Not For Your Hands An Autobiography:

Not for Your Hands David Rees,1992 **The Letters of Baron Friedrich Von Hügel and Maude D. Petre** Friedrich Freiherr von Hügel,2003 During the first decade of the twentieth century the Roman Catholic Church was shaken to its core by an intellectual reform movement modernism seeking radical changes in the traditional approaches to biblical studies philosophy and theology The repercussions of the church authorities condemnations and repression of the so called modernist heresy persisted for more than half a century Then liberated by Pope John XXIII himself suspected of being a modernist the Second Vatican Council created the possibility for many modernist ideas to resurface and initiate a renewal of the church in the modern world The present work contains the integral correspondence of the leader of this modernist movement Baron Friedrich von Hügel to Maude D Petre along with her two extant letters to him The correspondence offers a unique glimpse into the history of the movement and an example of how its leading protagonist promoted the novel ideas of many of the seminal thinkers of the time among his friends and colleagues Sadly the letters also depict the often unchristian nature of the authorities response and the subsequent suffering inflicted on some of the church s most critical but faithful and enlightened members Handbook of Hispanic Cultures in the United States: Literature and Art Nicolás

Autofiction in English Hywel Dix,2018-06-04 This innovative volume establishes autofiction as a new and dynamic area of theoretical research in English Since the term was coined by Serge Doubrovsky autofiction has become established as a recognizable genre within the French literary pantheon Yet unlike other areas of French theory English language discussion of autofiction has been relatively limited until now Starting out by exploring the characteristic features and definitions of autofiction from a conceptual standpoint the collection identifies a number of cultural historical and theoretical contexts in which the emergence of autofiction in English can be understood In the process it identifies what is new and distinctive about Anglophone forms of autofiction when compared to its French equivalents These include a preoccupation with the conditions of authorship writing after trauma and a heightened degree of authorial self reflexivity beyond that typically associated with postmodernism By concluding that there is such a field as autofiction in English it provides for the first time detailed analysis of the major works in that field and a concise historical overview of its emergence It thus opens up new avenues in life writing and authorship research *Sensory Experiments* Erica Fretwell,2020-09-14 In *Sensory Experiments* Erica Fretwell excavates the nineteenth century science of psychophysics and its theorizations of sensation to examine the cultural and aesthetic landscape of feeling in nineteenth century America Fretwell demonstrates how psychophysics a scientific movement originating in Germany and dedicated to the empirical study of sensory experience shifted the understandings of

feeling from the epistemology of sentiment to the phenomenological terrain of lived experience Through analyses of medical case studies spirit photographs perfumes music theory recipes and the work of canonical figures ranging from Kate Chopin and Pauline Hopkins to James Weldon Johnson and Emily Dickinson Fretwell outlines how the five senses became important elements in the biopolitical work of constructing human difference along the lines of race gender and ability In its entanglement with social difference psychophysics contributed to the racialization of aesthetics while sketching out possibilities for alternate modes of being over and against the figure of the bourgeois liberal individual Although psychophysics has largely been forgotten Fretwell demonstrates that its importance to shaping social order through scientific notions of sensation is central to contemporary theories of new materialism posthumanism aesthetics and affect theory

The Man before the Mahatma Charles DiSalvo, 2012-10-01 At the age of eighteen a shy and timid Mohandas Gandhi leaves his home in Gujarat for a life on his own At forty five a confident and fearless Gandhi ready to boldly lead his country to freedom returns to India What transforms him The law The Man before the Mahatma is the first biography of Gandhi's life in the law It follows Gandhi on his journey of self discovery during his law studies in Britain his law practice in India and his enormous success representing wealthy Indian merchants in South Africa where relentless attacks on Indian rights by the white colonial authorities cause him to give up his lucrative representation of private clients for public work the representation of the besieged Indian community in South Africa As he takes on the most powerful governmental economic and political forces of his day he learns two things that unifying his professional work with his political and moral principles not only provides him with satisfaction it also creates in him a strong powerful voice Using the courtrooms of South Africa as

