Wrobel,Michael C. Steiner,1997 What does it mean to live in the West today Do people tend to identify with states with regions or with the larger West This book examines the development of regional identity in the American West demonstrating that it is a regionally diverse entity made up of many different wests Great Plains Southwest Rocky Mountains and more in which American regionalism finds its fullest expression These fourteen original essays tell how a sense of place emerged among residents of various regions and how a sense of those places was developed by people outside of them Wrobel and Steiner first offer a compelling overview of the West s regional nature then thirteen other rising or renowned scholars from history American Studies geography and literature tell how regional consciousness formed among inhabitants of particular regions All of the essays address the larger issue of the centrality of place in determining social and cultural forms and individual and collective identities Some focus on race and culture as the primary influences on regional consciousness while others emphasize environmental and economic factors or the influence of literature Some even examine western regionalism in areas that lie beyond the West as it has traditionally been conceived Each of the contributors believes that where a people live helps determine what they are and they write not only about the many wests within the larger West but also about the constant state of flux in which regionalism exists Many books speak of the West as a place but few others deal with the West s different places Many Wests presents a vision of the West that reflects both the common heritage and unique character of each major subregion building on the revisionist impulse of the last decade to help redirect New Western History toward an appreciation of regional diversity and integrate scholarship in the regional subfields It is a book for everyone who lives in studies or loves the West for it confirms that it is home to very different peoples economies histories and regions *Carving the Western Path* R. G. Harvey,2011-06-15 The history of British Columbia s transportation systems north of the Canadian National Railway s mainline may not be well known but it certainly is colourful Continuing the story he began in the first volume of *Carving the Western Path* R G Harvey describes the

development of river road and rail routes that crossed the northern two thirds of BC This was a land of dreams and schemes that seemed to feed on each other It started with the Collins Overland Telegraph a communication link that was to connect Europe and America in the 1860s Though this plan collapsed with the success of the trans Atlantic cable the telegraph surveyors established patterns for future roads and settlement They also sparked the Omineca gold rush It was a land full of larger than life characters including Charles Hays who dreamed of a major seaport at Prince Rupert but died on the Titanic before he could realize his vision Charles Bedaux who in the 1930s carved his 416 mile path into the northern Rockies Railway promoters Warburton Pike Sir Edward Phillipps Wolley William Mackenzie and Donald Mann who got gifts of land and money but couldn't always meet their promises Their stories mingle with those of the Grand Trunk Pacific Railway the Alaska Highway the White Pass and Yukon Railway and those of the sternwheelers fur traders gold miners and other adventurers who were drawn to this last frontier **Journal of the West** Lorrin L. Bootleggers and Borders Stephen T. Moore, 2014-11-01 Between 1920 and 1933 the issue of prohibition proved to be the greatest challenge to Canada U S relations When the United States adopted national prohibition in 1920 ironically just as Canada was abandoning its own national and provincial experiments with prohibition U S tourists and dollars promptly headed north and Canadian liquor went south Despite repeated efforts Americans were unable to secure Canadian assistance in enforcing American prohibition laws until 1930 *Bootleggers and Borders* explores the important but surprisingly overlooked Canada U S relationship in the Pacific Northwest during Prohibition Stephen T Moore maintains that the reason Prohibition created such an intractable problem lies not with the relationship between Ottawa and Washington DC but with everyday operations experienced at the border level where foreign relations are conducted according to different methods and rules and are informed by different assumptions identities and cultural values Through an exploration of border relations in the Pacific Northwest *Bootleggers and Borders* offers insight into not only the Canada U S relationship but also the subtle but important differences in the tactics Canadians and Americans employed when confronted with similar problems Ultimately British Columbia's method of addressing temperance provided the United States with a model that would become central to its abandonment and replacement of Prohibition *Wires in the Wilderness* Bill Miller, 2004 This is the tale of how Canada's high northern wilderness was brought into civilization's fold through a frail network of wires laboriously strung between poles and trees for hundreds of desolate miles The Yukon Telegraph started in 1897 when gold was discovered in the Yukon and the government needed a faster way to communicate with its remote northern territory The isolated residents too wanted a more reliable connection with the outside world Bill Miller takes readers from the line's conception in 1899 to its abandonment in 1952 through to its status today and its potential for future generations focusing on the colourful people who lived and worked in the area His account enhanced by extensive research and engaging storytelling reveals a fascinating fragment of Canada's rich history *Encyclopedia of the Essay* Tracy Chevalier, 2012-10-12 This groundbreaking new

source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length The more than 500 entries by 275 contributors include entries on nationalities various categories of essays such as generic such as sermons aphorisms individual major works notable writers and periodicals that created a market for essays and particularly famous or significant essays The preface details the historical development of the essay and the alphabetically arranged entries usually include biographical sketch nationality era selected writings list additional readings and anthologies **A**

Money and Credit Bruce G. Carruthers, Laura Ariovich, 2013-05-03 This book offers a fresh and uniquely sociological perspective on money and credit As basic economic institutions money and credit are easy to overlook when they work well When they malfunction as they did in the new millennium's global financial crisis their importance becomes obvious and demands further investigation Bruce Carruthers and Laura Ariovich examine the social dimensions of money and credit at both the individual and corporate levels from the development of personal credit and a consumer society to the role of government in the creation of money In clear prose they illustrate how the overall future of the economy is governed by the financial system and the flow of capital into and out of firms operating in particular industrial sectors as well as the social meanings money itself acquires and the ways people distinguish between dirty and clean money This accessible and engaging book will be essential reading for upper level students of economic sociology and those interested in how the bills coins and plastic in our pockets shape the world we live in
