Wynn, 2011-07-05 Everyone wants to visit New York at least once

The Big Apple is a global tourist destination with a dizzying array of attractions throughout the five boroughs. The only problem is figuring out where to start and that's where the city's tour guides come in. These guides are a vital part of New York's raucous sidewalk culture and as *The Tour Guide* reveals the tours they offer are as fascinatingly diverse and eccentric as the city itself. Visitors can take tours that cover Manhattan before the arrival of European settlers, the nineteenth century Irish gangs of Five Points, the culinary traditions of Queens, the culture of Harlem or even the surveillance cameras of Chelsea. In short, there are tours to satisfy anyone's curiosity about the city's past or present. And the guides are as intriguing as the subjects we learn as Jonathan R. Wynn explores the lives of the people behind the tours, introducing us to office workers looking for a diversion from their desk jobs, unemployed actors honing their vocal skills, and struggling retirees searching for a second calling. Matching years of research with his own experiences as a guide, Wynn also lays bare the grueling process of acquiring an official license and offers a how-to guide to designing and leading a tour. Touching on the long history of tour giving across the globe as well as the ups and downs of New York's tour guide industry in the wake of 9/11, *The Tour Guide* is as informative and insightful as the chatty, charming, and colorful characters at its heart. **Encounters for Change**

Dagmar Grefe, 2011-11-14 Weaving together insights from social psychology, theology, and experiences of interfaith religious leaders, Dagmar Grefe develops practical strategies that support interreligious contact at a grassroots level. She shows that by working together, religious communities can more effectively address global and local problems that all people face: poverty, environmental destruction, and armed conflict. Grefe describes interreligious cooperation at work in local communities. She develops tools that equip religious leaders with the interreligious competence needed for spiritual care and counseling with individual persons in crisis. Cooperation is not only effective in the care for communities and persons in crisis; it also heals distant and strained interreligious relationships. In the process of working together, perceptions of each other can transform. **The Psychosocial Reality of Digital Travel**

Ingvar Tjostheim, John A. Waterworth, 2021-12-06 This open access book takes a fresh look at the nature of the digital travel experience at a time when more and more people are engaged in online social interaction, games, and other virtual experiences essentially involving online visits to other places. It examines whether these experiences can seem real to the virtual traveller and if so, under what conditions and on what grounds. The book unpacks philosophical theories relevant to the feeling of being somewhere, emphasising the importance of perception and being in the world. Notions of place are outlined based on work in tourism studies, human geography, and other applied social fields, with an aim to investigate how and when different experiences of place arise for the traveller and how these relate to telepresence, the sense of being there in another place through digital media. Findings from recent empirical studies of digital travel are presented, including a survey from which the characteristics of digital travellers are identified. A review of selected interactive design trends and possibilities leads to the conclusion, which draws these strands together and looks to the future of this topical and expanding field. *The Rough Guide to Los Angeles* Jeff Dickey, 2003

Museums in a Digital Age Ross Parry, 2013-01-11 The influence of digital media on the cultural heritage sector has been pervasive and profound Today museums are reliant on new technology to manage their collections They collect digital as well as material things New media is embedded within their exhibition spaces And their activity online is as important as their physical presence on site However digital heritage as an area of practice and as a subject of study does not exist in one single place Its evidence base is complex diverse and distributed and its content is available through multiple channels on varied media in myriad locations and different genres of writing It is this diaspora of material and practice that this Reader is intended to address With over forty chapters by some fifty authors and co authors from around the world spanning over twenty years of museum practice and research this volume acts as an aggregator drawing selectively from a notoriously distributed network of content Divided into seven parts on information space access interpretation objects production and futures the book presents a series of cross sections through the body of digital heritage literature each revealing how a different aspect of curatorship and museum provision has been informed shaped or challenged by computing Museums in a Digital Age is a provocative and inspiring guide for any student or practitioner of digital heritage

Christian-Muslim Relations in Syria Andrew W. H. Ashdown, 2020-11-25 Offering an authoritative study of the plural religious landscape in modern Syria and of the diverse Christian and Muslim communities that have cohabited the country for centuries this volume considers a wide range of cultural religious and political issues that have impacted the interreligious dynamic putting them in their local and wider context Combining fieldwork undertaken within government held areas during the Syrian conflict with critical historical and Christian theological reflection this research makes a significant contribution to understanding Syria s diverse religious landscape and the multi layered expressions of Christian Muslim relations It discusses the concept of sectarianism and how

communal dynamics are crucial to understanding Syrian society The complex wider issues that underlie the relationship are examined including the roles of culture and religious leadership and it questions whether the analytical concept of sectarianism is adequate to describe the complex communal frameworks in the Middle Eastern context Finally the study examines the contributions of contemporary Eastern Christian leaders to interreligious discourse concluding that the theology and spirituality of Eastern Christianity inhabiting the same cultural environment as Islam is uniquely placed to play a major role in interreligious dialogue and in peace making The book offers an original contribution to knowledge and understanding of the changing Christian Muslim dynamic in Syria and the region It should be a key resource to students scholars and readers interested in religion current affairs and the Middle East [Paid Sexual Encounters among Men](#)

