Not For Your Hands An Autobiography:

Not for Your Hands David Rees, 1992 *The Letters of Baron Friedrich Von Hügel and Maude D. Petre* Friedrich Freiherr von Hügel, 2003 During the first decade of the twentieth century the Roman Catholic Church was shaken to its core by an intellectual reform movement modernism seeking radical changes in the traditional approaches to biblical studies philosophy and theology The repercussions of the church authorities condemnations and repression of the so called modernist heresy persisted for more than half a century Then liberated by Pope John XXIII himself suspected of being a modernist the Second Vatican Council created the possibility for many modernist ideas to resurface and initiate a renewal of the church in the modern world The present work contains the integral correspondence of the leader of this modernist movement Baron Friedrich von Hügel to Maude D Petre along with her two extant letters to him The correspondence offers a unique glimpse into the history of the movement and an example of how its leading protagonist promoted the novel ideas of many of the seminal thinkers of the time among his friends and colleagues Sadly the letters also depict the often unchristian nature of the authorities response and the subsequent suffering inflicted on some of the church s most critical but faithful and enlightened members The Month , 1891 The Voices of Gemma Galgani Rudolph M. Bell, Cristina Mazzone, 2003-01-15 A biography of the first saint who lived in the 20th century this book is a portrait of a complex girl woman caught between the medieval and the modern and a potent reminder of spirituality in a supposedly secular age 26 halftones *A Life of Scholarship with Santayana* Herman J. Saatkamp Jr., 2021-01-25 An entire lifetime s work by Herman J Saatkamp is collected here in *A Life of Scholarship with Santayana* Essays and Reflections From the first essay published in 1972 to the latest in 2017 almost fifty years of scholarship is given a fresh embodiment of expression Saatkamp is considered by many to be the world s foremost authority on George Santayana s life and thought Not only does this volume bring into clear relief Saatkamp s understanding of Santayana the editing process and genetic concerns and the future of philosophy but it also betrays a lucid and humane understanding that aptly personifies a life spent in reflection a discerning sense of appreciation and an affirmation of life and learning Overheard in Seville 1986 , 1986-10-15 An annual publication *Overheard in Seville* Bulletin of the Santayana Society includes scholarly articles on American philosopher poet critic and best selling novelist George Santayana as well as announcements of publications and meetings pertaining to Santayana scholarship **The Methodist Quarterly Review** , 1851 *Autofiction in English* Hywel Dix, 2018-06-04 This innovative volume establishes autofiction as a new and dynamic area of theoretical research in English Since the term was coined by Serge Doubrovsky autofiction has become established as a recognizable genre within the French literary pantheon Yet unlike other areas of French theory English language discussion of autofiction has been relatively limited until now Starting out by exploring the characteristic features and definitions of autofiction from a conceptual standpoint the collection identifies a number of cultural historical and theoretical contexts in which the emergence of autofiction in English can be understood In

the process it identifies what is new and distinctive about Anglophone forms of autofiction when compared to its French equivalents These include a preoccupation with the conditions of authorship writing after trauma and a heightened degree of authorial self reflexivity beyond that typically associated with postmodernism By concluding that there is such a field as autofiction in English it provides for the first time detailed analysis of the major works in that field and a concise historical overview of its emergence It thus opens up new avenues in life writing and authorship research *Sensory Experiments*

Erica Fretwell,2020-09-14 In *Sensory Experiments* Erica Fretwell excavates the nineteenth century science of psychophysics and its theorizations of sensation to examine the cultural and aesthetic landscape of feeling in nineteenth century America Fretwell demonstrates how psychophysics a scientific movement originating in Germany and dedicated to the empirical study of sensory experience shifted the understandings of feeling from the epistemology of sentiment to the phenomenological terrain of lived experience Through analyses of medical case studies spirit photographs perfumes music theory recipes and the work of canonical figures ranging from Kate Chopin and Pauline Hopkins to James Weldon Johnson and Emily Dickinson Fretwell outlines how the five senses became important elements in the biopolitical work of constructing human difference along the lines of race gender and ability In its entanglement with social difference psychophysics contributed to the racialization of aesthetics while sketching out possibilities for alternate modes of being over and against the figure of the bourgeois liberal individual Although psychophysics has largely been forgotten Fretwell demonstrates that its importance to shaping social order through scientific notions of sensation is central to contemporary theories of new materialism posthumanism aesthetics and affect theory **(Catalogue of the Percival library) [by H. Controversy Arturo Arias,David Stoll,2001 Guatemalan indigenous rights activist Rigoberta Menchu first came to international prominence following the 1983 publication of her memoir I Rigoberta Menchu which chronicled in compelling detail the violence and misery that she and her people suffered during her country s brutal civil war The book focused world attention on Guatemala and led to her being awarded the Nobel Peace Prize in 1992 In 1999 a book by David Stoll challenged the veracity of key details in Menchu s account generating a storm of controversy Journalists and scholars squared off regarding whether Menchu had lied about her past and if so what that would mean about the larger truths revealed in her book In The Rigoberta Menchu Controversy Arturo Arias has assembled a casebook that offers a balanced perspective on the debate The first section of this volume collects the primary documents newspaper articles interviews and official statements in which the debate raged many translated into English for the first time In the second section a distinguished group of international scholars assesses the political historical and cultural contexts of the debate and considers its implications for such issues as the culture wars historical truth and the politics of memory Also included is a new essay by David Stoll in which he responds to his critics **Integrated History and Philosophy of Science** Friedrich Stadler,2017-06-07 This book features papers on the history and philosophy of science It also includes related reviews of recent research literature on

Rudolf Carnap Eino Kaila Ernst Mach and Otto Neurath The central idea behind this volume is that this distinctive field is both historical and philosophical at the same time Good history and philosophy of science is not just history of science into which some philosophy of science may enter On the other hand it is neither philosophy of science into which some history of science may enter The founding insight of this modern research discipline is that history and philosophy have a special affinity and one can effectively advance both simultaneously The selection of contributions collected in this volume are good examples and best practices for these claims In addition it includes illuminating case studies It will appeal to scholars in the history of and philosophy of science especially history and philosophy of physics and biology as well as economics extended evolution and the history of knowledge **Handbook of Hispanic Cultures in the United States: Literature and Art**
