Transition from Pediatric to Adult Healthcare Services for Adolescents and Young Adults with

Long-term Conditions Cecily L. Betz, Imelda T. Coyne, 2019-11-30 This book offers essential information on interventions and actions that enable and promote transition experiences for adolescents and young adults. It provides guidance on appropriate strategies that bring together these groups and caregivers in the context of transition preparation and those which optimize adolescents and young adults' ability to self-manage their healthcare. The health care transition for adolescents and young adults has gained more attention given the improved survival rates including for those with long-term conditions. It is now estimated that more than 90% of children diagnosed with a long-term condition will survive into adulthood. The significant change in survival requires concomitant services to facilitate adolescents and young adults' successful transition to adult health care; therefore, providers need education, knowledge, and skills to support healthcare transition services. A recent US national survey demonstrated only 10% of parents/caregivers reported that their children received transition preparation services. This book is targeted at nurses and pediatric and adult health care providers of different disciplines seeking guidance on which interventions are available, how they can be used, advantages and challenges, and how best to promote a seamless transition for all adolescents and young adults with long-term conditions. It provides several examples of transition programmes and initiatives worldwide. There is an increasing focus on how nurses can support transition, but little guidance on what is effective and what has been tried. This book will fill a gap by addressing all of these issues outlined above and by providing worked examples from leading nurse researchers and academics worldwide.

Guidelines for Nursing Excellence in the Care of Children, Youth, and Families Second Edition Cecily Betz, Marilyn Krajicek, Martha Craft-Rosenberg, 2017-10-28 First Edition Designated a Doody's Core Title and Winner of an AJN Book of the Year Award. This distinguished title, written by nationally recognized nursing experts in health care and pediatrics, delivers the most current evidence-based practice standards and their application. These guidelines, developed through systematic consensus building led by the AAN's Child Adolescent and Family Expert Panel, incorporate the wisdom of 17 professional nursing and healthcare organizations regarding the core elements of pediatric nursing excellence. This second edition contains substantial updates to all guidelines based on the most current research evidence and demonstrates examples of how to best apply the guidelines to nursing practice. Disseminating the gold standard of care for infants, children, adolescents, and families, this text addresses access to health care, genetic assessment and counseling, culturally responsive care, care for children and youth with disabilities, and others. Every chapter breaks down a guideline into its definition, history, and implications for clinical education, policy, and research in nursing practice. A case study based around the analyzed guideline illustrates how the guideline should be employed in nursing practice. Culminates every chapter. Replete with supplemental online files full of resources to apply these guidelines to nursing practice. *Guidelines for Nursing Excellence in the Care of Children, Youth, and Families* represents an invaluable resource for pediatric nurses, nursing students, nursing educators, nursing administrators, pediatric and family nurse practitioners, advanced practice nurses, nursing clinicians, and public health
