of the Hellenistic world influencing Roman architecture and from there

Western architectural history FrC 16.6 Nausikrates - Nikostratos Anna Lamari, 2023-06-12 This book is a fully fledged commentary on the fragments of the Greek comic poets Nausicrates and Nicostratus By reconstructing the text and providing metrical linguistic and detailed philological analysis it makes the work of these neglected authors accessible to all those interested in Greek drama and classical literature at large Sophist Kings Vernon L. Provencal, 2015-07-30 Sophist Kings Persians as Other sets forth a reading of Herodotus Histories that highlights the consistency with which the Persians are depicted as sophists and Persian culture is infused with a sophistic ideology The Persians as the Greek other have a crucial role throughout Herodotus Histories but their characterisation is far divorced from historical reality Instead from their first appearance at the beginning of the Histories Herodotus presents the Persians as adept in the argumentation of Greek sophists active in mid 5th century Athens Moreover Herodotus construct of the Sophist King in whom political reason serves human ambition is used to explain the Achaemenid model of kingship whose rule is grounded in a theological knowledge of cosmic order and of divine justice as the political good This original and in depth study explores how the ideology which Herodotus ascribes to the Persians comes directly from fifth century sophists whose arguments served to justify Athenian imperialism The volume connects the ideological conflict between panhellenism and imperialism in Herodotus contemporary Greece to his representation of the past conflict between Greek freedom and Persian imperialism Detecting a universal paradigm Sophist Kings argues that Herodotus was suggesting the Athenians should regard their own empire as a betraval of the common cause by which they led the Greeks to victory in the Persian wars The Early Black-Figured Pottery of Attika in Context (c. 630-570 BCE) Alexandra Alexandridou, 2010-11-01 Setting as a starting point the introduction of the black figure technique in Attic workshops at around 630 BCE this book attempts a contextual analysis of Attic pottery until late in the first guarter of the sixth century BCE The shapes and their functions as well as the iconographic themes are explored through this perspective This offers an interesting insight into funerary cultic and profane activities in Athens and the Attic countryside which is completed by an extensive study of the trade and distribution of Attic vases during this period The result is a complete overview of early black figure Attic production enabling an afresh archaeological approach to late seventh and early sixth century Attic society Laughter, Humor, and the (Un)making of Gender A. Foka, J. Liliequist, 2015-05-06 Humor is the tendency of particular cognitive experiences to provoke laughter and provide amusement Throughout history it has played a crucial role in defining gender roles and identities This collection offers an in depth thematic examination of this relationship between humor and gender spanning a variety of historical and cultural backdrops Aesthetic Response and Traditional Social Valuation in Euripides' >Electra < Nicholas Baechle, 2020-06-22 Euripides Electra opened up for its audience an opportunity to become self aware as to the appeal of tragic Kunstsprache it both reflected and sustained traditional aristocratically inflected assumptions about the continuity of appearance and substance even in a radical democracy A complex analogy between social and aesthetic valuation is played

out and brought to light The characterization of Orestes early in the play demonstrates how social appearances made clear the identity of well born and how they were still assumed to indicate superior virtue and agency On the aesthetic side of the analogy one of the functions of tragic diction as an essential indication of heroic character and agency comes into view in a dramatic and thematic sequence that begins with Achilles ode and ends with the planning of the murders Serious doubts are created as to whether Orestes will realize the assumed potential inherent in his heroic genealogy and at the same time as to whether the components of his character as an aesthetic construct are congruent with such qualities and agency Both sides of this complex analogy are thus problematized and at a metapoetic level its nature and bases are exposed for reflection

Old Society, New Belief Lisa Raphals, 2017-05-01 In the first century of the Common Era two new belief systems entered long established cultures with radically different outlooks and values missionaries started to spread the teachings of Jesus of Nazareth in Rome and the Buddha in China Rome and China were not only ancient cultures but also cultures whose elites felt no need to receive the new beliefs Yet a few centuries later the two new faiths had become so well established that their names were virtually synonymous with the polities they had entered as strangers Although there have been numerous studies addressing this phenomenon in each field the difficulty of mastering the languages and literature of these two great cultures has prevented any sustained effort to compare the two influential religious traditions at their initial period of development This book brings together specialists in the history and religion of Rome and China with a twofold aim First it aims to show in some detail the similarities and differences each religion encountered in the process of merging into a new cultural environment Second by juxtaposing the familiar with the foreign it also aims to capture aspects of this process that could otherwise be overlooked This approach is based on the general proposition that when a new religious belief begins to make contact with a society that has already had long honored beliefs certain areas of contention will inevitably ensue and changes on both sides have to take place There will be a dynamic interchange between the old and the new not only on the narrowly defined level of belief but also on the entire cultural body that nurtures these beliefs Thus this book aims to reassess the nature of each of these religions not as unique cultural phenomena but as part of the whole cultural dynamics of human Greeks And Barbarians Thomas Harrison, 2019-07-30 No detailed description available for Greeks And societies Plato's Caves Rebecca Lemoine, 2020 From student protests over the teaching of canonical texts such as Barbarians Plato's Republic to the use of images of classical Greek statues in white supremacist propaganda the world of the ancient Greeks is deeply implicated in a heated contemporary debate about identity and diversity In Plato's Caves Rebecca LeMoine defends the bold thesis that Plato was a friend of cultural diversity contrary to many contemporary perceptions Through close readings of four Platonic dialogues Republic Menexenus Laws and Phaedrus LeMoine shows that across Plato s dialogues foreigners play a role similar to that of Socrates liberating citizens from intellectual bondage Looking at **Medea** David Stuttard, 2014-05-22 Euripides Medea is one of the most often read studied and performed of all Greek

tragedies A searingly cruel story of a woman s brutal revenge on a husband who has rejected her for a younger and richer bride it is unusual among Greek dramas for its acute portrayal of female psychology Medea can appear at once timeless and strikingly modern Yet the play is very much a product of the political and social world of fifth century Athens and an understanding of its original context as well as a consideration of the responses of later ages is crucial to appreciating this work and its legacy This collection of essays by leading academics addresses these issues exploring key themes such as revenge character mythology the end of the play the chorus and Medea s role as a witch Other essays look at the play s context religious connotations stagecraft and reception The essays are accompanied by David Stuttard s English translation of the play which is performer friendly accessible yet accurate and closely faithful to the original **The Symposium in Context** Kathleen M. Lynch,2011 This book presents the first well preserved set of sympotic pottery which served a Late Archaic house in the Athenian Agora The deposit contains household and fine ware pottery nearly all the figured pieces of which are forms associated with communal drinking Since it comes from a single house the pottery also reflects purchasing patterns and thematic preferences of the homeowner The multifaceted approach adopted in this book shows that meaning and use are inherently related and that through archaeology one can restore a context of use for a class of objects frequently studied in isolation Winner of the 2013 James R Wiseman Book Award given by the Archaeological Institute of America

The Oxford Handbook of Hellenic Studies George Boys-Stones, Barbara Graziosi, Phiroze Vasunia, 2009-08-20 A collection of some seventy original articles which explore the ways in which ancient Greece has been is and might be studied The emphasis is on the breadth and potential of Hellenic Studies as a flourishing and exciting intellectual arena and also upon its relevance to the way we think about ourselves today
