Nunca Mas Never Again:

Nunca Mas (Never Again). Argentina. National Commission on Disappeared People, 1986 *The Healing of Nations* Mark R. Amstutz, 2005 How does one forgive an international political transgression as deep as genocide or apartheid Forgiveness is often conceived of as an element of personal morality and even at that it is difficult This book argues that it is also an essential part of political ethics especially when dealing with collective wrongdoing by political regimes In the past a retributive justice demanding prosecution and punishment of all past offenses has kept the international community away from moving on to the next step in regime change Here Mark R Amstutz takes a restorative justice approach calling for nations to account for crimes through truth commissions public apology and repentance reparations and ultimately forgiveness and the lifting of deserved penalties The distinctive feature of forgiveness is the balance it strikes between backward looking accountability and forward looking reconciliation The Healing of Nations combines a theory of the role of forgiveness in public life with four key case studies that test this ethic Argentina Chile Northern Ireland and South Africa Amstutz uses the hard cases to illustrate the promise and limits of forgiving without forgetting **The Changing Face of Motherhood in Spain** Catherine Bourland Ross, 2015-12-24 This book investigates the perceptions of motherhood in Spanish author Luc a Etxebarria s fiction and offers views of the importance of motherhood in society Traditional expectations for women as mothers persist despite the fact that they no longer match Spain s cultural and economic reality These issues of gender equality and societal perceptions stand out in the novels and screenplays of Etxebarria Her work at times resists and at times affirms patriarchal constructs associated with traditional Spanish motherhood and ultimately I argue enacts the very complexity of contemporary Spanish motherhood ideals By showing the tension between the past constructs of the mother and the possible future outcomes of gender equality Etxebarria s works navigate the complexity between past and future illuminating the current and future uncertainties and the ambivalent nature of change Each chapter views motherhood from a different perspective and focuses on particular works of Etxebarria Through the depiction of a variety of mother characters these different perspectives as showcased in Etxebarria s narratives together compose an understanding of Spanish maternal identity **Uruguay** Leslie Jermyn, Winnie Wong, 2010 The highly regarded Cultures of the World series celebrates the diversity of other cultures in this fully updated and expanded edition **Memory, Truth, and Justice in Contemporary Latin America** Roberta Villalón, 2017-07-06 This powerful text provides the first systematic analysis of the second wave of memory and justice mobilization throughout Latin America Pairing clear explanations of concepts and debates with case studies the book offers a unique opportunity for students to interpret the history and politics of Latin American countries The contributors provide insight into human rights issues and grassroots movements that are essential for a broader understanding of struggles for justice memory and equality across the globe especially during our current unsettled times of political polarization violence repression and popular resistance worldwide *The Politics of*

Cruelty Kate Millett, 1995 From one of the most influential figures of the last twenty years the author of *Sexual Politics* comes this brilliant work in which Kate Millet sets out a new theory of politics for our time a harrowing view of the modern state based on the practice of torture as a method of rule as conscious policy *Into The Looking-Glass Wood* Alberto Manguel, 2011-02-04 By the award winning author of *A History of Reading* For me words on a page give the world coherence Words tell us what we as a society believe the world to be I believe there is an ethic of reading a commitment that is both political and private in the act of turning the pages And I believe that sometimes beyond the author s intentions and beyond the reader s hopes a book can make us better and wiser Through personal stories and literary reflections in a style rich in humour and gentle erudition Manguel leads us the readers to reflect upon the pleasures and responsibilities of reading and the links that exist between the world we live in and the words we live amongst *Into the Looking Glass Wood* is a voyage into the subversive heart of words a voyage fired by the author s humanity and extraordinary breadth of vision **Historical Dictionary of the "dirty Wars"** David R. Kohut, Olga Vilella, Beatrice Julian, 2003 During the 1970s and 1980s national security regimes in Argentina Chile and Uruguay declared war on suspected subversives carrying out campaigns of mass human rights violations The *Historical Dictionary of the Dirty Wars* describes the period including the background and aftermath *Memory and Forgetting in the Post-Holocaust Era* Alejandro Baer, Natan Sznaider, 2016-11-25 To forget after Auschwitz is considered barbaric Baer and Sznaider question this assumption not only in regard to the Holocaust but to other political crimes as well The duties of memory surrounding the Holocaust have spread around the globe and interacted with other narratives of victimization that demand equal treatment Are there crimes that must be forgotten and others that should be remembered In this book the authors examine the effects of a globalized Holocaust culture on the ways in which individuals and groups understand the moral and political significance of their respective histories of extreme political violence Do such transnational memories facilitate or hamper the task of coming to terms with and overcoming divisive pasts Taking Argentina Spain and a number of sites in post communist Europe as test cases this book illustrates the transformation from a nationally oriented ethics to a trans national one The authors look at media scholarly discourse NGOs dealing with human rights and memory museums and memorial sites and examine how a new generation of memory activists revisits the past to construct a new future Baer and Sznaider follow these attempts to manoeuvre between the duties of remembrance and the benefits of forgetting This the authors argue is the ethics of Never Again **Touched Bodies** Mara Polgovsky Ezcurra, 2019-06-21 Shortlisted for the 2020 Association for the Study of the Arts of the Present Book Prize Winner of the 2019 Art Journal Prize from the College Art Association What is the role of pleasure and pain in the politics of art In *Touched Bodies* Mara Polgovsky Ezcurra approaches this question as she examines the flourishing of live and intermedial performance in Latin America during times of authoritarianism and its significance during transitions to democracy Based on original documents and innovative readings her book brings politics and ethics to the discussion of artistic developments during the

