The Multimodal Brief Systemic Training Programme (MBSTP) for Primary Care Carles Barcons

Comellas,George W. Saba,Mauro Mariotti,Cory Johnson,2025-02-27 This textbook presents an innovative educational and training protocol for treating mental health patients in primary care the Multimodal Brief Systemic Training MBSTP Blending theory with practice this manual offers a rigorous versatile and integrative approach grounded in research that can be easily adopted by primary care professionals including general practitioners nurses social workers and psychologists It is not only

invaluable for psychotherapy students but also serves as a vital resource for physicians and other non mental health professionals seeking to support individuals facing cancer chronic pain palliative care and other conditions that intertwine emotional mental and behavioural challenges within their close relational systems The MBSTP is a compelling alternative to existing evidence based training programs which often centre on Cognitive Behavioural Therapy Designed as a continuing education course led by a team of mental health specialists this training provides a structured pathway for professional development This book will help to reignite practitioners interest in systemic thinking encouraging them to revisit its significance in their work or for those new to the concept to embrace it as a crucial aspect of their professional growth and contribute meaningfully to their evolution in the field *Pediatric Home Care for Nurses* Wendy Votroubek,2010-09-15

Pediatric Home Care is a practice based text perfect for either students or for supporting pediatric nurses practicing in a home care setting The text includes a variety of nursing information required for this type of care across a large spectrum of physiologic categories and acuity levels The Third Edition has been completely revised and updated to reflect the most current practice and technology and includes a new focus on evidence based practice *Foundations of Professional Nursing* Katherine Renpenning,Susan Gebhardt Taylor,Judith M. Pickens,2016-05-15 Integrates the science of self care with other nursing and multidisciplinary perspectives This is the first text for the Professional Nursing Practice course in RN to BSN curriculum to present a conceptual framework for contemporary nursing practice based on the science of self care that also incorporates other nursing and multidisciplinary perspectives Built upon the premise that nursing is both a caring and a knowledge based profession this cutting edge text illustrates how to attain and integrate knowledge from nursing theory and theories of related disciplines to achieve optimal evidence based nursing practice Using case studies to demonstrate the relationship between nursing theory and practice the text underscores the importance of having a deep understanding and conceptual model of the unique role of nursing in society and its practice domain The text instills a foundational understanding of the science of self care and its contribution to contemporary nursing It describes how this paradigm is gaining recognition as an effective anti burnout strategy and demonstrates how it can be applied Case examples from a variety of clinical situations integrated with nursing theory demonstrate the variables needed to achieve optimal nursing practice The book illustrates what data to collect how to analyze that data how to design and implement intervention strategies and how to determine their effectiveness Key concept boxes measurable objectives with critical thinking questions and learning activities reinforce content Additionally more complex cases included at the end of the text and frequent links to nursing literature provide fodder for more in depth analysis Key Features Provides an integrative model for nursing practice based on self care that is useful in all clinical settings Illustrates how to attain and integrate knowledge from the science of self care with other nursing theories Demonstrates the relationship between theory and practice through case studies Introduces students to the importance of recording and analyzing data to achieve evidence based practice Includes

measurable objectives with review questions at the end of chapters and many other pedagogical features
