Madeira,2012-06-11 The present volume grew out of a series of conferences held by the Gallatin Division of New York University bringing together industrial and academic experts with those making policy to adress questions of help to insurance regulators at the policy making stage Dogs and Monsters Mark Haddon,2024-10-15 From the terrifyingly talented The Times London author of The Curious Incident of the Dog in the Night Time and The Porpoise eight mesmerizingly imaginative deeply humane stories that use Greek myths and contemporary dystopian narratives to examine mortality moral choices and the many variants of love For millenia Greek myths have fascinated people who have seen in them lessons about fate and hubris and the contingency of existence Mark Haddon digs into the heart of these ancient fables and imagines them anew The dawn goddess Eos asks Zeus to give her lover Tithonus eternal life but forgets to ask for eternal youth In The Quiet Limit of the World Haddon imagines Tithonus life as he slowly ages over thousands of years turning the cautionary tale of tempting the gods into a spellbinding meditation on witnessing death from the outside and ultimately how carnal love evolves into something richer and more poignant with time In The Mother s Story Haddon takes the myth of the minotaur in his labyrinth in which the beast is the spawn of the monstrous lust of the king s wife Pasipha and turns it into a wrenching parable of maternal love for a damaged child and the more real monstrosities of patriarchy In D O G Z the story of

Actaeon who was turned into a stag after glimpsing the naked goddess Diana and torn to pieces by his hunting dogs becomes a visceral metaphor about the continuum of human and animal behavior Other stories play with contemporary mythic tropes genetic engineering trying to escape the future the viciousness of adolescent ostracism to showcase how modern humans are subject to the same capriciousness that obsessed the Greeks Haddon s tales cover a vast range from the mythic to the domestic from ancient Greece to the present day from stories about love to stories about cruelty from battlefields to bed and breakfasts from dogs in space to doors between worlds all of them bound together by a profound sympathy and an understanding of how human beings act and think and feel when pushed to the very edge Throughout Haddon s supple prose showcases his astonishing powers of observation of both the physical world and the workings of the psyche His vision is clear eyed but always resolutely empathetic