long 1980s She describes the rise of performance art in the context of feminism HIV activism and human right movements taking a close look at the work of Diamela Eltit and Raúl Zurita from Chile León Ferrari and Liliana Maresca from Argentina and Marcos Kurtycz the No Grupo art collective and Proceso Pentagono from Mexico The comparative study of the work of these artists attests to a performative turn in Latin American art during the 1980s that like photography and film before recast the artistic field as a whole changing the ways in which we perceive art and understand its role in society *The Lost Cinema of Mexico* Olivia Cosentino, Brian Price, 2022-02-08 This volume challenges the dismissal of Mexican filmmaking during the 1960s through 1980s an era long considered a low budget departure from the nation's earlier Golden Age examining the critical implications of discovering uncovering and recovering forgotten or ignored films **Annual Report** Guatemala Human Rights Commission/USA., 1996 **State Terrorism in Latin America** Thomas C. Wright, 2006-12-15 Set in the larger context of the evolution of international human rights this cogent book examines the tragic development and ultimate resolution of Latin America's human rights crisis of the 1970s and 1980s Thomas Wright focuses especially on state terrorism in Chile under General Augusto Pinochet 1973 1990 and in Argentina during the Dirty War 1976 1983 The author probes the background of these regimes the methodology of state terrorism and the human rights movements that emerged in urgent response to the brutality of institutionalized torture murder and disappearance He also discusses the legacies of state terrorism in the post dictatorial period particularly the bitter battle between demands for justice and the military's claim of impunity Central to this struggle was the politics of memory as two radically different versions of the countries recent history clashed had the militaries conducted legitimate wars against subversion or had they exercised terrorism based on a misguided concept of national security The book offers a nuanced exploration of the reciprocal relationship between state terrorism and its legacies on one hand and international human rights on the other When the Chilean and Argentine militaries seized power the international human rights lobby was too weak to prevent the massive toll of state terrorism But the powerful worldwide response to these regimes ultimately strengthened international human rights treaties institutions and jurisprudence paving the way for the Rwanda and Yugoslavia genocide tribunals and the International Criminal Court Indeed Chile and Argentina today routinely try and convict former repressors in their own courts This compelling history demonstrates that the experiences of Chile and Argentina contributed to strengthening the international human rights movement which in turn gave it the influence to affect the outcome in these two South American countries Ironically the brutal regimes of Chile and Argentina played the major role in transforming a largely dormant international lobby into a powerful force that today is capable of bringing major repressors from anywhere in the world to justice These intertwined themes make this book important reading not only for Latin Americanists but for students of human rights and of international relations as well *A Modern History of Forgotten Genocides and Mass Atrocities* Jeffrey S. Bachman, Esther Brito Ruiz, 2024-11-01 This is the first textbook of its kind to amass cases of genocide and other mass atrocities across the

