sinister A tense and dark psychological thriller full of unexpected twists and turns about the random events and decisions that make us who we are If you can't trust your own memories then who can you trust **Not-Sew-Wicked Stepmom, Vol. 3**, 2024-02-20 Once upon a time in a kingdom far far away there lived a king and queen who absolutely did not get along or so the people believed As Foundation Day approaches pressure mounts on Abigail to show the world that she and Sabrian are a perfectly happy couple Unfortunately she's got her work cut out for her news of how Sabrian slapped her hand away during their dance practice has reached the ears of the other nobles With the adorable Princess Blanche there to give them a push will the king and queen be able to build enough trust in each other to attend the festivities as a united front and successfully put the malicious rumors to rest **Not-Sew-Wicked Stepmom, Vol. 1**, 2023-08-22 Once upon a time there was a lovely young princess who suffered under her cruel stepmother that is until a children's clothing designer is reborn as the evil queen Now all Her Majesty Abigail Freidkin wants to do is dote on the adorable Princess Blanche and give her the happy childhood she deserves The problem is the previous Abigail garnered a reputation for being extremely jealous and materialistic and to top it off her smile is the stuff of children's nightmares Will Abigail be able to convince her stepdaughter that she might not be so wicked after all **Uncovering the Act of Maternal Infanticide from a Psychological, Political, and Jungian Perspective** Brooke Laufer, 2024-07-02 Using a wide range of disciplinary backgrounds Laufer examines the topic of maternal infanticide through the lens of Jungian theory and presents an integrated and forensic view of this issue as an aggregate of personal and political moments and as a feminine and feminist outcry urging human evolution The first part of the book will dissect the identity of the infanticidal mother and the Death Mother archetype with the author providing firsthand accounts of patients that she has worked with in her professional career The second part of the book focuses on interpreting that act of maternal infanticide and these chapters will look to the construct of patriarchal Motherhood as a way of explaining the drive and actions of an infanticidal mother The third and final section of the book takes the concept of evolution and transmutation a step further and addresses what is required in our modern state for the event of maternal infanticide This is an important new book for Jungian and analytic clinicians and scholars with an interest in maternal archetypes as well as psychologists and psychiatrists who specialize in perinatal mental health It would also be appropriate for forensic psychologists and legal analysts and academics and clinicians in the fields of women's health and studies **The Goddess and the Sun in Indian Myth** Raj Balkaran, 2020-04-07 In analyzing the parallels between myths glorifying the Indian Great Goddess Durg and those glorifying the Sun S rya found in the M rka eya Pur a this book argues for an ideological ecosystem at work in the M rka eya Pur a privileging worldly values of which Indian kings the Goddess Dev the Sun S rya Manu and M rka eya himself are paragons This book features a salient discovery in Sanskrit narrative text just as the M rka eya Pur a houses the Dev M h tmya glorifying the supremacy of the Indian Great Goddess Durg it also houses a S rya M h tmya glorifying the supremacy of the Sun S rya in much the same manner This book argues that these m h tmyas

were meaningfully and purposefully positioned in the M rka eya Pur a while previous scholarship has considered this haphazard interpolation for sectarian aims The book demonstrates that deliberate compositional strategies make up the Saura kta symbiosis found in these mirrored m h tmyas Moreover the author explores what he calls the dharmic double helix of Brahmanism most explicitly articulated by the structural opposition between prav tti worldly and niv tti other worldly dharmas As the first narrative study of the S rya M h tmya along with the first study of the M rka eya Pur a or any Pur a as a narrative whole this book will be of interest to academics in the field of Religion Hindu Studies South Asian Studies Goddess Studies Narrative Theory and Comparative Mythology *Fishing in Foreign Seas* William Peace, 2012-05-29 It s love at first sight when US Naval Officer Jamie Morrison meets Caterina Lo Gado the beautiful daughter of an aristocratic wine making family at an opera in Sicily Their passionate love unfolds amidst the Sicilian backdrop Marrying after a tantalizing year they move to Boston Philadelphia and then Atlanta where Jamie s multi million dollar sales career reaches a crisis While pursuing a huge contract he s sorely tempted by his voluptuous young PA and he encounters an autocratic and unethical customer chief executive Will these two individuals wreck his marriage and his career **Engendered Death** Joseph W. Laythe, 2011-12-16 Engendered Death Pennsylvania Women Who Kill is an historical and interdisciplinary study of women who kill in Pennsylvania from the 18th century to the present It is not an examination of what motivates women to kill although the reader may deduce that from the case studies included Instead it is an examination of how society perceives women who kill and how the gender lens is applied to them throughout the legal process in the media and in the courtroom What makes this work particularly unique is its combination of both scholarly analysis and narrative case studies As such it will appeal to both the scholar and the reader of true crime non fiction If we are to recognize the complex variables at play in all criminal offenses we will need to understand that the laws of a community its social values its politics economics and even geography play a factor in what laws are enforced and against whom they are enforced The decision to define and label certain behaviors and certain people was based on social political and economic considerations of each community Thus the commission of murder by a woman in Arizona may have a variety of factors associated with it that are not present in the case of a woman who murdered her husband in Maine This study in part because of the volume of cases and in part to limit the variables affecting the cases has limited its scope of women killers to the state of Pennsylvania Pennsylvania is the ideal state to study because of its long and stable legal and political traditions its historically diverse population and the large number of newspapers that will help us gauge the public s view of women and women who kill By limiting our scope to one state we know that the legal definitions are fairly consistent for all of the women during a certain period and we can more easily identify the shifts in social values regarding women and homicide **Cross-Cultural Interviewing** Gabriele Griffin, 2015-11-19 Interviewing is one of the most common techniques used to conduct qualitative research in the social sciences and humanities As a result of globalization researchers increasingly conduct interviews cross inter and intra

nationally This raises important questions about how differences and sameness are understood and negotiated within the interview situation as well as the power structures at play within qualitative research and the role that reflexivity plays in mediating these What does it mean to interview Black women as a Black woman How is ethnicity negotiated across various qualitative research encounters How are differences bridged or asserted in feminist interviewing These are just some of the questions explored in the chapters in this volume Drawing on their recent research the contributors detail their experiences of engaging in qualitative interviewing and examine how they negotiated the various dilemmas they encountered The contributions challenge some of the assumptions made in early feminist work on interviewing providing nuanced accounts of actual research experiences This volume explores the practice and implications of conducting cross inter and intra cultural interviewing bringing together researchers from a range of disciplines and countries to describe and analyse both its vicissitudes and its advantages
