(Dis)Order Alessandro Testa,2020-11-29 Carnival has been described as one of the foundational elements of European culture bearing an emblematic and iconic status as the festive phenomenon par excellence Its origins are partly obscure but its stratified and complex history rich symbolic diversity and sundry social configurations make it an exceptional object of cultural analysis The product of more than 12 years of research this book is the first comparative historical anthropology of popular European Carnival in the English language with a focus on its symbolic religious and political dimensions and transformations throughout the centuries It builds on a variety of theories of social change and social structures questioning existing assumptions about what folklore is and how cultural gaps and differences take shape and reproduce through ritual forms of collective action It also challenges recent interpretations about the performative and political dimension of European festive culture especially in its carnivalesque declension While presenting and exploring the most important features and characteristics of European pre modern Carnival and discussing its origins and developments this thorough study offers fresh evidence and up to date analyses about its transversal and long lasting significance in European societies

influence the festival culture of Livonian cities such as Riga Reval Tallinn and Dorpat Tartu which were members of the Hanseatic League substantially overlapped with that of other German speaking areas not least the Hanseatic cities of northern Germany The major part of the book is devoted to the main annual festivals of the merchants guilds Christmas Carnival the popinjay shoot and the May Count celebrations There follows an analysis of specific aspects of the festivals spatial contexts finances food and drink entertainments dances jousts games customs and rituals There is also a concluding glance at changes in festival culture after the Reformation The study combines close scrutiny of local customs made possible by the almost miraculous survival of uniquely detailed documentation contextualization within the wider comparative context of festival culture in late medieval Europe and an alternance to significant recent scholarship in both English and German
