Torre, 2014-10-01 Este volumen de la Nueva Historia Argentina abarca el período que se extendió entre 1943 y 1955 los años peronistas Este volumen de la Nueva Historia Argentina abarca el período que se extendió entre 1943 y 1955 los años peronistas Tanto por las transformaciones sociales y políticas que introdujeron como por los conflictos que generaron en la convivencia entre los argentinos los años peronistas que abarcan la primera y la segunda presidencia de Juan Domingo Perón

han estado en el centro de la investigación académica y la reflexión intelectual del país. El tratamiento que recibieron no ha estado exento de la gravitación de las pasiones políticas que acompañan su trayectoria y el impacto posterior sobre el desenvolvimiento histórico de la Argentina. En este volumen los lectores encontrarán las contribuciones de especialistas en los diversos aspectos del período cuyas obras han procurado aportar un conocimiento más equilibrado y riguroso. Precedidos por una introducción que ofrece una síntesis del período, los capítulos de este volumen se ocupan de temas centrales: las relaciones cambiantes de Perú con las Fuerzas Armadas y la Iglesia; sus apoyos institucionales originales; la transición desde la bonanza inicial a los problemas de la estrategia de desarrollo; los alcances y las modalidades de las políticas de bienestar social; las reacciones del mundo de los negocios y sus diferencias internas; las tensiones del sindicalismo entre su lealtad política y la defensa de las demandas obreras; el lugar de Evita y de la causa de las mujeres; la construcción de la doctrina justicialista; el antiperonismo de los círculos intelectuales; los avatares de una política exterior independiente.

Pueblos originarios y la conquista Myriam N. Tarragó, 2014-07-01 Este volumen de la Nueva Historia Argentina estudia el pasado prehispánico. Este volumen de la Nueva Historia Argentina estudia el pasado prehispánico. A lo largo de nueve capítulos se pone de relieve el poblamiento y la ocupación de los diversos territorios desde hace 13 000 años por poblaciones nativas que desplegaron un aprovechamiento creativo de ambientes y recursos generando modalidades y formas de vida diferentes. También se pone énfasis en las transformaciones representadas por la incorporación entre 4 000 y 2 000 años atrás de la producción de alimentos en amplias regiones del norte y centro de nuestro país, así como la creciente complejidad social desarrollada en el último milenio anterior a la llegada de los españoles. La conquista se refiere particularmente a la penetración y dominación europea a partir del siglo XVI. Pero también alude a la conquista previa de los territorios del norte por parte del Inca, el gran estado andino que se expandió por las tierras de Chile y de la Argentina hasta Santiago y Mendoza. Finalmente se considera el proceso colonial que poco a poco fue avanzando sobre los pueblos nativos hasta incorporarlos a su sistema económico con todos los afectos de desestructuración y cambio que esto implica. Por estas razones el volumen finaliza con un capítulo destinado a destacar el dinamismo y la creatividad de la sociedad y la economía indígenas a través de la frontera.

The archaeological collection from Argentina at the National Museum of Denmark Svend A. Buus, 2018-06-01 The National Museum in Denmark possesses a large number of vessels from Argentina. Very few people knew about the existence of archaeological material from Argentina at the National Museum. And none had ever investigated these materials; neither have there been any previous studies of Argentinian Archaeology in Denmark. Since 2003 the Ethnographic institutions in Stockholm and Göteborg were contacted to enlarge the knowledge of Argentinian Archaeology as they have large collections of Argentinian artefacts. In Denmark there are no institutions focusing on this subject. The investigation of the following material was presented at several international congresses in Denmark, Sweden and Argentina and now culminates in the cataloguing of the archaeological material located at the National Museum in Denmark, providing a spectrum of Argentinian

Religion and Politics in Europe and Latin America Andrés Pérez-Baltodano, 2025-09-22 This book presents a comparative interpretation of the socio-emotional histories of Europe and Latin America offering a novel perspective on the roles of religion and politics in managing collective fear and insecurity in these two regions Emphasizing the historical fears and insecurities faced by underprivileged sectors of Latin American society the book draws on cognitive and social sciences to compile political socioeconomic and cultural landmarks identifying continuities and ruptures in European and Latin American histories The volume highlights Europe's success and Latin America's relative failure in crafting political visions capable of taming fear and insecurity It shows how this largely correlates with how meticulous providentialism the belief that God governs history has been supplanted by general providentialism the belief that God does not intervene in history in the religious cultures of the two regions This shift corresponds to the degree of control individuals feel they have over their history and destiny which typically aligns with their actual social affordances At the heart of these discussions is the notion that the authenticity of the theoretical foundations of political visions is conditioned by society's view of the divine which ultimately determines the capacity of these visions potential to impact history Religion and Politics in Europe and Latin America is a useful resource for students and academics interested in Latin American and European history politics and culture

The Desertmakers Javier Uriarte, 2019-10-29 This book studies how the rhetoric of travel introduces different conceptualizations of space and time in scenarios of war during the last decades of the 19th century in Argentina Brazil Paraguay and Uruguay By examining accounts of war and travel in the context of the consolidation of state apparatuses in these countries Uriarte underlines the essential role that war in connection to empire and capital has played in the Latin American process of modernization and state formation In this book the analysis of British and Latin American travel narratives proves particularly productive in reading the ways in which national spaces are reconfigured reimagined and reappropriated by the state apparatus War turns out to be a central instrument not just for making possible this logic of appropriation but also for bringing temporal notions such as modernization and progress to spaces that were described albeit problematically as being outside of history The book argues that wars waged against deserts as Patagonia the sertão Paraguay and the Uruguayan countryside were described and imagined were in fact means of generating empty spaces real voids that were the condition for new foundations The study of travel writing is an essential tool for understanding the

transformations of space brought by war and for analyzing in detail the forms and connotations of movement in connection to violence Uriarte pays particular attention to the effects that witnessing war had on the traveler's identity and on the relation that is established with the oikos or point of departure of their own voyage Written at the intersection of literary analysis critical geography political science and history this book will be of interest to those studying Latin American literature Travel Writing and neocolonialism and Empire writing

Biosphere to Lithosphere Terry O'Connor, 2016-09-12 Taphonomic studies are a major methodological advance the effects of which have been felt throughout archaeology Zooarchaeologists and archaeobotanists were the first to realise how vital it was to study the entire process of how food enters the archaeological record and taphonomy brought to a close the era when the study of animal bones and plant remains from archaeological sites were regarded mainly as environmental indicators This volume is indicative of recent developments in taphonomic studies hugely diverse research areas are being explored many of which would have been totally unforeseeable only a quarter of a century ago

Human Rights Movement and Discourse. Mercedes Barros, 2018-03-06 This book accounts for the process of emergence and constitution of the human rights movement and discourse during the last military dictatorship in Argentina 1976-1983 Central to this account is the contention that the movement's emergence and constitution should not be understood as a necessary or as a natural response to the atrocities carried out by the last military regime but instead as the result of a contingent process of political articulation and as a response which could have failed in its constitution and success Thus the appearance of the human rights movement and discourse in the country can only be understood in its full complexity if attention is given to this very process of popular mobilisation and political articulation that took place during 1976-1982
