Excerpt from Nurturing Connection Nurturing our relationship with our children is the heart and soul of consciously parenting Nurturing relationships once they are established is really an art It is about remembering that our children s need for connection is a primary factor in most of their behavior It is about recognizing that in every parenting situation we have choices about how we respond to our children and their behaviors It is about seeing every parenting situation as an opportunity to create connection or disconnection It is about looking at our everyday parenting situations and beginning to

see how we can choose connection It is also about being able to admit when something didn't go as planned to forgive ourselves for not always being the parents we hope to be and to forgive our children for not always being the children we hope they'd be

Miller-McLemore,2019-03-01 How the daily practices of life with children can shape our faith In the Midst of Chaos explores parenting as spiritual practice building on Bonnie J Miller McLemore s fresh conceptions of children from her book Let the Children Come She questions conventional perceptions that spiritual practices require silence solitude and uninterrupted prayer and that assume a life unburdened by care of others She is both honest about the difficulties and attentive to the blessings present in everyday life and demonstrates that the life of faith encompasses children and the adults who care for them Miller McLemore explores how parents might use seven daily practices such as play reading chores and saying goodbye or goodnight as rich opportunities to shape both parent and child morally and spiritually Through these experiences she shows how the very care of children forms and reforms the faith of adults themselves contrary to the belief that adults must form children In the Midst of Chaos also goes beyond the typical focus on individual self fulfillment by tackling difficult questions of social justice and mutuality in the ways families live together Readers will find in this book an invitation to love those around them in the midst of life s craziness and to live more deeply in grace **The Parent Survival Guide** Theresa Kellam,2011-02-14 When parents turn to the parenting self help section of their local bookstore they are looking for both practical guidance and a childrearing philosophy that resonates with them an approach they can relate to and be comfortable implementing in their own household In The Parent Survival Guide From Chaos to Harmony in Ten Weeks or Less Theresa Kellam presents a way to strengthen the relationship with the child that simultaneously promotes the parent s own emotional healing and wellness Grounded in a research supported therapeutic technique that uses structured play time as the catalyst for interpersonal connection and growth Kellam s model is subtle in its simplicity Through a series of guided exercises

Kellam gives parents the skills they need to begin to set aside special playtimes with their children during which the most important part of the process is simply being there in a way that promotes healing growth and communication. The beauty of this approach is that in only 30 minutes once a week the results can be seen in only a few weeks. Features of the book include Parent Survival Tip at the start of each chapter. Original cartoon illustrations bring text to life. Short but insightful worksheet questions bring focus to the program. The Parent Survival Guide is structured over a series of 10 chapters which can be read in conjunction with the 10 sessions of the CPRT workshops for those parents enrolled in a formal filial training program. But the material in the book is designed to be read and implemented by anyone. The author is not only a licensed psychologist and filial therapist but she has also gone through the program with her own son and continues to rely on its principles within her family.