his laboratory for resistance Gandhi learns something else so important that it will eventually have a lasting and worldwide impact a determined people can bring repressive governments to heel by the principled use of civil disobedience Using materials hidden away in archival vaults and brought to light for the first time The Man before the Mahatma puts the reader inside dramatic experiences that changed Gandhi's life forever and have never been written about until now Overheard in Seville 1986, 1986-10-15 An annual publication Overheard in Seville Bulletin of the Santayana Society includes scholarly articles on American philosopher poet critic and best selling novelist George Santayana as well as announcements of publications and meetings pertaining to Santayana scholarship **Letter from the Secretary of State Transmitting a Report of Theodore F. Dwight on the Papers of Benjamin Franklin Offered for Sale by Mr. Henry Stevens, and Recommending Their Purchase by Congress** United States. Bureau of Rolls and Library, 1881 Written in Red Gina Herrmann, 2010 The first major study of the profound impact of international communist politics and culture on Spanish letters **The Jeffersonian cyclopedia, a collection of the views of T. Jefferson, ed. by J.P. Foley** Thomas Jefferson, 1900 **The Rigoberta Menchú Controversy** Arturo Arias, David Stoll, 2001 Guatemalan indigenous rights activist Rigoberta Menchu first came to international prominence following the 1983 publication of her memoir I Rigoberta Menchu which chronicled in compelling detail the violence and misery that she and her people suffered during her country's brutal civil war The book focused world attention on Guatemala and led to her being awarded the Nobel Peace Prize in 1992 In 1999 a book by David Stoll challenged the veracity of key details in Menchu's account generating a storm of controversy Journalists and scholars squared off regarding whether Menchu had lied about her past and if so what that would mean about the larger truths revealed in her book In The Rigoberta Menchu Controversy Arturo Arias has assembled a casebook that offers a balanced perspective on the debate The first section of this volume collects the primary documents newspaper articles interviews and official statements in which the debate raged many translated into English for the first time In the second section a distinguished group of international scholars assesses the political historical and cultural contexts of the debate and considers its implications for such issues as the culture wars historical truth and the politics of memory Also included is a new essay by David Stoll in which he responds to his critics **Integrated History and Philosophy of Science** Friedrich Stadler, 2017-06-07 This book features papers on the history and philosophy of science It also includes related reviews of recent research literature on Rudolf Carnap Eino Kaila Ernst Mach and Otto Neurath The central idea behind this volume is that this distinctive field is both historical and philosophical at the same time Good history and philosophy of science is not just history of science into which some philosophy of science may enter On the other hand it is neither philosophy of science into which some history of science may enter The founding insight of this modern research discipline is that history and philosophy have a special affinity and one can effectively advance both simultaneously The selection of contributions collected in this volume are good examples and best practices for these claims In addition it

includes illuminating case studies It will appeal to scholars in the history of and philosophy of science especially history and philosophy of physics and biology as well as economics extended evolution and the history of knowledge **If God Has Not Disqualified You, Do Not Disqualify Yourself** Cynthia A. Brathwaite, 2022-01-15 Who told you that you were disqualified What labels are you still wearing What words still taunt you What images still haunt you Who said the unthinkable and did the unimaginable to you You are more than what was done to you more than what you have been labeled more than the name calling more than your feelings more than your appearance more than your mistakes and much much more You are a champion You are more than a conqueror Isn't it time that you unwrap unpack release and discover the warrior inside of you Dive in and discover the power to live your life the way God intended If God Has Not Disqualified You Do Not Disqualify Yourself delivers a God's eye view to power and victory over insecurity fear low self esteem and the feelings of not being good enough and inspires you to see yourself as God sees you The academy, 1897 **Literary Bondage** William Luis, 2014-05-23 In the nineteenth century the Cuban economy rested on the twin pillars of sugar and slaves Slavery was abolished in 1886 but one hundred years later Cuban authors were still writing antislavery narratives William Luis explores this seeming paradox in his groundbreaking study Literary Bondage asking why this literary genre has remained a viable means of expression Applying Foucault's theory of counter discourse to a vast body of antislavery literature Luis shows how these narratives have always served to undermine the foundations of slavery to protest the marginalized status of blacks in Cuban society and to rewrite the canon of acceptable history and literature He finds that emancipation did not end the need for such counter discourse and reveals how the antislavery narrative continues to provide a forum for voices that have been silenced by the dominant culture In addition to such well known works as Cecilia Vald's The Kingdom of This World and The Autobiography of a Runaway Slave Luis draws on many literary works outside the familiar canon including Romualdo uno de tantos Aponte Sof a La familia Unzuazu El negrero and Los guerrilleros negros This comprehensive coverage raises important questions about the process of canon formation and brings to light Cuba's rich heritage of Afro Latin literature and culture
