PETER RIVIÈRE

Diana Balmori, Stuart F. Voss and Miles Wortman: *Notable Family Networks in Latin America* (Chicago and London: University of Chicago Press, 1984, £24.75). Pp. 290.

Nobody who has ever lived in one is likely to gainsay the strength of the extended family in Latin America. Northern Europeans (and *a fortiori* North Americans) who have this experience often tend to feel that the family is a far more important institution in the region than is the case in their home societies. We are possibly too ready to assume that this feature is unique to Latin America and to forget the obvious parallels that can be drawn with Mediterranean Europe. (As so often, France stands midway between North and South in this respect.) Be that as it may, the three authors of this book are making an important point, and one that is too often ignored by historians, despite a growing literature (very usefully reviewed in the final chapter here) on the topic of the family in its historical dimension. Balmori, Voss and Wortman come uncomfortably close at times to insinuating that the 'notable family network' – the focus of their combined study – is *the* key to Latin American history between, say, 1750 and 1900 or so. But they are surely right to put the whole issue under the microscope in the way they do in this valuable and (in its concepts) stimulating work.

The authors' main contention – plausible enough – is that clusters of 'notable' families played a dominant part in Latin American society, regionally and sometimes nationally, between late-colonial times and the end of the nineteenth century. Vague generalizations about élites are not enough: we need to see how this was done. According to the authors, the notable families did it by going in for 'networking' ('showcase' is also used as a verb in this book), extending their family connections to compete for and enhance their economic or political status. A network, in this specific sense, characteristically begins – an element of caricature is unavoidable here, given the authors' well-nuanced argument – with an enterprising immigrant trader (as often as not from Spain) whose success enables him to marry into an established creole family (the result of earlier colonial networking), at which point he becomes more than usually philoprogenitive, his progeny laying the basis for a dynasty that both diversifies its economic holdings and (with so many sons and daughters available, this is easy) its marital connections with prosperous or politically useful families. The second generation, therefore, is the one that really does the networking. The third generation sees still greater diversification, with scions of the networks becoming professionals, politicians, bureaucrats, and associates of the burgeoning international economy. Dynastic influence is now at its height. But the growing strength of the state, the appearance of new social groups, and the increasingly corporate nature of business all tend to undermine the power of the networks, even if individual dynasties are able, thereafter, to retain (and many still retain) prominence.

Stuart F. Deconstructing Legitimacy Patricia H. Marks, 2010-11 The overthrow of Viceroy Joaquín de la Pezuela on 29 January 1821 has not received much attention from historians who have viewed it as a simple military uprising Yet in this careful study of the episode based on deep archival research Patricia Marks reveals it to be the culmination of decades of Peruvian opposition to the Bourbon reforms of the late eighteenth century especially the Reglamento de comercio libre of 1778 It also marked a radical change in political culture brought about by the constitutional upheavals that followed Napoleon s invasion of Spain Although Pezuela s overthrow was organized and carried out by royalists among the merchants and the military it proved to be an important event in the development of the independence movement as well as a pivotal factor in the failure to establish a stable national state in post independence Peru The golpe de estado may thereby be seen as an early manifestation of Latin American praetorianism in which a sector of the civilian population unable to prevail politically and unwilling to compromise pressures army officers to act in order to save the state **Forest Society** Norman B.

Schwartz, 1990 The author contends that for 250 years roughly from the 1720s to the 1970s the sociocultural system of Petén endured with remarkable continuity not in spite of the changes in the hinterland region but to an important degree because of them **Mexico and Mexicans in the Making of the United States** John Tutino, 2012-05-15 Mexico and Mexicans have been involved in every aspect of making the United States from colonial times until the present Yet our shared history is a largely untold story eclipsed by headlines about illegal immigration and the drug war Placing Mexicans and Mexico in the center of American history this volume elucidates how economic social and cultural legacies grounded in colonial New Spain shaped both Mexico and the United States as well as how Mexican Americans have constructively participated in North American ways of production politics social relations and cultural understandings Combining historical sociological and cultural perspectives the contributors to this volume explore the following topics the Hispanic foundations of North American capitalism indigenous peoples actions and adaptations to living between Mexico and the United States U S literary constructions of a Mexican other during the U S Mexican War and the Civil War the Mexican cotton trade which helped sustain the Confederacy during the Civil War the transformation of the Arizona borderlands from a multiethnic Mexican frontier into an industrializing place of whites and Mexicans the early twentieth century roles of indigenous Mexicans in organizing to demand rights for all workers the rise of Mexican Americans to claim middle class lives during and after World
