*A Compleat Body of Arithmetic, in Four Books ...* Samuel Jeake, 1701 **Harmony and Dissent** R. Bruce Elder, 2010-04-22 R Bruce Elder argues that the authors of many of the manifestoes that announced in such lively ways the appearance of yet another artistic movement shared a common aspiration they proposed to reformulate the visual literary and performing arts so that they might take on attributes of the cinema The cinema Elder argues became in the early decades of the twentieth century a pivotal artistic force around which a remarkable variety and number of aesthetic forms took shape To demonstrate this Elder begins with a wide ranging discussion that opens up some broad topics concerning modernity's cognitive and perceptual regime with a view to establishing that a crisis within that regime engendered some peculiar and highly questionable epistemological beliefs and enthusiasms Through this discussion Elder advances the startling claim that a crisis of cognition precipitated by modernity engendered by way of response a peculiar sort of pneumatic spiritual epistemology Elder then shows that early ideas of the cinema were strongly influenced by this pneumatic epistemology and uses this conception of the cinema to explain its pivotal role in shaping two key moments in early twentieth century art the quest to bring forth a pure objectless non representational art and Russian Suprematism Constructivism and Productivism

perspective author s lively tour of the entire Bible traces the origin of human race from one man whose progeny spread to the entire earth filled the earth established their nations with set boundaries Author establishes the historical account of creation challenging the concept of Darwinian Evolution which claims man is an evolutionary product Author stresses that there is only One God who created the universe the cosmos the planets stars life and the multitude of living species of organisms with the command endowed in their DNA when God said to herbs plants and animals to multiply according to its kind according to their kind which is the basis for biological variation and speciation Whereas God s command to human beings was Be fruitful and multiply fill the earth and subdue it meaning there is only one single race of humanity Author has a profound Christian vision of humanity s temporal and eternal destiny and thus he relates in *Finishing the Race* In an age when truth is relative and vanishing conscience the nations are the crossroads confused about the true direction as nations are estranged from God The present culture is as in the Days of Noah quoting Jesus and citing world events and conditions as signs of the end An end time scenario of world and the second coming of Christ when a northern and a southern army will clash in fierce battle over Jerusalem the Holy City of God the capital of the Messianic Kingdom Not claiming any superiority like many of the past and famous scientists like Galilei Galileo Blaise Pascal Isaac Newton Louis Pasteur Robert Boyle etc Cherian attempt to convince his readers God is in control of human and world affairs and natural events Heaven and hell are not mysterious realms of imagination but true physical entities invisible to human eyes and calls the nations to submit to God who only is the answer to national and global unrest that we see now      Scientific Papers: 1887-1892 John William Strutt Baron Rayleigh,1902