Timothy F. Murphy, 2025-08-14 This book analyzes the ethics of men buying and selling sex to one another It gathers in one place key ethical and legal issues that bear on the justification for the criminalization of male prostitution At present prostitution the solicitation or offer of paid sexual encounters is criminalized in virtually the entire United States Male prostitution is poorly studied across academic disciplines and this book represents the first sustained ethical analysis of the topic First it shows that paid sexual encounters among men belong on a spectrum of transactional sexual relationships and that many of their features are not distinctive in a way that justifies condemnation It shows as well that the sexuality involved men having sex with men does not involve relationships that are immoral in a way that might justify criminalization The book also demonstrates that men buying and selling sexual encounters can consent in morally meaningful ways without reinforcing status inequality Finally the book reviews key constitutional law cases to show that a certain interpretation of the relationship between the law and morality justifies decriminalization of male prostitution [Paid Sexual Encounters among Men](#) will appeal to scholars and graduate students working in applied ethics the philosophy of sex and gender sociology and law

making Historic Preservation Michael A. Tomlan, 2014-11-21 This well illustrated book offers an up to date synthesis of the field of historic preservation cast as a social campaign concerned with the condition treatment and use of the legacy of existing properties in the United States Drawing on a wide range of research experience and scholarship over the last fifty years it allows us to re think past and current ideas in preservation challenging readers to explore how their own interests lie within the cognitive framework of the activities taking place with people who care Who is involved is explored first in such a way as to explore why before examining what is deemed important After that the questions of when and how to proceed are given attention The major topics are introduced in an historical review through the mid 1980s after which the broad intellectual basis and fundamental legal framework is provided The economic shifts associated with major demographic changes are explored in tandem with responses of the preservation community A chapter is dedicated to the financial challenges and sources of revenue available in typical preservation projects and another chapter focuses on the manner in which seeing recording and interpreting information provides the context for an appropriate vision for the future In this regard it is made clear that not all green design alternatives are preservation sensitive The advocacy battles during the last few decades provide a number of short stories of the ethical battles regarding below ground and above ground historic resources and the eighth chapter attempts to explain why religion has been long held at arm s length in publicly supported preservation efforts when in fact it holds more potential to regenerate existing sites than any governmental program

Toys and American Culture Sharon M. Scott, 2009-12-09 Tracing developments in toy making and marketing across the evolving landscape of the 20th century this encyclopedia is a comprehensive reference guide to America s most popular playthings and the culture to which they belong From the origins of favorite playthings to their associations with events and activities the study of a nation s toys reveals the hopes goals values and priorities of its people Toys have influenced the science art and religion of the United States and have contributed to the development of business politics and medicine **Toys and American Culture An Encyclopedia** documents America s shifting cultural values as they are embedded within and transmitted by the nation s favorite playthings Alphabetically arranged entries trace developments in toy making and toy marketing across the evolving landscape of 20th century America In addition to discussing the history of America s most influential toys the book contains specific entries on the individuals organizations companies and publications that gave shape to America s culture of play from 1900 to 2000 Toys from the two decades that frame the 20th century are also included as bridges to the fascinating past and the inspiring future of American toys Max Liebermann and International Modernism Marion Deshmukh, Françoise Forster-Hahn, Barbara Gaehtgens, 2011-05 Although Max Liebermann 1847 1935 began his career as a realist painter depicting scenes of rural labor Dutch village life and the countryside by the turn of the century his paintings had evolved into colorful images of bourgeois life and leisure that critics associated with French impressionism During a time of increasing German nationalism his paintings and cultural politics sparked numerous

aesthetic and political controversies His eminent career and his reputation intersected with the dramatic and violent events of modern German history from the Empire to the Third Reich The Nazis persecution of modern and Jewish artists led to the obliteration of Liebermann from the narratives of modern art but this volume contributes to the recent wave of scholarly literature that works to recover his role and his oeuvre from an international perspective
