Nursing Care Of Geriatric Emergencies:

Nursing Care of Geriatric Emergencies Christine K. Wanich Bradway,1996 This comprehensive guide to nursing management of medical emergencies among the elderly is for nurses who practice in acute care long term care home care and other settings The main emphasis is on nursing assessment and appropriate care Discussion of epidemiology pathophysiology as well as case examples are included in each chapter *Geriatric Emergencies* Lee A. Lindquist,Scott M. Dresden,2019-05-15 Care for older adults in Emergency Departments EDs has historically been focused on acute medical conditions with little emphasis on geriatric specific issues In 2010 emergency departments EDs throughout the nation saw almost 130 million patients 15% of whom were 65 or older The number of older adults who visit an ED has doubled in the last decade and continues to grow rapidly Older adults receiving care in an ED are highly likely to be admitted to the hospital much more so than their younger counterparts Preventing a hospital admission saves older adults from frequently encountered adverse events including hospital acquired delirium functional status impairment cognitive loss and nursing home admission It is unknown how many older adults are hospitalized for reasons other than acute medical illness such as functional decline polypharmacy progressive dementia caregiver stress or unstable living situation These non emergent conditions are rarely addressed during a typical ED visit due to lack of resources significant patient volumes and the need for rapid turnover of care spaces The predominant management strategy of emergency physicians to handle these important but not imminently life threatening geriatric issues is to recommend hospital admission Northwestern has pioneered the Geriatric Emergency Department through the creation of the Geriatric Emergency Department Innovation model GEDI with goals to prevent admissions for older adults by assessing and meeting their geriatric specific non acute care needs in the ED The GEDI model at Northwestern centers on a multi disciplinary curriculum composed of clinical didactic and practical arms developed by emergency medicine and geriatrics educational experts In this title we will present case studies of older adults seen in the Emergency Department through the GEDI model and discuss means of identifying screening for diagnosing and treating geriatric syndromes seen in the emergent care of the older adult patient In addition there will be a set of concise take home points for each case study that will be easy to commit to memory and implement in clinical care of older adults As the number of seniors seeking emergent care will continue to increase the ED setting must become responsive to geriatric specific needs This book will provide a variety of models detailing how to offer comprehensive state of the art optimal care for managing the full range of geriatric syndromes that regularly present in the emergent care setting *Geriatric Emergencies* Amal Mattu,Shamai Grossman,Peter Rosen,Robert Anderson,Christopher R. Carpenter,Andrew Chang,Jon Mark Hirshon,Ula Hwang,Maura Kennedy,Don Melady,Vaishal Tolia,Scott Wilbur,2016-05-19 The elderly represent the fastest growing segment of the population in developed countries reflected in the patient population presenting to EDs and hospitals These patients more often than not have greater co morbidities more complicated workups and utilize more laboratory and

radiologic services This text is designed to teach emergency physicians how best to care for this specific demographic of patients It addresses physiologic changes high risk conditions and atypical presentations associated with elderly patients in the ED that result in frequent misdiagnosis or delays in diagnosis It instructs the readers how best to care for elderly patients in order to minimize morbidity and mortality addressing some of the difficult psychosocial issues that confront health care providers that care for elderly patients such as psychiatric disease and end of life care The utility of this text is not limited to emergency physicians but it should be useful to all health care providers involved in the treatment of elderly patients with acute medical or surgical conditions

Creating a Geriatric Emergency Department John Schumacher,Don Melady,2022-02-03 An essential experience based practical guide for anyone looking to improve the care of older patients in the emergency department
