Family-Owned Businesses Generational Survival Cesar Chalhoub, 2025-02-27 Saudi Family Owned Businesses Generational Survival explores the intricate dynamics of family owned businesses FOBs within the Kingdom of Saudi Arabia a critical pillar of the global economy While FOBs contribute over 70% of the global GDP and employ more than half the global workforce they face unique challenges particularly in achieving generational continuity Only 30% of FOBs survive into the second generation with rates plummeting to 12% by the third and less than 5% beyond the fourth This book addresses these

challenges offering actionable insights based on robust frameworks like Professor John Davis's Three Circle Model and the Family Enterprise Sustainability Framework. It emphasizes the need for institutionalization, a structured transformation process designed to safeguard family legacies while enhancing governance, leadership, and strategic alignment. Through detailed case analyses of Saudi FOBs, the book presents a step-by-step institutionalization plan. It begins by laying a solid foundation rooted in shared vision and values, progresses to building governance capacity and engagement, and culminates in designing and implementing robust governance structures. Key practices, including family councils, succession planning, and performance metrics, are explored to ensure continuity and adaptability in a rapidly evolving business landscape. The book is an essential guide for families seeking to transform their enterprises into resilient, future-ready institutions and a useful reference for researchers and students of family-owned businesses, entrepreneurship, and the economies of the Middle East.

Religion and Family in a Changing Society Penny Edgell, 2013-12-03. The 1950s religious boom was organized around the male breadwinner lifestyle in the burgeoning postwar suburbs. But since the 1950s, family life has been fundamentally reconfigured in the United States. How do religion and family fit together today? This book examines how religious congregations in America have responded to changes in family structure and how families participate in local religious life. Based on a study of congregations and community residents in upstate New York, sociologist Penny Edgell argues that while some religious groups may be nostalgic for the Ozzie and Harriet days, others are changing, knowing that fewer and fewer families fit this traditional pattern. In order to keep members with nontraditional family arrangements within the congregation, these innovators have sought to emphasize individual freedom and personal spirituality and actively to welcome single adults and those from nontraditional families. Edgell shows that mothers and fathers seek involvement in congregations for different reasons. Men tend to think of congregations as social support structures and to get involved as a means of participating in the lives of their children. Women, by contrast, are more often motivated by the quest for religious experience and can adapt more readily to pluralist ideas about family structure. This, Edgell concludes, may explain the attraction of men to more conservative congregations and women to nontraditional religious groups. **The United Family**
