**Development Cooperation and Emerging Powers** Sachin Chaturvedi,Thomas Fues,Elizabeth Sidiropoulos,2012-05-10

The current framework of development cooperation is dominated by the experiences of industrialized countries But emerging economies have begun to accelerate their own development programmes and attempts to bring them into existing aid models have been met with caution and reservation This expert topical volume explores the development policies of Brazil China India Mexico and South Africa analysing how South South cooperation has evolved and where it differs from traditional development cooperation This vital new collection brings together first hand experience from these countries to provide a forward looking analysis of the current global architecture of development cooperation and of the possible convergence of traditional and emerging development actors

*The World Bank and Social Transformation in International Politics* David

Williams,2012-08-21 In the 1990s the World Bank changed its policy to take the position that the problems of poverty and governance are inextricably linked and improving the governance of its borrower countries became increasingly accepted as a legitimate and important part of the World Bank s development activities This book examines why the World Bank came to see good governance as important and evaluate what the World Bank is doing to improve the governance of its borrower countries David Williams examines changing World Bank policy since the late 1970s to show how a concern with good governance grew out of the problems the World Bank was experiencing with structural adjustment lending particularly in Sub Saharan Africa The book provides an account of the early years of the World Bank and traces the increasing acceptance of the idea of good governance within the Bank through the 1990s while systematically relating the policies of good governance to liberalism The author provides a detailed case study of World Bank lending to Ghana to demonstrate what the attempt to improve governance looks like in practice Williams assesses whether the World Bank has been successful in its attempts to improve governance and draws out some of the implications of the argument for how we should think about sovereignty for how we should understand the connections between liberalism and international politics This book will be of interest to students and scholars of international relations politics economics development and African studies

**Making**

**Cities Work** Richard Gilbert,Don Stevenson,Herbert Girardet,Richard Stren,2013-11-05 For too long cities have been thought of as environmental blackspots with high levels of air and soil pollution overcrowding poor sanitation and growing waste disposal problems This book takes a more positive attitude cities can be made to work sustainably Their high population density can work in the environment s favour if they can achieve efficient use of resources such as energy and water supplies and improve transport and infrastructure The best cities today are clean resource efficient green and pleasant and not only act as cultural and entertainment centres but also harbour great varieties of wildlife Making Cities Work looks at the vital role which local authorities can and must play in safeguarding and developing our towns and cities Their role is crucial and the aim of the book is to make governments international bodies and local authority associations aware of how

potential environmental and social problems can be overcome and what can be achieved This book is being written by urban development experts based on material supplied by the world's leading city associations It is being edited by one of the world's most highly regarded cultural ecologists and has been commissioned by UNHCS for the Habitat II conference Clearly written accessible and fully illustrated throughout with photographs figures and graphs it is ideal for students fascinating reading for the general public and essential for those involved in local authorities planning and development

Dernbach and Gabriela Maria Kutting,2010-10-30 International Sustainable Development Law is a component of Encyclopedia of Development and Economic Sciences in the global Encyclopedia of Life Support

Systems EOLSS which is an integrated compendium of twenty one Encyclopedias The Theme on International Sustainable Development Law reflects on the rights and duties of states and other actors in the development process The chapters range from International Development Law standard applications of economic theory to more radical approaches These three volumes are aimed at the following five major target audiences University and College Students Educators Professional Practitioners Research Personnel and Policy Analysts Managers and Decision Makers NGOs and GOs [Advancing Sustainable Development](#),1997-01-01 This book is the first systematic analysis of Russia s poverty and living standards since the country s independence Its primary goal is to quantify the nature and extent of changes in the welfare of Russians during the course of transition and beyond Part 1 establishes the economic and methodological framework within which poverty in the Russian Federation is studied Part 2 comprises a series of chapters that analyze poverty profiles and trends ranging across monetary and non monetary indicators Part 3 addresses selected critical aspects of the system of social support in the impact of public transfers the extent of private interhousehold transfers and public opinion about social problems

**Palestinian State Formation** Nubar Hovsepian,2009-03-26 This book examines the role of education in building a new Palestinian state and especially on the role and function of the education system in the process of state formation Since education frames a people s identity the nature of the education system affects how Palestinians relate to their state Through education the Palestinian Authority PA transforms the parameters of identity to serve the requirements of state building and the peace process International assistance to the PA affects all of these processes through the disbursal of political rent whose primary function is to bolster the PA and to keep the peace process going The new Palestinian Authority has assumed two seemingly contradictory functions state building and resistance and the dynamic tensions between the two raise key questions for political and policy analysis Are these functions mutually exclusive or complementary in the context of the ongoing peace negotiations and state building Can the Palestinian leadership transform the Palestinian national movement from a revolutionary organization to a pragmatic state apparatus Are the PLO and the PA interchangeable What type of power does the PA need to cultivate the support or to secure the compliance of the Palestinian people for the state building project Clearly the answers to these questions have a direct bearing on the education system Will this system promote a resistance identity or a state building legitimizing identity **Development Anthropology** Riall W Nolan,2018-02-06 Students will really appreciate this book It has a rare combination of humor clarity exceptional writing and above all a precision in outlining skills and knowledge for practice As a professional I learned much that will be useful to me Alexander M Ervin University of Saskatchewan At last a textbook on development anthropology that is comprehensive clearly written and up to date Nolan provides an exceptionally useful framework for analyzing development projects carefully illustrated with mini case studies Linda Stone Washington State University Nolan s book should be a backpack staple for the practitioner of grassroots development Jan Knippers Black Monterey Institute of International Studies Development

Anthropology is a detailed examination of anthropology's many uses in international development projects. Written from a practitioner's standpoint and containing numerous examples and case studies, the book provides students with a comprehensive overview of what development anthropologists do, how they do it, and what problems they encounter in their work. The book outlines the evolution of both applied anthropology and international development and their involvement with each other throughout the latter half of the twentieth century. It focuses on how development projects work and how anthropology is used in project design, implementation, and evaluation. The final section of the book considers how both development and anthropology must change in order to become more effective. An appendix provides practical advice to students considering a career in development anthropology. Nurturing Development Ismail Serageldin, 1995

**Decentralization of Education** Mark Bray, 1996-01-01 This book focuses on the financing of formal primary and secondary education in developing nations. The study does not consider the areas of pre-primary, post-secondary or nonformal education. Financing includes not only monetary inputs to education but also material, labor, expertise and land. The study examines the volume, nature and mechanics of community financing in a range of settings. Policy issues facing governments and those who work with them are presented. Instruments for incentives, guidance and control of community activities are considered. Specific strategies from different countries are presented and evaluated along with the importance of monitoring and evaluation. The paper concludes by summarizing the lessons in the context of debate about centralization and decentralization. Sections of the book include 1. Communities and Their Characteristics, 2. Scale, Motivation and Nature of Community Financing, 3. Mechanics of Community Financing, 4. Policy Issues Confronting Governments, 5. Government Incentives, Guidance and Controls, 6. Challenges and Risks, 7. Monitoring and Evaluation, and 8. Conclusion. Contains an 87 item list of references. EH
