**Nunneries, Learning, and Spirituality in Late Medieval English Society** Paul Lee, 2001 Study of Dartford Priory reveals the Dominican contribution to late medieval English female monastic life and English vernacular spirituality

English Women's Spiritual Utopias, 1400-1700 Alexandra Verini, 2022-06-06 English Women's Spiritual Utopias 1400 1700 New Kingdoms of Womanhood uncovers a tradition of women's utopianism that extends back to medieval women's monasticism overturning accounts of utopia that trace its origins solely to Thomas More As enclosed spaces in which women wielded authority that was unavailable to them in the outside world medieval and early modern convents were self consciously engaged in reworking pre existing cultural heritage to project desired proto feminist futures The utopianism developed within the English convent percolated outwards to unenclosed women's spiritual communities such as Mary Ward's Institute of the Blessed Virgin and the Ferrar family at Little Gidding Convent based utopianism further acted as an unrecognized influence on the first English women's literary utopias by authors such as Margaret Cavendish and Mary Astell Collectively these female communities forged a mode of utopia that drew on the past to imagine new possibilities for themselves as well as for their larger religious and political communities Tracking utopianism from the convent to the literary page over a period of 300 years New Kingdoms writes a new history of medieval and early modern women's intellectual work and expands the concept of utopia itself Guilds and the Parish Community in Late Medieval East Anglia, C. 1470-1550

Ken Farnhill, 2001 The parish and the guild were the two poles round which social and religious life revolved in late medieval England This study drawing freely on East Anglian records shows how influential they were in the lives of their communities in the years before the break with Rome and provides an implicit commentary on the impact of the Henrician Reformation at parish level The records of many of the guilds or fraternities of East Anglia in the years 1470 1550 are examined for evidence of their form function and popularity the spread of fraternities across East Anglia the size of individual guilds types of member and the benefits of guild membership are all studied in detail The social and religious functions of the fraternities are then compared with the parish through a study of the records of two Norfolk market towns Wymondham and Swaffham and two Suffolk villages Bardwell and Cratfield A final chapter studies the fortunes of the guilds during the early years of the Reformation up to their dissolution in 1548 KEN FARNHILL is research associate at the Centre for Medieval Studies University of York

**The Dependent Priories of Medieval English Monasteries** Martin Heale, 2004 This study charts for the first time the history of the 140 or so daughter houses of English monasteries which have always been overshadowed by the French cells in England the so called alien priories The first part of the book examines the reasons for the foundation of these monasteries and the relations between dependent priories and their mother houses bishops and patrons The second part investigates everyday life in cells the priories interaction with their neighbours and their economic viability The unusual pattern of dissolution of these houses is also revealed Because of the tremendous bulk of material to survive for English

dependencies this is the most detailed account of a group of small monasteries yet written Although daughter houses are in many ways unrepresentative of other lesser monasteries their experience sheds a great deal of light on the world of the small religious house and suggests that these shadowy institutions were far more central to medieval religion and society than has been appreciated

**Popular reading in English c. 1400-1600** Elisabeth Salter, 2017-10-03 This book is about reading practice and experience in late medieval and early modern England It focuses on the kinds of literatures that were more readily available to the widest spectrum of the population Four case studies from many possibilities have been selected each examining a particular type of popular literature under the headings religious moral practical and fictional A key concern of the book is how we might use particular types of evidence in order to understand more about reading practice and experience so issues of method and approach are discussed fully in the opening chapter One distinctive element of this book is that it attempts to uncover evidence for the reading practices and experiences of real rather than ideal readers using evidence that is found within the material of a book or manuscript itself or within the structure of a specific genre of literature Salter attempts to negotiate a path through a set of methodological and interpretive issues in order to arrive at a better understanding of how people may have read and what they may have read This in turn leads on to how we may interpret the evidence that manuscripts and early printed books provide for the ways that medieval and early modern people engaged with reading This book will be of interest to academics and research students who study the history of reading

popular culture literacy manuscript and print culture as well as to those interested more generally in medieval and early modern society and culture
