has been reclaimed by some feminists and sociologists over the last 20 years as a radical alternative in secular society to the liberal sexual lifestyle. What after all is sexual liberation when so often the outcome is pain and social chaos? In the context of promiscuity, sexual abuse and confusion, celibacy can herald a different sexual freedom. Jenny Taylor draws on personal experience and interviews with men and women of all ages to demonstrate the impact of the sexual revolution and to make a case for celibacy. She argues that celibacy is a viable alternative that deserves to be taken seriously and challenges the church to speak out for sexual abstinence with confidence and certainty.

Sex, Gender, and Christianity Priscilla Pope-Levison, John R. Levison, 2012-10-08. Should women be priests? Should women submit to their husbands? Is premarital sex okay? Inflammatory questions such as these have splintered Christianity and polarized the church. In *Sex, Gender, and Christianity*, a cadre of seasoned college professors offers the modest proposal that honest, fruitful conversations about these questions will take place only if we develop the ability to deal with sex, gender and the Christian faith with the academic rigor and perspectives of our various disciplines. This volume contributes an unprecedented collection of first-rate articles from a variety of disciplines from the social sciences to history, from literary criticism to theology that will challenge college administrators, professors and students to address fractious questions in an atmosphere of scholarly inquiry.

Women Shaping Theology Mary Ann Hinsdale, 2006. In the 2004 Madeleva Lecture, Mary Ann Hinsdale uses the lens of her own life experience to tell the story of how visionary and prophetic women set in motion the important institutional structures that have allowed women to shape Catholic theology in North America over the past fifty years. She pays particular attention to issues and problems facing women theologians in the Catholic Church today, such as the implications of the changing demographics of women theologians, women's impact on the theological establishment, the reception of feminism and feminist theology by the hierarchy and the unmet intercultural challenges posed by those on the margins, as well as women theologians' response to them. Coming at the beginning of a new papacy, Hinsdale's compelling narrative is especially timely for a consideration of the future of women in the Catholic Church.

This is the first general worldwide history of marriage systems Though it is comprehensive it also uses contemporary American trends to illustrate broader tendencies in significant and sometimes dramatic ways After going back to the earliest generations of human life to seek the roots of why and how human beings came to marry it explores the various points in family life at which marriages are made dissolved and remade It treats marriage systems as a basis for understanding how not only families but whole societies operate The functioning of a marriage system is perceived to be fully related to the overall economic and political situation within which families and individuals must make their way The overall situation is looked at in a historical context reflecting a condition of constant change Quale traces the gradual modifications in patterns through the rise of agriculture and herding into commercial urban societies and on to contemporary industrial commercial life comparing lines of development in the major regions of the world
