Uranium Chetan Bisariya,1982 *Civil Defense Begins at Home* Laura McEnaney,2020-10-06 Dad built a bomb shelter in the backyard Mom stocked the survival kit in the basement and the kids practiced ducking under their desks at school This was family life in the new era of the A bomb This was civil defense In this provocative work of social and political history Laura McEnaney takes us into the secretive world of defense planners and the homes of ordinary citizens to explore how postwar civil defense turned the front lawn into the front line The reliance on atomic weaponry as a centerpiece of U S foreign policy cast a mushroom cloud over everyday life American citizens now had to imagine a new kind of war one in which they were both combatants and targets It was the Federal Civil Defense Administration s job to encourage citizens to adapt to their nuclear present and future As McEnaney demonstrates the creation of a civil defense program produced new dilemmas about the degree to which civilian society should be militarized to defend itself against internal and external threats Conflicts arose about the relative responsibilities of state and citizen to fund and implement a home front security program The defense establishment s resolution was to popularize and privatize military preparedness The doctrine of self help defense demanded that citizens become autonomous rather than rely on the federal government for protection Families would reconstitute themselves as paramilitary units that could quash subversion from within and absorb attack from without Because it solicited an unprecedented degree of popular involvement the FCDA offers a unique opportunity to explore how average citizens community leaders and elected officials both participated in and resisted the creation of the national security state Drawing on a wide variety of archival sources McEnaney uncovers the broad range of responses to this militarization of daily life and reveals how government planners and ordinary people negotiated their way at the dawn of the atomic age Her work sheds new light on the important postwar debate about what total military preparedness would actually mean for American society *The Environmental Pendulum* R. Allan Freeze,2023-04-28 The pendulum of environmental policy swings from one extreme to the other depending on which camp is in power and who has the ear of the media Underkill is followed by overkill Concern breeds action disillusion breeds reaction The Environmental Pendulum provides a thoughtful and evenhanded assessment of this conflict Tens of thousands of sites across the country are contaminated with toxic chemicals Environmentalists warn us that this legacy of carelessness is seriously affecting both human health and the ecological balance of nature They point out that even improved industrial practices will not eliminate future chemical releases to the environment Their demand for regulatory control has received wide public support and led to the passage of the Superfund legislation in 1980 Now after twenty years the value of the Superfund program is being challenged by corporate America which argues that excessive cleanup costs have the potential to bankrupt the nation R Allan Freeze outlines the difficulties associated with the management of hazardous waste and offers a balanced account of the controversy over the role of environmental contamination in human health Freeze clarifies what matters and what doesn t with respect to

chemical contaminants in the environment arguing that environmental policies should be based on an accurate appraisal of the risks associated with these toxins He concludes the book with a brilliant summation of the good news and the bad news of environmental pollution describing what can and can't be done to bring the situation under control This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 2000 The pendulum of environmental policy swings from one extreme to the other depending on which camp is in power and who has the ear of the media Underkill is followed by overkill Concern breeds action disillusion breeds reaction The Environmental Pe

Selling Air Power Steve Call,2009-03-01 In Selling Air Power Steve Call provides the first comprehensive study of the efforts of post war air power advocates to harness popular culture in support of their agenda In the 1940s and much of the 1950s hardly a month went by without at least one blatantly pro air power article appearing in general interest magazines Public fascination with flight helped create and sustain exaggerated expectations for air power in the minds of both its official proponents and the American public Articles in the Saturday Evening Post Reader s Digest and Life trumpeted the secure future assured by American air superiority Military figures like Henry H Hap Arnold and Curtis E LeMay radio television personalities such as Arthur Godfrey cartoon figures like Steve Canyon and actors like Jimmy Stewart played key roles in the unfolding campaign Movies like Twelve O Clock High The Court Martial of Billy Mitchell and A Gathering of Eagles projected onto the public imagination vivid images confirming what was coming to be the accepted wisdom that America s safety against the Soviet threat could best be guaranteed by air power coupled with nuclear capability But as the Cold War continued and the specter of the mushroom cloud grew more prominent in American minds another more sinister interpretation began to take hold Call chronicles the shift away from the heroic patriotic posture of the years just after World War II toward the threatening even bizarre imagery of books and movies like Catch 22 On the Beach and Dr Strangelove Call s careful analysis goes beyond the public relations campaigns to probe the intellectual climate that shaped them and gave them power Selling Air Power adds a critical layer of understanding to studies in military and aviation history as well as American popular culture

in three parts Part One Pragmatics Politics and Ideology gathers seven papers centered on issues pertaining to political linguistics In Part Two The Pragmatics of Humour Power and the Media there are eight papers which explore issues of politeness and modesty pragmatic aspects of mediated and gendered discourse or dynamicity of power relation in interaction Part Three Focus on Textual Properties concentrates on text excluding political discourse It integrates discussions of equivalence and specialized translation intertextual properties and pragmatically motivated lexical choices in business communication in law and in science
