Uniting Blacks in a Raceless Nation Miguel Arnedo-Gómez, 2016-05-12 The Cuban writer Nicol's Guill'n has traditionally been considered a poet of mestizaje a term that whilst denoting racial mixture also refers to a homogenizing nationalist discourse that proclaims the harmonious nature of Cuban identity Yet many aspects of Guill'n's work enhance black Cuban and Afro-Cuban identities Miguel Arnedo G me z explores this paradox in Guill'n's pre-Cuban Revolution writings placing them alongside contemporaneous intellectual discourses that feigned adherence to the homogenizing ideology whilst upholding black interests On the basis of links with these and other 1930s Cuban discourses Arnedo G me z shows Guill'n's work to contain a message of black unity aimed at the black middle classes Furthermore against a tendency to seek a single authorial consciousness be it mulatto or based on a North American construction of blackness Guill'n's prose and poetry are also characterized as a struggle for a viable identity in a socio-culturally heterogeneous society

Thinking in Public provides a probing and provocative meditation on the intellectual life and legacy of Jacques Roumain As a work of intellectual history the book investigates the intersections of religious ideas secular humanism and development within the framework of Roumain s public intellectualism and cultural criticism embodied in his prolific writings The book provides a reconceptualization of Roumain s intellectual itineraries against the backdrop of two public spheres a national public sphere Haiti and a transnational public sphere the global world Second it remaps and reframes Roumain s intellectual circuits and his critical engagements within a wide range of intellectual traditions cultural and political movements and philosophical and religious systems Third the book argues that Roumain s perspective on religion social development and his critiques of religion in general and of institutionalized Christianity in particular were substantially influenced by a Marxist philosophy of history and secular humanist approach to faith and human progress Finally the book advances the idea that Roumain s concept of development is linked to the theories of democratic socialism relational anthropology distributive justice and communitarianism Ultimately this work demonstrates that Roumain believed that only through effective human solidarity and collaboration can serious social transformation and real human emancipation take place [Bowker's Best](#)
