Nutrition And Feeding Of The Handicapped Child

Iris M. Crump

Nutrition And Feeding Of The Handicapped Child:

Nutrition and Feeding of the Handicapped Child Iris M. Crump, 1987 Abstract This resource book provides data concerning nutrition and handicapped children The discussion ranges from basic nutritional information to a description of the eating process the assessment of eating and guidelines for intervention The main purpose of this text is to provide teachers therapists nurses and other school staff members with information that will help them to improve the nutritional status of their handicapped students Handicapped in this publication refers to any condition that impairs normal action or function The handicapping condition may be mental or physical Topics include evaluation of the nutritional status of the handicapped child identification evaluation and management of feeding disorders conditions that require special mealtime nutrition education programs in the classroom and resources for nutritional services

Nutrition and Feeding of the Handicapped Child Iris M. Crump, 1987-01-01

Feeding and Nutrition in Children with Neurodevelopmental Disability Peter B. Sullivan, 2009-07-13

This book is written to assist those who have responsibility for the nutritional and gastrointestinal care of children with neurodisability The emphasis throughout is on the importance of multidisciplinary care It is concerned with the problems surrounding the nutritional management of children with neurological impairment who have difficulty swallowing and feeding Written from a multidisciplinary perspective by a group of authors with considerable clinical and research experience in this area it covers The epidemiology of feeding disorders in children with cerebral palsy Nutritional assessment Evaluation of oral motor function Dietetic management Nursing issues in the nutritional care of the disabled child Tube feeding Gastrointestinal problems and their investigation

Feeding the Disabled Child Peter B. Sullivan, Lewis Rosenbloom, 1996-01-16

Disabled children often have feeding difficulty Choking food spillage and protracted mealtimes can pose enormous problems for their carers and the accompanying nutritional deficit imposes additional burdens on the affected child The aetiology of these problems is placed in context by a detailed description of normal feeding development in infants The often under recognised nutritional and neurodevelopmental consequences of inadequate nutrient intake together with the respiratory complications and the important problems of constipation and drooling which may accompany oro motor dysfunction are detailed The clinical and nutritional assessment and the application of diagnostic imaging techniques in the evaluation of such children are described The methods of management of these children's problems form the core of this volume and they range from oro motor therapy to various techniques for enteral feeding The ethical issues raised by the vigorous intervention needed to improve the nutritional state of severely disabled children is explored together with the need to provide ongoing psychological support for their carers

Feeding and Nutrition for the Child with Special Needs Marsha Dunn Klein, Tracy A. Delaney, 1994 These reproducible pages help you provide parents and caregivers with exactly the feeding and nutrition information they need for the child with special needs Parents will find

information on techniques troubleshooting behavior modification sources of additional information addresses of national organizations and suppliers of adapted equipment and recipes for specific nutritional needs Back cover **Feeding the Child with a Handicap** United States.