nineteenth twentieth and twenty first centuries that have largely been pushed to the periphery of Genocide Studies or forgotten altogether Divided into four thematic sections Genocide and Imperialism War and Genocide State Repression Military Dictatorships and Genocide and Human Caused Famine Attrition and Genocide A Modern History of Forgotten Genocides and Mass Atrocities covers five continents including case studies from Biafra Yemen Argentina Russia China and Bengal They range from the French conquest of Algeria in the mid nineteenth century to the Yazidi genocide perpetrated by the Islamic State in Iraq and Syria between 2014 and 2017 and show that at times of rising authoritarianism military conquest and weaponization of hunger lines between what is war and what is genocide are increasingly blurred By including genocides and mass atrocities that are often overlooked this volume is crucial to the ongoing debates about whether this atrocity or that one amounts to genocide By including key points events terms and critical questions throughout this is the ideal textbook for undergraduate students who study genocide mass atrocities and human rights across the globe

Memory and Transitional Justice in Argentina and Uruguay Francesca Lessa, 2013-04-11 This interdisciplinary study explores the interaction between memory and transitional justice in post dictatorship Argentina and Uruguay and develops a theoretical framework for bringing these two fields of study together through the concept of critical junctures

Viewing Photography in Post-Dictatorship Latin America David Rojinsky, 2022-11-30 This book examines the archival aesthetic of mourning and memory developed by Latin American artists and photographers between 1997 2016 Particular attention is paid to how photographs of the assassinated or disappeared political dissident of the 1970s and 1980s as found in family albums and in official archives were not only re imagined as conduits for private mourning but also became allegories of social trauma and the struggle against socio political amnesia Memorials art installations photo essays street projections and documentary films are all considered as media for the reframing of these archival images from the era of the Cold War dictatorships in Argentina Chile Guatemala and Uruguay While the turn of the millennium was supposedly marked by the end of history and with the advent of digital technologies by the end of photography these works served to interrupt and hence belie the dominant narrative on both counts Indeed the book s overarching contention is that the viewer s affective identification with distant suffering when engaging these artworks is equally interrupted instead the viewer is invited to apprehend memorial images as emblems of national and international histories of ideological struggle Forgiven but Not Forgotten Ambrose Mong, 2020-12-09 This work explores issues of forgiveness and reconciliation in countries that had experienced political conflicts civil war and even genocide It attempts to move beyond mere discussion by examining case studies and the initiatives taken in dialogue and reconciliation In many cases religion can be a force for peace and play a significant role in resolving conflicts This work also examines the relationship between justice and forgiveness emphasizing that there will be no peace without justice and no justice without forgiveness Human justice is fragile Thus respect for rights and responsibilities must include forgiveness in order to heal and restore relationships Justice Framed Marcos

Zunino,2019-03-14 Why are certain responses to past human rights violations considered instances of transitional justice while others are disregarded This study interrogates the history of the discourse and practice of the field to answer that question Zunino argues that a number of characteristics inherited as transitional justice emerged as a discourse in the 1980s and 1990s have shaped which practices of the present and the past are now regarded as valid responses to past human rights violations He traces these influential characteristics from Argentina s transition to democracy in 1983 the end of communism in Eastern Europe the development of international criminal justice and the South African truth commission of 1995 Through an analysis of the post World War II period the decolonisation process and the Cold War Zunino identifies a series of episodes and mechanisms omitted from the history of transitional justice because they did not conform to its accepted characteristics

Feminism and Global Justice Kerry Carrington,2014-10-17 In this book Kerry Carrington takes a bold critical and reflexive approach to understanding the global divisions and inequalities that shape distinctive patterns of gender and crime The book argues that in order for feminist criminology to enhance its conceptual and political relevance in the twenty first century bold new directions in scholarship on gender crime and global justice are required that also take into account global divisions and inequalities Issues explored in the book include the forced marriage of child brides female genital mutilation feminicide honour crimes rape and domestic violence and the systemic denial of female rights justified by religion custom or culture It also explores rising rates of violence recorded for women offenders globally and their increasing participation in terrorism as well as troubling male on male violence in anomic spaces cultivated by globalising forces *Feminism and Global Justice* argues that the world needs feminism more than ever to address systemic culturally shaped and diverse forms of injustice experienced by females across the globe many of them children It will be essential reading for international and national human rights organisations as well as academics and students engaged in the study of criminology development studies sociology politics and gender studies
