Bowman, 2006-09-15 The book contains twenty three stirring accounts of what life flying as air crew in World War Two was really like The writers are a mixed bunch of pilots navigators and gunners who flew medium and heavy bombers or Mosquitoes It conveys the terror of being coned by German searchlights over the target attacks by Luftwaffe night fighters catastrophic damage to aircraft and the ensuing struggle to keep the machine airborne on the return trip to base It tells of the comradeship between the crew and often the humor between them which was often bred from fear The gentle and unassuming narratives convey the sense of purpose that these men felt in doing one of the most dangerous jobs in the war It is a fitting tribute to those that survived and the many thousands who died in the struggle against Hitler's dreadful ambitions in Europe

The Veterans' Tale Frances Houghton, 2019-01-10 This is a unique account of the ways in which British veterans of the Second World War remembered understood and recounted their experiences of battle throughout the post war period Focusing on themes of landscape weaponry the enemy and comradeship Frances Houghton examines the imagery and language used by war memoirists to reconstruct and review both their experiences of battle and their sense of wartime self Houghton also identifies how veterans memoirs became significant sites of contest as former servicemen sought to challenge what they saw as unsatisfactory official scholarly and cultural representations of the Second World War in Britain Her findings show that these memoirs are equally important both for the new light they shed on the memory and meanings of wartime military experience among British veterans and for what they tell us about the cultural identity of military life writing in post war British society

The Berlin Blitz By Those Who Were There Martin W. Bowman, 2023-04-30 The Allied bombing of Berlin was the longest and most sustained bombing offensive against one target in the Second World War The Berlin Blitz By Those Who Were There is a compelling gripping and thought provoking story of the Allied bombing forces and the ordinary people on the ground told in their own tongue and with meticulous attention to detail The result is a coherent single story which unfolds in a straightforward and incisive narrative This work draws

attention in some detail to the major raids on the Reich capital by RAF Bomber Command from the late summer of 1940 to September 1943. It begins with the reliable but largely ineffective twin engined Blenheims Hampdens Wellingtons and Whitleys through to the introduction into front line service of the four engined heavies the Stirling Manchester and Halifax which bore the brunt of the bomber offensive until the advent of the incomparable Avro Lancaster in 1942 and the superlative Mosquito. On 30 January 1943 on the tenth anniversary of Hitler's usurpation of power two formations each of three Mosquitoes appeared over Berlin in daylight and interrupted large rallies being addressed by Goering and Goebbels. Sir Arthur Harris, Commander in Chief RAF Bomber Command, hoped to wreck Berlin from end to end and produce a state of devastation in which German surrender is inevitable. But the Big City as it was known to his faithful old lags was never completely destroyed.

A Democracy at War William L. O'Neill, 1995. Surveys the bureaucratic mistakes including poor weapons and strategic blunders that marked America's entry into World War II showing how these errors were overcome by the citizens waging the war.

Stafford at War, 1939-1945 Nick Thomas, 2009-06-18. Stafford at War is a vivid many-sided portrait of a county town during one of the extraordinary periods in English history. In his wide-ranging narrative Nick Thomas looks at the impact of the Second World War on the townspeople: how it affected their daily lives, their work, their families. And he recalls the contribution Stafford made to the war effort at home and abroad. The story he tells gives a fascinating insight into wartime life and it is a moving record of the sacrifices made by local people. His detailed and fully illustrated account will be fascinating reading for everyone who knows Stafford and wants to find out about its history.

Under the Bombs Earl R. Beck, 2013-07-24. A tribute to human resilience under extreme stress both in response to the terror from the sky and to the sacrifices the Nazis imposed on their people. History Under the Bombs tells the story of the civilian population of German cities devastated by Allied bombing in World War II. These people went to work, tried to keep a home, though in many cases it was just a pile of rubble where a house once stood and attempted to live life as normally as possible amid the chaos of war. Earl Beck also looks at the food and fuel rationing the German people endured and the problems of trying to make a public complaint while living in a totalitarian state. An easily accessible impressionistic description of life in Germany under Allied aerial bombardment, this evocative study captures the horror of war for a trapped population. Library Journal. The most vivid account available of what it was actually like to live under the bombings. Historian Challenges the contention of Allied commanders that airpower was the ultimate key to victory and that it could have defeated the enemy by itself. America A powerful study. American Historical Review An enlightening, highly readable account of life in the war-ravaged Third Reich. Pineville Sun A description of what it was like to live, work, suffer and die in wartime Germany. The Historian
