Occupational Therapy for Older People Christian Pozzi, Alessandro Lanzoni, Maud J. L. Graff, Alessandro Morandi, 2020-01-31 This book focuses on evidence based occupational therapy in the care of older adults in different clinical settings from home to acute hospital from intensive care unit to rehabilitation centers and nursing homes Occupational therapy has progressively developed as a new discipline aiming to improve the daily life of individuals of different ages from children to older adults The book first reviews the interaction between occupational therapy and geriatrics and then discusses in depth how occupational therapy interventions are applied in the community in the acute hospital and in the nursing home It highlights the key role of occupational therapy in the management of frail patients including critically ill older patients and persons with dementia and describes in detail how to maintain occupational therapy interventions across different settings to avoid the fragmentation of care The ageing population requires new innovative approaches to improve the quality of life and as such this book provides clinicians with handy key information on how to implement occupational therapy in the daily clinical care of older adults based on the current scientific evidence

Spiritually Competent Practice in Health Care John Wattis, Stephen Curran, Melanie Rogers, 2017-07-28 This book will be of tremendous use to all healthcare professionals from physicians to nurses to social workers rehabilitation therapists and chaplains The pathway taken here is a sensible and reasonable one emphasizing a patient centred approach that underscores the importance of spiritually competent care The Editors do an excellent job of describing how to integrate spirituality into patient care for all of the different healthcare professionals They also emphasize the importance of an evidence based approach that is guided by research This book provides superb guidelines that will be enormously helpful to every healthcare professional Harold G Koenig M D Professor of Psychiatry Behavioral Sciences Duke University Medical Center Durham North Carolina This practical guide tackles the important issues of spirituality in health care emphasising the role of organisations in developing a culture of leadership and management that facilitates spiritual care Spirituality is a central part of holistic care that addresses physical mental emotional and spiritual aspects of care in an integrated way The chapters are written by experts in their fields pitched at the practitioner level rather than addressing spirituality as a purely theoretical concept Each one describes the realities of spiritually competent practice and show how it can be taught and put into practice in a variety of areas and settings including Undergraduate and Postgraduate education Acute healthcare settings Mental health Primary care End of Life Care Creative organisations Social services Ideal for practitioners educators trainees and managers in nursing and healthcare the book is also relevant reading for occupational therapists physiotherapists social workers and psychologists

National Library of Medicine Current Catalog National Library of Medicine (U.S.), 1991

Care of Gastrointestinal Problems in the Older Adult Sue E. Meiner, Sue E. Meiner, GNP, EdD, 2004-04-15 This book provides nurses with practical information on the most frequently encountered gastrointestinal disorders and problems found in the elderly from constipation hemorrhoids

and diverticulosis to cancers of the GI tract It was developed to provide greater depth of information than can be found in general nursing textbooks and to tailor this information to the special needs of the elderly Each chapter includes a definition of the condition followed by its cause normal and abnormal physiology nursing care with attention to nursing diagnoses interventions medications and alternative therapies where appropriate Health promotion nutrition and quality of life issues are included as an essential part of any plan of care for older adults *Oxford Textbook of Spirituality in Healthcare* Mark Cobb,Christina Puchalski,Bruce Rumbold,2012-08-09 The relationship between spirituality and healthcare is historical intellectual and practical and it has now emerged as a significant field in health research healthcare policy and clinical practice and training Understanding health and wellbeing requires addressing spiritual and existential issues and healthcare is therefore challenged to respond to the ways spirituality is experienced and expressed in illness suffering healing and loss If healthcare has compassionate regard for the humanity of those it serves it is faced with questions about how it understands and interprets spirituality what resources it should make available and how these are organised and the ways in which spirituality shapes and informs the purpose and practice of healthcare These questions are the basis for this resource which presents a coherent field of enquiry discussion and debate that is interdisciplinary international and vibrant There is a growing corpus of articles in medical and healthcare journals on spirituality in addition to a wide range of literature but there has been no attempt so far to publish a standard text on this subject *Spirituality in Healthcare* is an authoritative reference on the subject providing unequalled coverage critical depth and an integrated source of key topics Divided into six sections including practice research policy and training the project brings together international contributions from scholars in the field to provide a unique and stimulating resource **Chronic Disease Management** Jim Nuovo,2010-05-05 Primary care physicians and allied health professionals must learn how to efficiently and effectively provide care for patients with chronic diseases That is why the focus of this book is on optimizing management and outcomes rather than on routine diagnosis The reader learns proven methods for treating the most common chronic conditions that they see in daily practice Chapters are structured to help physicians quickly adopt evidence based management techniques specific for each condition such as the implementation of medication regimens Of particular benefit are office visit templates for providers The templates show what patient data should be collected and measured during each office visit Other innovative approaches including registry development group visits and shared medical appointments are detailed as well Special emphasis is placed on the use of action plans and educational resources for promoting patient self management
